philosophical theological and educational dimensions of the concept of ordinary theology its significance for the work of the theologian as well as for those engaged in the ministry of the church and the criticisms that it faces Ordinary theology Astley writes is the church's front line Statistically speaking it is the theology of God's church

**Foucault, Christianity and Interfaith Dialogue** Henrique Pinto, 2020-11-25 Foucault Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas Michel Foucault The author argues that it is the injustice done to the Other by Roman Catholic Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault's de-centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non-unitary theology of religious pluralism and an open textured process of self transformation The author's original and imaginative application and expansion of Foucault's concept of the More from The Archaeology of Knowledge 1969 makes important and original contributions to academic work on Foucault and contemporary theology

**Christianity and the Religions** Edward Rommen, Harold A.

Netland, 1995-09-15 The Majesty and Greatness of God Unprecedented opportunities and challenges await the Christian church as it approaches the 21st century Just fifty years ago we could not have dreamed how advanced technologies and the remarkable rise of non Western missionaries would open doors for world evangelization At the same time the church finds itself increasingly troubled by internal and external pressures resulting in a deep sense of insecurity about its mission in the world The current theological and missiological ferment is seen in debates about religious pluralism What is the relationship between the Christian faith and other religious traditions Missiologist Gerald Anderson says No issue in missiology is more important more difficult more controversial or more divisive for the days ahead than the theology of religions This is the theological issue for mission in the 1990s and into the 21st century The essays in this book take a fresh look at the biblical data to address pressing questions raised by religious pluralism With a greater understanding of these issues God's people

*The Unique and Universal Christ* Michael Nazir-Ali, 2018-02-28 There are tremendous pressures on Christians in the contemporary world to conform to a libertarian vision of a multi faith society where no one makes truth claims about their faith In such a situation Christians need to think afresh about the uniqueness and universality of Jesus Christ and what this might mean in today's plural world Bishop Michael Nazir Ali shows how Jesus understanding of himself and his work bears on contemporary cultures and their values He explores critical questions Christians must face What does the gospel affirm in contemporary cultures What does the gospel fulfil in contemporary cultures What does the gospel challenge in contemporary cultures How does our understanding of the crucified and risen Lord affect our view of the human condition How can we evaluate the different religious traditions of the world in the light of Christ How can we be welcoming and hospitable but also committed to that conversion and transformation of individuals and of human societies which has been revealed as God's purpose in Christ Christian claims of uniqueness have a direct bearing on what informs the social order Consequently this book takes on the challenge of relativism in the contemporary social and political arena
