

Module 4: Language Development Study Guide

Learning Objective: The candidate describes stages of language development to inform appropriate expectations of P–12 students.

Chomsky's Theory of Language Development:

Key Terms	Description	Ages most applicable	Examples
Language Acquisition Device	Biological innate ability to learn language		
Universal Grammar	Certain grammatical rules all human languages share		
Motherese	High pitch excited voice		

Skinner's Operant Conditioning Theory:

Process	Description	Examples
Reinforcement (Positive)	Rewards. Being reinforced for the sounds you're making	When babies babble and then they say their first word mamma and you stop what you doing and praise them with excitement
Imitating	Copying others	Seeing a sibling ask for an apple and then they ask for one
Prompting	From others – questioning response (baby pointing)	Parent might ask "do you want an apple?"
Shaping	From others – providing positive reinforcement when they are close	A child says "C" you give them a cookie. A child says "coo" you give them a cookie a child says "cook" you give them a cookie

Vygotsky's Theory of Language Development:

- How are Vygotsky's theory of sociocultural development and his theory of language development related?
- What is an example of teaching vocabulary in a content lesson and using the ZPD?

Stages of Language Development

Even though the Holophrastic stage might not be the age you are teaching, if a student is learning a language for the first time or is developmentally challenged, think about how these stages might be applicable in your classroom and how you can respectfully teach this student.

Stages	Age Span	Description
Babbling	Birth to 11 mo	Recognizes and produces sounds
Holophrastic	11mo-1.5yrs	One word stage; overgeneralize
Two-word	18mo-2.5yrs	Two words
Telegraphic	2.5yrs- fluent language skills	10-12 new words a day, may not use correct grammar
