Education and Anthropology Annette Rosenstiel, 2019-07-23 Originally published in 1977 and compiled over a period of 25 years of teaching and research in the fields of education and anthropology this annotated bibliography was designed as a single source reflecting 1 historical influences 2 current trends 3 theoretical concerns and 4 practical methodology at the interfaces of these disciplines All entries listed alphabetically by author are numbered for ready reference and the material covered spans nearly three centuries from the earliest entry in 1689 to the most recent in 1976 The volume also contains entries for items dealing with the teaching of anthropology and the use of anthropological concepts and data in teaching

Reciprocity Rules Michelle C. Johnson, Edmund (Ned) Searles, 2020-12-16 *Reciprocity Rules* explores the rich and complicated relationships that develop between anthropologists and research participants over time Focusing on compensation and the creation of friendship and family relationships contributors discuss what when and how researchers and the people with whom they work give to each other in and beyond fieldwork Through reflexivity and narrative the contributors to this edited collection who are in various stages in their professional careers and whose research spans three continents and eight countries reflect on the ways in which they have compensated their research participants and given back to host communities as well as the varied responses to their efforts The contributors consider both material and non material forms of reciprocity stories of successes and failures and the taken for granted notions of compensation friendship and helping In so doing they address the interpersonal dynamics of power and agency in the field examine cultural misunderstandings and highlight the challenges that anthropologists face as they strive to maintain good relations with their hosts even when separated by time and space The contributors argue that while learning following openly discussing and writing about the local rules of reciprocity are always challenging they are essential to responsible research practice and ongoing efforts to

decolonize anthropology **Applied Anthropology in Canada** Edward J. Hedican, 2008-07-05 Anthropologists are often reluctant to present their work relating to matters of a broad social context to the wider public even though many have much to say about a range of contemporary issues In this second edition of a classic work in the field Edward J Hedican takes stock of Anthropology s research on current indigenous affairs and offers an up to date assessment of Aboriginal issues in Canada from the perspective of applied Anthropology In his central thesis Hedican underlines Anthropology s opportunity to make a significant impact on the way Aboriginal issues are studied perceived and interpreted in Canada He contends that anthropologists must quit lingering on the periphery of debates concerning land claims and race relations and become more actively committed to the public good His study ranges over such challenging topics as advocacy roles in Aboriginal studies the ethics of applied research policy issues in community development the political context of the self government debate and the dilemma of Aboriginal status and identity in Canada *Applied Anthropology in Canada* is an impassioned call for a revitalized Anthropology one more directly attuned to the practical problems faced by First Nations peoples Hedican s focus on Aboriginal issues gives his work a strong contemporary relevance that bridges the gap between scholarly and public spheres *Consciousness and inquiry* Frank Manning, 1983-01-01 The papers in this volume were prepared for *Consciousness and Inquiry* a conference jointly sponsored by the National Museum of Man and the Canadian Ethnology Society and held in London Ontario in 1981 The papers focus on interests and concerns which characterize contemporary Canadian ethnology Published in English **Inuit Women** Janet Mancini Billson, Kyra Mancini, 2007 *Inuit Women* is the definitive study of the Inuit during a time of rapid change Based on fourteen years of research and fieldwork this analysis focuses on the challenges facing Inuit women as they enter the twenty first century Written shortly after the creation of Nunavut a new province carved out of traditional Inuit homelands in the Canadian North this compelling book combines conclusions drawn from the authors ethnographic research with the stories of Inuit women and men told in their own words In addition to their presentation of the personal portraits and voices of many Inuit respondents Janet Mancini Billson and Kyra Mancini explore global issues the impact of rapid social change and Canadian resettlement policy on Inuit culture women s roles in society and gender relations in Baffin Island in the Eastern Arctic They also include an extensive section on how the newly created territory of Nunavut is impacting the lives of Inuit women and their families Working from a research approach grounded in feminist theory the authors involve their Inuit interviewees as full participants in the process This book stands alone in its attention to Inuit women s issues and lives and should be read by everyone interested in gender relations development modernization globalization and Inuit culture **Human Ecology and Climate Change** David Lawrence Peterson, Darryll R. Johnson, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company *Life Beside Itself* Lisa Stevenson, 2014-08-22 This ethnographic study examines two historical moments in the Canadian Arctic the Inuit tuberculosis epidemic 1940s to the early 1960s and the subsequent suicide epidemic 1980s to the present

The colonial Canadian North was imagined as a laboratory for a social experiment to transform Inuit into bona fide Canadian citizens by among other things reducing their death rate This experiment demanded Inuit cooperation with the forms of anonymous care the state provided including the evacuation of tubercular Inuit Southern Sanatoria which left many Inuit families without the story or image of their loved one s death A similar indifference to who lives or dies is manifest in the adoption of the suicide hotline an explicitly anonymous form of care where caregivers exhort unidentified Inuit to live while simultaneously expecting them to die Through attention to the images through which people think and dream Stevenson describes a world in which life is beside itself the name soul of a teenager who dies in a crash lives again in his friend s newborn baby a young girl shares a last smoke with a dead friend in a dream the possessed hands of a clock spin uncontrollably over its face For the Inuit life is somewhere else and Stevenson attempts to articulate forms of care adequate to that truth

The Other Side of Eden Hugh Brody, 2001 He has spent nearly three decades studying learning from crusading for and thinking about hunter gatherers who survive at the margins of the vast fertile lands occupied by farming peoples and their descendants now the great majority of the world s population In material terms the hunters have been all but vanquished yet in this profound and passionate book Brody utterly dispels the notion that theirs is a lesser way of life

Aboriginal Peoples in Canadian Cities Heather A. Howard, Craig Proulx, 2011-04-12 Since the 1970s Aboriginal people have been more likely to live in Canadian cities than on reserves or in rural areas Aboriginal rural to urban migration and the development of urban Aboriginal communities represent one of the most significant shifts in the histories and cultures of Aboriginal peoples in Canada The essays in Aboriginal Peoples in Canadian Cities Transformations and Continuities are from contributors directly engaged in urban Aboriginal communities they draw on extensive ethnographic research on and by Aboriginal people and their own lived experiences The interdisciplinary studies of urban Aboriginal community and identity collected in this volume offer narratives of unique experiences and aspects of urban Aboriginal life They provide innovative perspectives on cultural transformation and continuity and demonstrate how comparative examinations of the diversity within and across urban Aboriginal experiences contribute to broader understandings of the relationship between Aboriginal peoples and the Canadian state and to theoretical debates about power dynamics in the production of community and in processes of identity formation

Separate but Unequal Frances Widdowson, 2019-11-05 Separate but Unequal provides an in depth critique of the ideology of parallelism the prevailing view that Indigenous cultures and the wider Canadian society should exist separately from one another in a nation to nation relationship Using the Final Report of the Royal

Commission on Aboriginal Peoples as an example this historical and material analysis shows how the single minded pursuit of parallelism will not result in a more balanced relationship between Indigenous and non Indigenous peoples On the contrary it merely restores archaic economic political and ideological forms that will continue to isolate the Indigenous population This book provides an alternative framework for examining Indigenous dependency This new perspective the political economy of neotribal rentierism shows that Indigenous Peoples circumstances have been inextricably linked to the development of capitalism in Canada While Indigenous Peoples were integral participants in the fur trade the transition from mercantilism to industrial capitalism led to their marginalization This book is published in English Separate but Unequal fournit une analyse approfondie de l'idologie du parallélisme la vision dominante selon laquelle les cultures autochtones et la société canadienne en général devraient vivre séparément les unes des autres dans une relation de nation à nation En s'appuyant sur le rapport final de la Commission royale sur les peuples autochtones cette analyse historique et matérielle montre que les propositions parallèles visant accroître l'autonomie des Autochtones dans tous les aspects des politiques publiques ne se solderont pas en une relation plus équilibrée entre peuples autochtones et non autochtones tant donné qu'elles ne font que rétablir des formes économiques politiques et idéologiques archaïques qui continueront d'isoler la population autochtone Elle propose de recadrer la question de la dépendance autochtone en ayant recours la notion de rentierisme néotribal Ce cadre d'économie politique met en lumière le fait que les conditions des peuples autochtones ont été inextricablement liées au développement du capitalisme au Canada Ce livre est publié en anglais

Healing Traditions Laurence J. Kirmayer, Gail Guthrie Valaskakis, 2009-05-01

Aboriginal peoples in Canada have diverse cultures but share common social and political challenges that have contributed to their experiences of health and illness This collection addresses the origins of mental health and social problems and the emergence of culturally responsive approaches to services and health promotion Healing Traditions is not a handbook of practice but a resource for thinking critically about current issues in the mental health of indigenous peoples Cross cutting themes include the impact of colonialism sedentarization and forced assimilation the importance of land for indigenous identity and an ecocentric self and processes of healing and spirituality as sources of resilience

Achieving Sustainable Development Ann Dale, John B. Robinson, 2011-11-01

The recent United Nations Conference on the Environment and Development popularly known as the Earth Summit was a milestone event for sustainable development In dealing with ecological and developmental issues concurrently it brought the international environmental agenda to the fore Canada was the first industrialized country to announce that it would be a signatory to the Biodiversity Convention and by furthering future forestry and global warming conventions it played an important leadership role Achieving Sustainable Development explores how well Canada has met the Earth Summit's targets and attempts to find ways in which the public can become involved in such issues Its authors stress the importance of

integration of information from various fields and seek to stimulate the exchange of knowledge among the academic community government non governmental organizations and industry The contributors look far beyond merely identifying and analyzing selected issues and problems To facilitate public discussion and to affect policy development at least one initiative is proposed and detailed for each problem identified Achieving Sustainable Development provides an overall introduction to critical subjects in sustainable development industrial growth women institutional arrangements industrial practices and aboriginal peoples Most importantly it argues for the immediate development of a research and policy agenda for Canada and suggests mechanisms for its implementation

Why Forage? Brian F. Coddington, Karen L. Kramer, 2016-06-15 Foraging persists as a viable economic strategy both in remote regions and within the bounds of developed nation states Given the economic alternatives available why do some groups choose to maintain their hunting and gathering lifeways Through a series of detailed case studies the contributors to this volume examine the decisions made by modern day foragers to sustain a predominantly hunting and gathering way of life What becomes clear is that hunter gatherers continue to forage because the economic benefits of doing so are high relative to the local alternatives and perhaps more importantly because the social costs of not foraging are prohibitive in other words hunter gatherers value the social networks built through foraging and sharing more than the potential marginal gains of a new mode of subsistence Why Forage shows that hunting and gathering continues to be a viable and vibrant way of life even in the twenty first century

Encyclopedia of the Arctic Mark Nuttall, 2005-09-23 With detailed essays on the Arctic's environment wildlife climate history exploration resources economics politics indigenous cultures and languages conservation initiatives and more this Encyclopedia is the only major work and comprehensive reference on this vast complex changing and increasingly important part of the globe Including 305 maps This Encyclopedia is not only an interdisciplinary work of reference for all those involved in teaching or researching Arctic issues but a fascinating and comprehensive resource for residents of the Arctic and all those concerned with global environmental issues sustainability science and human interactions with the environment
