**A treatise on the seven rays, vol.3** Alice A. Bailey, 1953      **The Seven Rays of Life** Alice A. Bailey, 1995 The teaching on the seven rays can enable all true servers to work with greater skill and effectiveness in their chosen field of activity As Alice Bailey wrote a study of the rays will mean that we shall have a practical method of analysis whereby we can arrive at a right understanding of ourselves as ensouling entities and at a wiser comprehension of our fellow men We can then deal more intelligently with ourselves with our children and with our friends and associates We shall find ourselves able to co operate more wisely with the Plan as it is seeking expression at any particular time      Threefold Method for Understanding the Seven Rays Kurt Abraham, 2003-03      **The Seven Faces of Man, Visual Recognition of Astrological Types** , A statistical study based on photographs of notables      **A Treatise on the Seven Rays** Alice Bailey, 1936      Stones of the Seven Rays Michel Coquet, 2012-05-11 The magical and spiritual uses of the seven sacred gemstones diamond sapphire emerald jasper topaz ruby and amethyst Explores each sacred gem s effects on the seven facets of the soul and their corresponding virtues Reveals their spiritual and therapeutic uses the meaning of their colors their ties to the chakras and their historical use in amulets talismans and other magical tools Outlines the basics of Seven Ray Science and the properties of each of the Seven Rays Taught solely in secret for millennia the Science of the Seven Rays was introduced outside of the ancient mystery schools of Western and Hindu tradition by some of the great occultists of the late 19th and early 20th century H P Blavatsky Manly Hall C W Leadbeater and Alice Bailey Based on the soul s seven faceted nature the Seven Ray system underlies metaphysical traditions around the world through its connections with the seven musical notes in the scale the seven days in the week the seven chakras the seven colors of the rainbow and the seven sacred planets Laying out the key principles behind this spiritual science Michel Coquet explores the seven sacred gemstones of the Seven Rays diamond sapphire emerald jasper topaz ruby and amethyst and shows that not all precious stones have true mystical powers they must be charged either naturally or through ritual with a living deva or angelic presence before they can effect spiritual transformation and physical mental and soul healing Drawing on Hindu Jewish pre Columbian and Greco Roman magical traditions with precious stones as well as their use by great initiates of history including Hildegard von Bingen Paracelsus Cornelius Agrippa Elias Ashmole Nicholas Flamel and the Count de Saint Germain Coquet examines each sacred gem s effects on the seven facets of the soul as well as their spiritual and therapeutic uses the meaning of their colors their influences on the chakras and their use in amulets talismans and other magical tools Illuminating techniques of invoking spirits into gemstones and reports of the power to enlarge diamonds at will stones that produce anesthesia and the use of gem medicines in India Coquet reveals that while gems can influence our physical mental and spiritual well being without daily work toward a gem s corresponding virtue even a consecrated stone will have no effect for the most beautiful gems are within      A Treatise on the Seven Rays Alice A. Bailey, 1953      *The Seventh Ray: Revealer of the New Age* Alice A.

Bailey,1995-05-14 Today two rays of great potency are functioning simultaneously The Sixth Ray of Idealism and Devotion is slowly passing out and the Seventh Ray of Ceremonial Order or Ritual is coming into manifestation This is bringing about a situation which is described in ancient archives in the following terms A time of rending when the mountains which have sheltered fall from their high places and the voices of men are lost in the crash and thunder of the fall Such periods come only rarely and each time they come a peculiarly significant period of divine activity is ushered in old things pass away yet the ancient landmarks are restored The Full Moons: Topical Letters In Esoteric Astrology Malvin Artley,2014-06-12 The Full Moons is an exploration of the Sun the Moon the Truth and their interrelation and it is the culmination of over ten years of letters the author has written on esoteric astrology A compendium of topics in esoteric astrology it explores the emerging universal spirituality gradually unfolding through the current decades as seen from the perspective of topical world events even though the principles investigated therein are timeless The twelve astrological signs each give a unique insight into various aspects of spirituality and each one has its own story to tell on the great evolutionary path of the soul Because the soul is so dear to us even though the subject matter of the book is esoteric in its presentation there is something in its pages for everyone whether or not you have an astrological background Ultimately this book can be used as reference material for the times of the full moon each month and for specified times in between The book is extensively indexed for ease of reference and it contains abundant reference material in the appendices along with a glossary of esoteric terminology
