Veitch,2006-01-01 When writers go on journeys it is as often to explore the terra incognita of their own selves as to establish the identities of strange lands in the case of many English novelists between the great wars it was certainly true as Douglas Veitch remarks in the study I am introducing that their work even as it essayed the exotic cast an eye homeward and inward and that they roamed the world seeking surcease from a prevailing malaise which doubted the values of Western Civilization Mr Veitch has taken this vital element in the three novels The Plumed Serpent The Power and the Glory and Under The Volcano and has used it not merely to examine these works themselves but also to sketch out the ambivalent role which landscape plays in all fiction as omnipresent background but also as a rich source of symbols and images reflecting the human drama which a book develops He has as he more than once makes clear done more than read all the relevant literature he has himself travelled to Mexico in order to see and

experience the extraordinary terrain and as I can vouch on the basis of my own knowledge of that infinitely attractive and repellent country he used his senses well while he was there from the Introduction by George Woodcock **FRED M. Allitt explains how despite the Church's dogmatic style and hierarchical structure converts working in the areas of history science literature and philosophy maintained that Catholicism was intellectually liberating British and American converts followed each other's progress closely visiting each other and sending work back and forth across the Atlantic The outcome of their labors was not what the converts had hoped Although they influenced the Catholic Church for three or four generations they were unable to restore it to the central place in Western intellectual life that it had enjoyed before the Reformation
