P. Blavatsky, 2025-08-12 Unveiling the secret wisdom of the ages H P Blavatsky the most remarkable woman of the modern world Manly P Hall reveals fragments from The Book of the Golden Precepts a sacred book kept in strict secrecy beyond the Himalayas So unsurpassable in luminous beauty and inspirational power that even Elvis Presley read them onstage these fragments reveal the secret path to supreme enlightenment and awakening of divine consciousness serving as keys that open the way to authentic transformation If you're seeking real spiritual growth if you long to access divine wisdom that will explain everything that is happening in the world if you want to live with deeper and majestic purpose The Book of the Golden Precepts is your key no matter your background or belief I believe that this book has strongly influenced many sincere seekers and aspirants to the wisdom and compassion of the Bodhisattva Path His Holiness the 14th Dalai Lama It is the only true exposition in English of the Heart Doctrine of the Mahayana and its noble ideal of self sacrifice for humanity His Holiness the 9th Panchen Lama Whatever critics may say against Madame Blavatsky her contribution to humanity will always rank high Mahatma Gandhi Buy this book now to discover the secret path to supreme enlightenment *The Secret Teachers of the Western World* Gary Lachman, 2015-12-08 This epic study unveils the esoteric masters who have covertly impacted the intellectual development of the West from Pythagoras and Zoroaster to the little known modern icons Jean Gebser and Schwaller de Lubicz Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman's epic history and analysis The Secret Teachers of the Western World In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today The history of our esoteric tradition roughly forms three parts Part One After looking back at the earliest roots of the esoteric tradition in ancient Egypt and Greece the historical narrative

opens in Alexandria in the first centuries of the Christian era Over the following centuries it traces our other tradition through such agents as the Hermeticists Kabbalists Gnostics Neoplatonists and early Church fathers among many others We examine the reemergence of the lost Hermetic books in the Renaissance and their influence on the emerging modern mind Part Two begins with the fall of Hermeticism in the late Renaissance and the beginning of the esoteric counterculture In 1614 the same year that the Hermetic teachings fell from grace a strange document appeared in Kassel Germany announcing the existence of a mysterious fraternity the Rosicrucians Part two charts the impact of the Rosicrucians and the esoteric currents that followed such as the Romance movement and the European occult revival of the late nineteenth century including Madame Blavatsky and the opening of the western mind to the wisdom of the East and the fin de siècle occultism of the Hermetic Order of the Golden Dawn Part Three chronicles the rise of modern esotericism as seen in the influence of Rudolf Steiner Gurdjieff Annie Besant Krishnamurti Aleister Crowley R A Schwaller de Lubicz and many others Central is the life and work of C G Jung perhaps the most important figure in the development of modern spirituality The book looks at the occult revival of the mystic sixties and our own New Age and how this itself has given birth to a more critical rigorous investigation of the ancient wisdom With many detours and dead ends we now seem to be slowly moving into a watershed It has become clear that the dominant left brain reductionist view once so liberating and exciting has run out of steam and the promise of that much sought after paradigm change seems possible We may be on the brink of a culminating moment of the esoteric intellectual tradition of the West
