

Escape from Reason

FRANCIS A. SCHAEFFER

FOREWORD BY J. P. MORELAND

Escape From Reason

Molly Worthen

Escape From Reason:

Escape from Reason Francis A. Schaeffer, 2014-06-10 Truth is no longer based on reason What we feel is now the truest reality Yet despite our obsession with the emotive and the experiential we still face anxiety despair and purposelessness Tracing trends in twentieth century thought Francis A Schaeffer shows that Christianity offers meaning where there is purposelessness and hope where there is despair

Escape from Reason Francis August Schaeffer, 1976 Man is dead God is dead Life has become meaningless existence man a cog in a machine The only way of escape lies in a non rational fantasy world of experience drugs absurdity pornography an elusive final experience madness If this is the twentieth century mentality how did it come about And how can the Christian faith be made meaningful today In this highly original book Dr Schaeffer traces the way in which art and philosophy have reflected the dualism in Western thinking introduced at the time of the Renaissance Today this dualism is expressed in a despair of rationality and an escape into a non rational world which alone offers hope It is shown in literature art and music theatre and cinema television and popular culture

Francis Schaeffer and the Shaping of Evangelical America Barry Hankins, 2008-11-03 Francis Schaeffer 1912 1984 was probably the single greatest intellectual influence on young evangelicals of the 1960s and 70s He was cultural critic popular mentor political activist Christian apologist founder of L Abri and the author of over twenty books and two important films It is impossible to understand the intellectual world of contemporary evangelicalism apart from Francis Schaeffer Barry Hankins has written a critical but appreciative biography that explains how Schaeffer was shaped by the contexts of his life from young fundamentalist pastor in America to greatly admired mentor to lecturer and activist who encouraged world wary evangelicals to engage the culture around them Drawing extensively from primary sources including personal interviews Hankins paints a picture of a complex sometimes flawed but ultimately prophetic figure in American evangelicalism and beyond

The Francis A. Schaeffer Trilogy Francis August Schaeffer, 1990 Considered foundational to his entire life s work this text was revised shortly before the renowned theologian s death

[A Christian View of Philosophy and Culture](#) Francis A. Schaeffer, 1994 2

Escape From Reason

The Teleology of Reason Courtney D. Fugate, 2015-02-17 This work argues that teleological motives lie at the heart of Kant s critical philosophy and that a precise analysis of teleological structures can both illuminate the basic strategy of its fundamental arguments and provide a key to understanding its unity It thus aims through an examination of each of Kant s major writings to provide a detailed interpretation of his claim that philosophy in the true sense must consist of a teleologia rationis humanae The author argues that Kant s critical philosophy forged a new link between traditional teleological concepts and the basic structure of rationality one that would later inform the dynamic conception of reason at the heart of German Idealism The process by which this was accomplished began with Kant s development of a uniquely teleological conception of systematic unity already in the precritical period The individual chapters of this work attempt to show how Kant adapted and refined this conception of systematic unity so that it came to

form the structural basis for the critical philosophy **Truth with Love** Bryan A. Follis, 2006-09-22 Francis Schaeffer was a well known extremely influential apologist and thinker who made his mark defending orthodox truth in the face of strong opposition He was foremost in the vocation of apologetic ministry and he was a brilliant man whom God used mightily during the decades of the 1960s 70s and 80s In Truth with Love Bryan Follis explores the theology and thinking that fueled the ministry of Francis Schaeffer from his Reformed position to his understanding of fundamentalism Follis examines Schaeffer's apologetic argument and the role of reason in his discussions and writings The position Francis Schaeffer took against modernism and its applicability in this day of postmodernism are studied as well This book is a beneficial resource for any Francis Schaeffer fan and any minister teacher or student who appreciates truth and its defense in the face of different kinds of opposition

Intellectuals Don't Need God and Other Modern Myths Alister E. McGrath, 2010-12-21 Rethinking Effective Apologetics for the Present Age Christians have always had to defend their faith against all kinds of criticism and misunderstandings but these attacks change overtime and the strongest arguments of the famous classical apologists who preceded us are not necessarily the strongest today Intellectuals Don't Need God is written to today's faithful apologists who are trying to commend Christianity in terms of its relevance to everyday life and not just its inherent rationality Its focuses are Understanding and overcoming the barriers of faith in today's culture Presenting the points of contact between daily life and spiritual longing Demonstrating the apologetics of today in action Theologian and scientist Dr Alister McGrath author of the ECPA 2014 Christian Book Award Winning biography of C S Lewis shows convincingly that appeal to reason is only one of many possible bridges between the non Christian and the gospel In today's world cerebral and emotional concerns such as a sense that life lacks purpose or a deep sense of longing for something unknown are often more effective starting points for modern apologetics Dr McGrath combines the clarity of a brilliant scientific mind with a deep commitment to Christ and to reaching non Christians Intellectuals Don't Need God is for apologists and seekers alike for both those defending and questioning the validity and value of Christianity

Objectivism Leonard Peikoff, 1993-12-01 THE 25TH ANNIVERSARY EDITION The definitive statement of Ayn Rand's philosophy as interpreted by her best student and chosen heir This brilliantly conceived and organized book is Dr Leonard Peikoff's classic text on the abstract principles and practical applications of Objectivism based on his lecture series The Philosophy of Objectivism Ayn Rand said of these lectures Until or unless I write a comprehensive treatise on my philosophy Dr Peikoff's course is the only authorized presentation of the entire theoretical structure of Objectivism that is the only one that I know of my knowledge to be fully accurate In Objectivism Peikoff covers every philosophic topic that Rand regarded as important from certainty to money from logic to art from measurement to sex Drawn from Rand's published works as well as in depth conversations between her and Peikoff these chapters illuminate Objectivism and its creator with startling clarity With Objectivism the millions of readers who have been transformed by Atlas Shrugged and The Fountainhead will discover the full philosophical system underlying Ayn Rand's work

Anamnesis Eric Voegelin, 1990 Volume 6 of The Collected Works of Eric Voegelin offers the first translation of the full German text of Anamnesis published in 1966 The previous English edition translated by Gerhart Niemeyer focused largely on the sections of Anamnesis dealing directly with Voegelin's philosophy of consciousness It omitted some of the extensive historical studies on which the philosophy of consciousness was based To properly understand Voegelin's work however it is essential to give equal weight to the empirical as well as the philosophical aspects This complete version of Anamnesis captures the full integrity of his vision It is at once scientific in the sense of fidelity to the demands of historiographic scholarship and philosophical in exploring the significance of the texts for the meaning of human existence in society and history Anamnesis is a pivotal work within Voegelin's intellectual odyssey Alone among Voegelin's books it reveals an author looking back and taking stock of his growth rather than customarily forging ahead into new regions and new problems This critical work is both a recollection of Voegelin's own development reaching back even to his infant memories and a demonstration of the anamnestic method as applied to a wide range of historically remembered materials Written as more than just a collection of essays Anamnesis is the volume in which Voegelin works out for himself the reconceptualization of what Order and History and by definition his central philosophical approach is going to be By revisiting his previous work a departure from Voegelin's usual scholarly habits he found at last the literary form for the kind of empirical philosophical meditation that had long absorbed his labors Parts I and III contain biographical and meditative reflections written by Voegelin in 1943 and 1965 respectively The first part details the breakthrough by which Voegelin recovered consciousness from the current theories of consciousness Part III begins as a rethinking of the Aristotelian exegesis of consciousness and then expands into new areas of awareness that had not come within the knowledge of classic philosophy Between these two meditative selections are eight studies that demonstrate how the historical phenomena of order gave rise to the type of analysis which culminates in the meditative exploration of consciousness

Reason of State Thomas Poole, 2015-07-20 This historically embedded treatment of theoretical debates about prerogative and reason of state spans over four centuries of constitutional development Commencing with the English Civil War and the constitutional theories of Hobbes and the Republicans it moves through eighteenth century arguments over jealousy of trade and commercial reason of state to early imperial concerns and the nineteenth century debate on the legislative empire to martial law and twentieth century articulations of the state at the end of empire It concludes with reflections on the contemporary post imperial security state The book synthesises a wealth of theoretical and empirical literature that allows a link to be made between the development of constitutional ideas and global realpolitik It exposes the relationship between internal and external pressures and designs in the making of the modern constitutional polity and explores the relationship between law politics and economics in a way that remains rare in constitutional scholarship

Reason of State Thomas M. Poole, 2015-07-20 An original work on the important idea of reason of state and British and imperial history and constitutional theory

The Reason of Reason Scott

R. Cherry, 2020-07-09 This is a heartfelt study of reason and human rationality and other related things It s a meta study that personally fascinates this author Why are humans rational beings Why is there logic and other kinds of order Why is there intelligibility The self evident existence of reason logic and intelligibility are strong evidence for God Reason is an undeniable human faculty that defines humanness and points to a rational universe This in turn points to the principle of reason or the logos developed by Heraclitus and other Greek philosophers and later by the Apostle John Reason and its corollaries emerge like aspects of language and complement each other like speaking and listening Indeed mutual communication works because of reciprocity which is a root form of intelligibility This seems to be the structure or order which is best explained by a rational divine Mind that exists eternally in reciprocal complementarity This then is an exploration of the role of the Logos principle in the human experience and condition we often refer to as Reality It is an attempt to answer these four questions and others related to it Why do reason and logic work Why do we believe and trust in them Why do we expect things to make sense Why does anything make sense at all

Kierkegaard's Influence on Theology: Anglophone and Scandinavian Protestant theology Jon Bartley Stewart, Tome II is dedicated to tracing Kierkegaard s influence in Anglophone and Scandinavian Protestant religious thought In Britain before World War I the few literati who were familiar with his work tended to assimilate Kierkegaard to the heroic individualism of Ibsen and Nietzsche In the United States knowledge of Kierkegaard was introduced by Scandinavian immigrants who brought with them a picture of the Dane as much more sympathetic to traditional Christianity The interpretation of Kierkegaard in Britain and America during the early and mid twentieth century generally reflected the sensibilities of the particular theological interpreter Anglican theologians tended to find Kierkegaard to be one sided in his critique of reason and culture while theologians hailing from the Reformed tradition often saw him as an insightful harbinger of neo orthodoxy The second part of Tome II is dedicated to the Kierkegaard reception in Scandinavian theology featuring articles on Norwegian and Swedish theologians influenced by Kierkegaard

Apostles of Reason Molly Worthen, 2014 In *Apostles of Reason* Molly Worthen offers a sweeping history of modern American evangelicalism Traditionally evangelicalism has been seen as a cohesive indeed almost monolithic religious movement Sometimes religion drops out of the picture and evangelicalism is treated strictly as a political force Worthen argues that these views are false Evangelicalism is rather a community of believers preoccupied by three elemental concerns how to reconcile faith and reason how to know Jesus and how to bring faith to a secularized public square In combination under the pressures of modernity and in the absence of a guiding authority capable of resolving uncertainties and disagreements these debates have shaped evangelicals into a distinctive spiritual community

Injustice and Restitution

Stephen David Ross, 1993-09-28 This book addresses the nature and injustice of authority retracing the ideas of reason and law from ancient Greece to the present pursuing a line of thought begun with Anaximander who speaks of the ordinance of time as restitution for immemorial injustice and Heraclitus who speaks of justice as strife Predominantly philosophical

exploring the authority of Western philosophy in twentieth century continental and pragmatist writings the book explores alternative voices as challenges to authority in feminist and multicultural writings in Greek mythology and African narratives in Greek drama and twentieth century literature **Keshab** John Stevens,2018-06-01 A new biography of the Bengali philosopher and social reformer who sought to incorporate Christian theology within Hindu thought *The Eric Voegelin Reader* Charles R. Embry,Glenn Hughes,2017-10-20 By the time Eric Voegelin fled Hitler s regime and made his way to the United States in 1938 he had already written four books criticizing Nazi racism establishing what would be the focus of his life s work to account for the endemic political violence of the twentieth century One of the most original political philosophers of the period Voegelin has largely avoided ideological labels or categorizations of his work Because of this however and because no one work or volume of his can do justice to his overall project his work has been seen as difficult to approach Drawing from the University of Missouri Press s thirty four volume edition of *The Collected Works of Eric Voegelin* 1990 2009 Charles Embry and Glenn Hughes have assembled a selection of representative works of Voegelin satisfying a longstanding need for a single volume that can serve as a general introduction to Voegelin s philosophy The collection includes writings that demonstrate the range and creativity of Voegelin s thought as it developed from 1956 until his death in 1985 in his search for the history of order in human society The Reader begins with excerpts from *Autobiographical Reflections* 1973 which include an orienting mixture of biographical information philosophical motivations and the scope of Voegelin s project It reflects key periods of Voegelin s philosophical development pivoting on his flight from the Gestapo The next section focuses on Voegelin s understanding of the contemporary need to re ground political science in a non positivistic post Weberian outlook and method It begins with Voegelin s historical survey of science and scientism followed by his explanation of what political science now requires in his introduction to *The New Science of Politics* Also included are two essays that exemplify the practice of this new science Voegelin started his academic career as a political scientist and these early essays indicate his wide philosophical vision Voegelin recognized that a fully responsible new science of politics would require the development of a philosophy of history This led to the writing of his magnum opus the five volume *Order and History* 1956 1985 This section of the Reader includes his introductions to volumes 1 2 and 4 and his most essential accounts of the theoretical requirements and historical scope of a philosophy of history adequate to present day scholarship and historical discoveries In the course of his career Voegelin came to understand that political science political philosophy and philosophy of history must have as their theoretical nucleus a sound philosophical anthropology based on an accurate philosophy of human consciousness The next set of writings consists of one late lecture and four late essays that exemplify how Voegelin recovers the wisdom of classical philosophy and the Western religious tradition while criticizing modern misrepresentations of consciousness The result is Voegelin s contemporary accounts of the nature of reason the challenge of truly rational discussion and the search for divine origins and the life of the human spirit During his philosophical journey

Voegelin addressed the historical situatedness of human existence explicating the historicity of human consciousness in a manner that gave full due to the challenges of acknowledging both human immersion in the story of history and the ability of consciousness to arrive at philosophically valid truths about existence that are transhistorical. The essays in this final section present the culmination of his philosophical meditation on history, consciousness, and reality.

Certainty and Ambiguity in Global Mystery Fiction John J. Han, C. Clark Triplett, Matthew Bardowell, 2024-02-08. Mystery fiction as a genre renders moral judgments not only about detectives and criminals but also concerning the cultural structures within which these mysteries unfold. In contrast to other volumes which examine morality in crime fiction through the lenses of personal guilt and personal justice, *Certainty and Ambiguity in Global Mystery Fiction* analyzes the effect of moral imagination on the moral structures implicit in the genre. In recent years, public awareness has attended to the relationship between social structures and justice, and this collection centers on how personal ethics and social ethics are bound together amidst the shifting moral landscapes of mystery fiction. Contributors discuss the interplay between personal guilt and social guilt, considering morality and justice on an individual level and at a societal level using frameworks of certainty and ambiguity. They show how individual characters in works by Agatha Christie, Gabriel García Márquez, Natsuo Kirino, F. H. Batacan, and Stephen King, among others, may view their moral standing with certainty but clash with the established mores of their culture. Featuring essays on Japanese, Filipino, Indian, and Colombian mystery fiction, as well as American and British fiction, this volume analyzes social guilt and justice across cultures, showing how individuals grapple with the certainty and at times the moral ambiguity of their respective cultures.

A Guide to Doing Theology John Parratt, 2015-07-01. What is the relevance of the gospel in the modern world? Whenever we ask this question, we are doing theology. Taking its cue from the Bible, this introductory text considers the impact of language, history, and culture, as well as of science, philosophy, and other religions on Christians. The International Study Guides (ISGs) are clear and accessible resources, contextual and ecumenical in content and missional in direction. The contributors are theological educators who come from different countries and different religious backgrounds and bring practical emphasis alongside contemporary scholarly reflection.
