Going Ballistic The Buildup Of Mibiles In The Middle East:

Nasser and the Missile Age in the Middle East Owen L. Sirrs, 2007-01-24 Egyptian efforts to acquire long range surface to surface missiles in the early 1960s carry important lessons for our time when weapons of mass destruction and charges of politicizing intelligence are key issues This new study traces the history of the early Egyptian ballistic missile program which began with the successful recruitment of German scientists who had experience in Hitler s V1 and V2 missile projects Yet even as these Germans began their work on developing missiles for Egyptian President Gamal Abdel Nasser Israeli intelligence was busy collecting information on their activities sparking a crisis in the Israeli leadership as top Israeli officials anxiously debated strategies to grapple with this new threat to their national security Ultimately they adopted a multifaceted approach that included intimidation of the scientists and their families appeals to the West German government to order the scientists recall and an attempt to involve the US government in the intricacies of the Arab Israeli conflict Drawing extensively on material from recently declassified US government documents this new major work demonstrates how Nasser s missile program played an instrumental role in cementing the US Israeli national security relationship The book concludes with several key lessons that can help stem the global proliferation of advanced weapons This book will be of great interest to scholars of proliferation international relations the Middle East disarmament and security studies in general

Solomon, Masataka Kosaka, 2021-01-26 This book first published in 1986 examines the challenges the United States faced in maintaining a strong nuclear deterrence capability in the Far East without giving rise to political tensions among its allies The Soviet aggression in the region shown in the invasion of Afghanistan and the shooting down of a Korean airliner demonstrated the need for a Western counterbalance but the Asian nations were wary of becoming pawns in a nuclear power play between the superpowers This book evaluates the meaning of Moscow s military buildup in the global context analyses the impact of the buildup from the perspective of China Korea Japan the nations of ASEAN Australia and New Zealand explores the interaction of the buildup with the unresolved conflict on the Korean peninsula and assesses the European experience with the Soviet nuclear threat and examines its implications for Asia It also evaluates the linkages between European and Asian security *An Historical Encyclopedia of the Arab-Israeli*
