Goddess Of The Stones Circles In The Age Of Stonehenge:

Sacred Geometry in Ancient Goddess Cultures Richard Heath, 2024-03-26 Examines the ancient cosmic science of the female megalithic astronomers Describes the shared sacred geometry and astronomy knowledge in the megalithic monuments temples and secret calendars of the matrilineal cultures of Malta Gobekli Tepe and the Minoans of Crete Shows how early Christians helped preserve ancient science by encoding it in the rock cut churches of the Cappadocia region of Turkey Explains how Greek myths reveal the transition from matriarchy to patriarchy Long before Pythagoras and Plato before arithmetic and Christianity there existed matrilineal societies around the Mediterranean led by women with a sophisticated understanding of astronomy and sacred science In this detailed exploration Richard Heath decodes the cosmological secrets hidden by ancient goddess centered cultures on the island of Malta at G bekli Tepe in Turkey and on the Greek island of Crete Heath reveals how the female astronomers of Malta built megaliths to study the sun moon and planets counting time as lengths and comparing lengths using geometry He shows how they encoded their cosmological and astronomical discoveries their astronomy of the goddesses in the geometries of their temples and monuments Examining Maltese and Cretan artifacts including secret calendars he details how the Minoans of Crete transformed Maltese astronomy into a matriarchal religion based on a Saturnian calendar of 364 days He also reveals evidence of the precursors of Maltese astronomical knowledge in the monuments of G bekli Tepe Looking at the shift from sacred geometry to arithmetic in ancient Mediterranean cultures the author parallels this change in mindset with the transition from matriarchal to patriarchal cultures He reveals how Greek myths present a way to see the matriarchal past through patriarchal eyes detailing how Saturn s replacement by Jupiter Zeus symbolizes the transition from matriarchy to patriarchy The author examines how the early Christians helped preserve the ancient astronomy of the goddesses due to its connections to Christ s cosmological teachings by encoding this astronomy in the artwork of the rock cut churches and monasteries of the Cappadocia region of Turkey Revealing how our planet with its specific harmonics and geometries within our star system is uniquely designed to support intelligent life the author shows how this divine spiritual truth was known to the ancient astronomers The

Stone Circles of Aberdeenshire John Hill, 2021-03-15 Recumbent Stone Circles are a distinctive architectural style of British stone circle Built circa 2500 BC they dominated the Late Neolithic landscape of Aberdeenshire Scotland This book discusses their archaeology and using experimental archaeology explains how the original builders went about building these magnificent stone circles Sharing the results of the author s unique experiments the book demonstrates how measured ropes were used to set out the geometrical design of the stone rings as well as dictate the dimensions of the circle s respective orthostats Moreover given the book s provision of instructions on to repeat these experiments the reader will be able to explore how these circles not only captured their corresponding astronomy but how they were also positioned in the

landscape so that they were astronomically aligned towards each other creating a network of inter aligned stone circles that enabled the prehistoric communities to synchronise both time and space across the vast regions of Aberdeenshire

from its more famous neighbor Stonehenge is rich in symbols linked to pre Christian Goddess religions This book reveals the wonders of the site the largest and most complex prehistoric monument in Britain through a lavishly illustrated guided tour encompassing history archaeology spirituality and art Druidism, the Ancient Faith of Britain Dudley Wright, 1924 *How the Neolithics Influenced Rock 'n' Roll* Andrew Johnstone, 2010-10-13 This book sets out to explore the connections between megalithic monuments and Rock n Roll music by first addressing what the megalithic structures would have originally meant to the builders and users of these sites and at the statements they were making at that time It then looks at how Rock n Roll artists have incorporated images of these monuments into album cover designs by looking at specific examples in an attempt to understand why despite being separated by millennia from the original builders they chose to use such places to represent the statements they are making through their music in the late 20th and early 21st centuries *The Stone Circles of Britain, Ireland, and Brittany* Aubrey Burl, 2000-01-01 The spectacular stone circles of western Europe some nearly 6000 years old have intrigued viewers through the ages This beautiful book about these megalithic rings explores their ancestry methods of construction and eventual desertion A substantially revised version of Aubrey Burl s highly praised work The Stone Circles of the British Isles it offers new insights into the purpose of stone circles It also provides a new interpretation of Stonehenge and of Callanish in Scotland the first overview of the cromlechs in Brittany a discussion of the problems of archaeoastronomy as related to stone circles a greatly expanded Gazetteer and an up to date list of radiocarbon dates and recent excavations

Veda. History as told in the mythology of the northern races. History of the worship of Ia or Yah James Francis Katherinus Hewitt,1895 *Grandpa Was a Deity* William Lawrence Lipton,2011-09-16 What began with a basic curiosity of an adoptee about his biological origins became a genetic exploration into history when he discovered two of his identifying y chromosome markers created a rare but traceable combination which appeared in supporting data of multiple research papers This book explores both his documented ancestry and that revealed by his y DNA Along the way everything in his personal history seems to contribute in some way to the results of his research The most significant element of that personal history is probably his learned inability to allow himself to be defeated by transient intellectual problems or perceived handicap In the process of joining him as he searches for his past you will be exposed to techniques that can assist you in discovering aspect of your own genealogy which you may never have considered You will also as he states in the book be introduced to secret knowledge contained in the Book of Genesis As part of that knowledge you will learn why the patriarchs were given lifespans ranging from several hundred to nearly a thousand years You will learn of a connection between Stonehenge Britains earthwork hedges and the Great Pyramids one that does not involve or invoke alien astronauts Many books have garnered the labeled Groundbreaking but seldom has there been one that is so current as to render the use of any conventional bibliography superfluous Almost weekly there are new findings in the fields of DNA ancestry archaeology and the relatively new field of astro archaeology Amazingly they all seem to reinforce the connections and associations revealed here But you might also discover things about the factual underpinnings of religion which you might not wish to know or think about Not the least of which is why there was time when the wisest people believed their Grandpa was a Deity
