Current Catalog National Library of Medicine (U.S.), *Dark Summit* Nick Heil,2008-04-29

Written by experienced climber Nick Heil *Dark Summit* is both a riveting account of a notorious climbing season and a troubling investigation into whether the pursuit of the ultimate mountaineering prize has spiraled out of control A dramatic story ably and convincingly told A chilling look at the precarious line between success and tragedy Kirkus Reviews On May 15 2006 a young British climber named David Sharp lay dying near the top of Mount Everest while forty other climbers walked past him on their way to the summit A week later Lincoln Hall a seasoned Australian climber was left for dead near the same spot Hall s death was reported around the world but the next day he was found alive after spending the night on the upper mountain with no food and no shelter If David Sharp s death was shocking it was hardly singular ten others died attempting to reach the summit that year In this meticulous inquiry into what went wrong Nick Heil tells the full story of the deadliest year on Everest since the infamous season of 1996 As more climbers attempt the summit each year Heil shows how increasingly risky expeditions and unscrupulous outfitters threaten to turn Everest into a deadly circus
