Education Of Desire Marxists And The Writing Of History:

The Education of Desire Harvey J. Kaye, 1992 Kaye addresses the much debated question of the role of intellectuals in the making of history and social change and insists upon the necessity of continuing to ask classical and fundamental Marxist questions about exploitation oppression and struggle **Reflections on the Marxist theory of history** Paul

Blackledge, 2013-07-19 A decade after Francis Fukuyama announced the End of History anti capitalist demonstrators at Seattle and elsewhere have helped reinvigorate the Left with the reply another world is possible More than anyone else it was Marx who showed that slogans such as this were no utopian fantasies and that capitalism was just as much a historical mode of production no more natural and certainly no less contradictory than were the feudal and slave modes which proceeded it Paul Blackledge opens this study with a defence of the Marxist approach to the study of history against what he argues as being the naive empiricism of traditional historians and the relativism of the postmodernists He moves on to outline Marx and Engels analyses of concrete historical processes and their critiques of the alternative historiographic methodologies of their contemporaries He then discusses neglected historical works produced by Marxists in the half century or so after Marx and Engels deaths Two central chapters survey recent Marxist debates on first the nature of modes of productions including slave feudal and tributary systems and the revolutionary transitions between them and second the methodological debate over the issue of structure and agency in the movement of history Finally he shows the political relevance of these debates through a concluding survey of competing Marxist attempts to periodise the present postmodern conjuncture This book should be read by historians students of cultural social and political theory and anti capitalist activists

Kaye, 1992 Kaye addresses the much debated question of

the role of intellectuals in the making of history and social change and insists upon the necessity of continuing to ask classical and fundamental Marxist questions about exploitation oppression and struggle **The British Marxist**

The Undivided Past David Cannadine, 2014-01-14 From one of our most acclaimed historians a wise and provocative call to re-examine the way we look at the past not merely as the story of incessant conflict between groups but also of human solidarity throughout the ages Investigating the six most salient categories of human identity difference and confrontation religion nation class gender race and civilization David Cannadine questions just how determinative each of them has really been For while each has motivated people dramatically at particular moments they have rarely been as pervasive as divisive or as important as is suggested by such simplified polarities as us versus them black versus white or the clash of civilizations For most of recorded time these identities have been more fluid and these differences less unbridgeable than political leaders media commentators and some historians would have us believe Throughout history in fact fruitful conversations have continually taken place across these allegedly impermeable boundaries of identity the world as Cannadine shows has never been simply and starkly divided between any two adversarial solidarities but always an interplay of overlapping constituencies Yet our public discourse is polarized more than ever around the same simplistic divisions and Manichean narrative has become the default mode to explain everything that is happening in the world today With wide ranging erudition David Cannadine compellingly argues against the pervasive and pernicious idea that conflict is the inevitable state of human affairs The Undivided Past is an urgently needed work of history one that is also about the present and the future
