God Freedom And Immortality A Critical Analysis:

God, Freedom, and Immortality Antony Flew, 1976 **God, Freedom, and Immortality** Antony Flew, 1984 Flew considers the great Kantian issues of God freedom and immortality He takes a new look at the arguments for the existence of God and the question of religious belief and examines the claim that our lives can have meaning only by assuming the existence of God and human immortality Throughout Flew cleaves to the agnostic principle that we ought always to proportion our belief to the evidence **The Devil's Advocate versus God's Honest Truth** Necip Fikri Alican, 2025-02-27 The Devil's Advocate versus God's Honest Truth is a scholarly monograph exploring the rationality of religion particularly the tenability of theism through a dialectical analysis of plausible arguments for the existence of God versus reasonable grounds for suspicion It offers a comprehensive and balanced coverage of the issues inviting readers to reflect and ponder the subject in its full scope The book thus makes up for the missing objectivity in an area that has long been dominated by sectarian scholarship and polarized beyond reconciliation Secularism and the Pursuit of Transcendence, Volume I Stanley E. Porter, Wendy J. Porter, 2025-02-20 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent's pursuit of us *The Myth of an Afterlife* Michael Martin, Keith Augustine, 2015-03-12 Because every single one of us will die most of us would like to know what if anything awaits us afterward not to mention the fate of lost loved ones Given the nearly universal vested interest in deciding this question in favor of an afterlife it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance But the evidence of our senses and the ever gaining strength of scientific evidence strongly suggest otherwise In *The Myth of an Afterlife: The Case against Life after Death* Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong comprehensive and up to date casebook of the chief arguments against an afterlife Divided into four separate sections this collection opens with a broad overview of the issues as contributors consider the strongest evidence of whether or not we survive death in particular

the biological basis of all mental states and their grounding in brain activity that ceases to function at death Next contributors consider a host of conceptual and empirical difficulties that confront the various ways of surviving death from bodiless minds to bodily resurrection to any form of posthumous survival Then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife heaven hell karmic rebirth and widely held ethical principles central to the belief systems supporting those notions In the final section authors offer critical evaluations of the main types of evidence for an afterlife Fully interdisciplinary *The Myth of an Afterlife* The Case against Life after Death brings together a variety of fields of research to make that case including cognitiveneuroscience philosophy of mind personal identity philosophy of religion moralphilosophy psychical research and anomalistic psychology As the definitive casebookof arguments against life after death this collection is required reading for anyinstructor researcher and student of philosophy religious studies or theology It issue to raise provocative issues new to readers regardless of background from thosewho believe fervently in the reality of an afterlife to those who do not or are undecidedon the matter

Atheism, Ayn Rand, and Other Heresies George H. Smith, 2010-06-03 In this wide ranging collection of articles essays and speeches George H Smith analyzes atheism and its relevance to society today The featured essay in this volume provides a full analysis of Ayn Rand s unique contribution to atheism explaining how her objectivist metaphysics and laissez faire economic principles rested on a purely godless worldview Several chapters address the evolution of atheism arguments in favor of religious toleration the efforts of early Church fathers to discredit Roman polytheism and how these arguments can be used with equal force against later Christian descriptions of God and a survey of the contributions to freethought made by the deists of the 18th and 19th centuries With incisive logic and considerable wit Smith ties atheism to reason and argues that reason itself can be a moral virtue In one penetrating chapter Smith salutes three Christian theorists who he believes embody the spirit of reason Thomas Aquinas Desiderius Erasmus and John Locke This is followed by a philosophical drubbing of his least favorite Christians St Paul St Augustine and John Calvin In subsequent chapters Smith examines religion and education addresses the 20th century fundamentalist revival offers suggestions on how to debate atheism with religious believers critiques new religions including pop therapy est and tranactional analysis and provides a comprehensive bibliographic essay on the literature of freethought

Wittgenstein's Doctrine of the Tyranny of Language: An Historical and Critical Examination of His Blue Book M. Engel, 2012-12-06

STEPHEN TOULMIN George Santayana used to insist that those who are ignorant of the history of thought are doomed to re enact it To this we can add a corollary that those who are ignorant of the context of ideas are doom ed to misunderstand them In a few self contained fields such as pure mathematics concepts and conceptual systems can perhaps be de tached from their historico cultural situations so that for instance a self taught Ramanujan living alone in India mastered number theory to a point at which he could make major contributions to European mathematics But elsewhere the situation is different and in philosophy inevitably so For philosophical ideas and problems confront us like geological specimens in situ and in the act of prising them free from their historical and cultural locations we can too easily forget about the matrix in which they took shape and end by imposing on them a sculptural form of our own making Something of this kind has happened in the case of Ludwig Wittgen stein For his philosophical work has commonly been seen as an episode in the development either of mathematical logic or oft twentieth century British philosophy His associations with Frege and Russell Moore and Waismann have over shadowed everything else in his cultural origins and intellectual concerns

In Defense of Miracles R. Douglas Geivett, Gary R. Habermas, 2025-10-16

Rumors of deception have surrounded claims of Jesus resurrection ever since the soldiers appointed to guard his tomb made their report to the Jewish authorities But no one has led the philosophic charge against miracles quite as influentially as David Hume with his 1748 essay *Of Miracles* Refined revised restated his arguments still affect philosophic discussions of miracles today During the twentieth century strong arguments have been raised by Antony Flew professor emeritus at Keele University in England Flew has contributed a fresh statement of his objections to the idea of God's acting in history just for this volume which also includes Hume's classic critique as a part of the case against miracles In response Douglas Geivett and Gary Habermas have assembled a distinguished team of scholars to rebut the objections and set forth the positive case for God's action in history Richard Purtill clarifies the word miracle while Norman Geisler critiques Hume's case against miracles Francis Beckwith and Winfried Corduan assess how we would recognize miracles in the past and in the present Ronald Nash examines naturalism's exclusion of miracles and shows its self-referential incoherence J P Moreland discusses whether science properly rules out the possibility of miracles God's existence and action in history are probed by David Beck and Stephen Davis while Douglas Geivett argues that within a theistic framework it is reasonable to expect miracles as confirmation of claims to special revelation David Clark examines miracles within the context of various world religions Robert Newman John Feinberg William Lane Craig and Gary Habermas conclude by investigating fulfilled prophecy the virgin birth and incarnation of Jesus the empty tomb and the resurrection appearances *In Defense of Miracles* is a comprehensive up to date discussion that should not be overlooked by anyone concerned with the current debate over miracles

Ghosts R. C. Finucane, 1996-06

Throughout history people have reported seeing ghosts But a Victorian ghost is in many respects a very different phenomenon from a ghost in Classical Greece or in medieval Europe Finucane surveys reports of ghosts from ancient Greece the early Christian era the Reformation the Victorian age and through the twentieth century He asks such questions as How have the physical aspects claimed for ghosts varied from age to age What differences are there in the functions and intentions ascribed to ghosts How have the changes in more general beliefs in religion and science in particular influenced the perception of ghosts Drawing on primary sources from all periods and cultures Finucane addresses this topic in its full breadth R C Finucane Rochester MI is chairperson of the Department of History at Oakland University highly recommended
