José Salvador y Conde,1989 *The Rise of the Fiscal State in Europe c.1200-1815* Richard Bonney,1999-09-02 In this volume an international team of scholars builds up a comprehensive analysis of the fiscal history of Europe over six centuries It forms a fundamental starting point for an understanding of the distinctiveness of the emerging European states and highlights the issue of fiscal power as an essential prerequisite for the development of the modern state The study underlines the importance of technical developments by the state its capacity to innovate and however imperfect the techniques the greater detail and sophistication of accounting practice towards the end of the period New taxes had been developed new wealth had been tapped new mechanisms of enforcement had been established In general these developments were made in western Europe the lack of progress in some fiscal systems especially those in eastern Europe is an issue of historical importance in its own right and lends particular significance to the chapters on Poland and Russia By the eighteenth century mountains of debt and high debt revenue ratios had become the norm in western Europe yet in the east only Russia was able to adapt to the western model by 1815 The capacity of governments to borrow and the interaction of the constraints on borrowing and the power to tax had become the real test of the fiscal powers of the modern state by 1800 15 *La España de los siglos XIII al XV* Francisco Javier Fernández Conde,2004 **Imágenes de la Edad Media** Rebeca Sanmartín

*Cultural Identity and Archaeology* Paul Graves-Brown,Sian Jones,Clive Gamble,1996 Cultural identity is a key area of debate in contemporary Europe Despite widespread use of the past in the construction of ethnic national and European identity theories of cultural identity have been neglected in archaeology Focusing on the interrelationships between concepts of cultural identity today and the interpretation of past cultural groups Cultural Identity and Archaeology offers proactive

archaeological perspectives in the debate surrounding European identities This fascinating and thought provoking book covers three key areas It considers how material remains are used in the interpretation of cultural identities for example pan Celtic culture and Bronze Age Europe Finally it looks at archaeological evidence for the construction of cultural identities in the European past The authors are critical of monolithic constructions of Europe and also of the ethnic and national groups within it in place of such exclusive cultural political and territorial entities the book argues for a consideration of the diverse hybrid and multiple nature of European cultural identities

*Las historias de la literatura española del hispanismo francés (1908-1977)* , Las historias de la literatura española del hispanismo francés 1908 1977 se propone como un estudio de la evolución de la historiografía literaria del hispanismo francés durante casi siete décadas del siglo XX A través del análisis de las siete historias de la literatura española publicadas en este periodo las de M. Rim e Legendre Camp Larrieu y Thomas Cirot y Darbord Descola y Aubrun el autor analiza el desarrollo del discurso historiográfico literario francés se alando tanto la consolidación de un modelo de historia de la literatura marcadamente didáctico y mediado por las circunstancias del campo de estudio como el abandono de este en algunas propuestas alternativas que se caracterizan por una alta carga interpretativa El estudio no solo aborda la selección y valoración de autores en cada una de estas historias sino que también examina las metodologías que emplean las estructuras que despliegan y los contextos intelectuales en los que aparecen a la vez que las contextualiza en la tradición historiográfica del hispanismo internacional Se exploran cuestiones clave como la influencia de las corrientes ideológicas y académicas en la configuración del canon las tensiones entre positivismo narración e interpretación y las características genéricas de la historia de la literatura Este volumen se sitúa en el cruce de la teoría y la historia de la historia literaria y los estudios sobre el hispanismo ofreciendo una mirada panorámica y crítica a un corpus hasta ahora poco estudiado Su combinación de análisis cuantitativo y cualitativo así como su enfoque comparativo lo convierten en punto de partida para investigadores y lectores interesados en la historiografía literaria la recepción de la literatura española en Europa y la historia del hispanismo extranjero

**as King** Therese Martin, 2006-10-31 Queen as King traces the origins of San Isidoro in León as a royal monastic complex following its progress as the site changed from a small eleventh century palatine chapel housed in a double monastery to a great twelfth century pilgrimage church served by Augustinian canons Its most groundbreaking contribution to the history of art is the recovery of the lost patronage of Queen Urraca reigned 1109-1126 Urraca maintained yet subverted her family's tradition of patronage on the site to understand her history is to hold the key to the art and architecture of San Isidoro This new approach to San Isidoro and its patronage allows a major Romanesque monument to be understood more fully than before Iconography, Propaganda, and Legitimation Allan Ellenius, 1998 Representations of political power play an important role in Western art history from the late Middle Ages up to modern times This volume by leading experts is a wide ranging survey of significant trends in the development of political imagery It is a study in the rhetoric of images as it developed from the late Middle Ages to the early nineteenth century Symbols and metaphors were created in order to represent the power of political systems and particularly to confirm the overall importance of rulership The preferred ideas and visual images were those taken from classical mythology and the tradition of religious iconography Among the most important concepts was that of the king's two bodies one belonging to the terrestrial the other to the symbolic sphere of life A wealth of images was produced to fulfil the demands of ceremonial space which included state portraiture and allegorical imagery as well as coronations funerals royal entries and other kinds of royal pageantry The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders **Breve historia de la lengua española. Avatares del tiempo y rasgos lingüísticos**

Juan-Pablo García-Borrón, 2019-02-01 Toda lengua si est viva experimenta cambios Parte de los que marcaron el desarrollo del latín en Hispania dieron lugar al castellano que a su vez se fue transformando a lo largo de los siglos por los aportes del gótico y del rabe por el contacto con el Nuevo Mundo y por el influjo de otras lenguas tanto hispánicas como forneas hasta convertirse en lo que es hoy el resultado de una larga serie de contactos culturales que han dejado huella en el idioma

Generación tras generación los hablantes tejen y destejen su lengua con los hilos que les proporciona la historia. Este libro examina el tejido del español a la luz de las circunstancias históricas que han determinado su evolución desde sus orígenes hasta nuestros días.
