**Professional Ethics Education: Studies in Compassionate Empathy** Bruce Maxwell, 2008-04-01 1 1 Practical Ethics Education at an Impasse Why is some practical ethics training a requirement of nearly all programmes in higher education

The short answer is that it is thought to be conducive to ethical decision making and ethical behaviour. In recent years the received idea that competency in moral reasoning implies moral responsibility on the ground has been the subject of critical attention. Today researchers in moral education widely regard moral reasoning as but one among at least four dimensions of moral development alongside moral motivation, moral character and moral sensitivity. Rest 1986. Reflecting these changes educationalists in the diverse fields of medicine, education, business and applied ethics can now be found openly questioning how to take practical ethics education beyond the development of skills in moral reasoning. Frequently topping the list of suggested improvements is to provide support for empathic capacities of response. This work gives this proposal the systematic attention that it deserves. Contemporary applied ethics and by extension practical and professional ethics education can be considered an offshoot of the broad philosophical doctrine of moral realism. Moral realism takes many forms but in broad outline it is an established meta-ethical position that emerged as a seemingly attractive alternative to another family of established philosophical positions that sometimes goes under the name of expressivism.

**Violence Prevention and Safety Promotion in Higher Education Settings** Badea, Mihaela, Suditu, Mihaela, 2017-08-10 Nonviolent environments are desirable in many areas of life yet none are as essential as within our educational institutions. Providing a safe space for students has become a critical concern in modern society. *Violence Prevention and Safety Promotion in Higher Education Settings* is a vital resource that examines the current sources of violence within educational systems and it offers solutions on how to provide a safer space for both students and educators alike. Highlighting pertinent areas of interest including technological violence, academic regulations, nonviolent communication and gender discrimination, this reference publication is ideal for academicians, future educators, students and researchers interested in recent advancements that aid in providing secure, safe educational environments for everyone.

*Understanding Medical Education* Tim Swanwick, 2013-10-31 In this new and extensively updated second edition the Association for the Study of Medical Education presents a complete and authoritative guide to medical education. Written by leading experts in the field, *Understanding Medical Education* provides a comprehensive resource of the theoretical and academic bases to modern medical education practice. This authoritative and accessible reference is designed to meet the needs of all those working in medical education from undergraduate education through postgraduate training to continuing professional development. As well as providing practical guidance for clinicians, teachers and researchers, *Understanding Medical Education* will prove an invaluable resource to those studying at certificate, diploma or masters level and a first port of call for anyone engaged in medical education as an academic discipline. Exploring medical education in all its diversity and containing all you need in one place, *Understanding Medical Education* is the ideal reference not only for medical educators but for anyone involved in the development of healthcare professionals in whatever discipline wherever they are in the world.

**Women in Higher Education, 1850-1970** E. Lisa Panayotidis,Paul Stortz,2017-09-19 This edited collection illustrates the way in which women s experiences of academe could be both contextually diverse but historically and culturally similar It looks at both the micro individual women and universities and macro level comparative analyses among regions and countries within regional national trans national and international contexts The contributors integrally advance knowledge about the university in history by exploring the intersections of the lived experiences of women students and professors practices of co education and intellectual and academic cultures They also raise important questions about the complementary and multidirectional flow and exchange of academic knowledge and information among gender groups across programmes disciplines and universities Historical inquiry and interpretation serve as efficacious ways with which to understand contemporary events and discourses in higher education and more broadly in community and society This book will provide important historical contexts for current debates about the numerical dominance and significance of women in higher education and the tensions embedded in the gendering of specific academic programs and disciplines and university policies missions and mandates

**Leading from Within** Gretchen Ki Steidle,2018-09-11 A roadmap for integrating mindfulness into every aspect of social change how to lead transformation with compassion for the needs and perspectives of all people Gretchen Steidle knows first hand the personal transformation that mindfulness practice can bring But she doesn t believe that transformation stops at personal wellbeing In Leading from Within Steidle describes the ways that personal investment in self awareness shapes leaders who are able to inspire change in others build stronger relationships and design innovative and more sustainable solutions Steidle argues that both personal and societal transformation are essential for a just society and with this book she offers a roadmap for integrating mindfulness into every aspect of social change Conventional methods attempt to compel people to change through incentives or punitive measures Conscious social change calls for leading with a deeper human understanding of change and compassion for the needs and perspectives of all stakeholders Steidle offers mindfulness practices for individuals and groups presents the neuroscientific evidence for its benefits and argues for its relevance to social change She describes five capacities of conscious social change devoting a chapter to each She writes about her own experiences including her work helping women to found their own grassroots social ventures in post conflict Africa She describes the success of a group of rural uneducated women in Rwanda for example who now provide 9 000 villagers with clean water ending the sexual exploitation of disabled women unable to collect water on their own Steidle also draws from the work of change

agents in the United States to showcase applications of conscious social change to timely issues like immigration racism policing and urban violence Through personal stories and practical guidance Steidle delivers both the inspiration and tools of this innovative approach to social transformation About Global Grassroots In post conflict Africa Global Grassroots equips emerging women leaders including war survivors subsistence farmers and the undereducated with the tools and resources to create conscious social change Our core program is our Academy for Conscious Change a social entrepreneurship and mindfulness based leadership program that helps vulnerable women design their own non profit solutions to address priority social issues In our first decade of operations we have trained over 650 change agents who have designed 150 civil society organizations benefiting over 150 000 people Research in Education ,1971
