Perspective Carol F. Jopling, 1992 This book is the first work to describe the architecture of an entire complex society from the inventive self built dwellings of the poor to the elegant mansions of the rich Abundantly illustrated with utilitarian black and white photos and good line drawings Annotation copyright by Book News Inc Portland OR **Organized Agriculture and the Labor Movement Before the UFW** Dionicio Nodín Valdés, 2011-07-01 Puerto Rico Hawai i and California share the experiences of conquest and annexation to the United States in the nineteenth century and mass organizational struggles by rural workers in the twentieth Organized Agriculture and the Labor Movement before the UFW offers a comparative examination of those struggles which were the era s longest and most protracted campaigns by agricultural workers supported by organized labor to establish a collective presence and realize the fruits of democracy Dionicio Nod n Vald s examines critical links between the earlier conquests and the later organizing campaigns while he corrects a number of popular misconceptions about agriculture farmworkers and organized labor He shows that agricultural workers have engaged in continuous efforts to gain a place in the institutional life of the nation that unions succeeded before the United Farm Workers and Cesar Chavez and that the labor movement played a major role in those efforts He also offers a window into understanding crucial limitations of institutional democracy in the United States and demonstrates that the widespread lack of participation in the nation s institutions by agricultural workers has not been due to a lack of volition but rather to employers continuous efforts to prevent worker empowerment Organized Agriculture and the Labor Movement before the UFW demonstrates how employers benefitted not only from power and wealth but also from imperialism in both its domestic and international manifestations It also demonstrates how workers at times successfully overcame growers advantages although they were ultimately unable to sustain movements and gain a permanent institutional presence in Puerto Rico and California Social Research in Puerto Rico Ronald J. Duncan, 1983 **Social Work with Latinos** Melvin Delgado, 2007 Social Work with Latinos outlines a solid framework for understanding and helping Latino clients Unlike any other textbook this practical guide focuses on cultural assets illustrating how helping professionals can draw on the strengths and unique characteristics of the community when designing programs and interventions BOOK JACKET **Guide to the Hispanic American Historical Review, 1956-1975** Wilber A. Chaffee, Beecher C. Ellison, 1980 **What it Means to be a Man** Rafael L. Ramírez, 1999 What It Means to Be a Man begins with a discussion of machismo set in the context of the social construction of masculinity Ram rez presents his interpretation of what it means to be a Puerto Rican man discussing the

attributes and demands of masculinity and pointing out the ways in which strength competition and sexuality are joined with power and pleasure He examines the erotic relationships between men as part of the expressions of masculinity and analyzes how the homosexual experience reproduces the dominant masculine ideology *Report of the Commission on Agricultural Workers* United States. Smoker beyond the Sea Juan José Baldrich,2022-10-21 In this groundbreaking volume Juan Jos Baldrich traces the deep changes affecting Puerto Rican tobacco growers and manufacturers and their export markets from the Spanish colonization of the island to the present Based on more than twenty years of research in the United States and Puerto Rico the book sheds light on the important history of tobacco in Puerto Rico while highlighting the people and practices that have indelibly shaped Puerto Rico and its culture *Smoker beyond the Sea* The Story of Puerto Rican Tobacco is a work of recovery that examines tobacco s transitions from medicinal use to rolls fit for chewing and pipe smoking followed by the appropriation of the Cuban paradigm for cigars and cigarettes and finally to the US models after the 1898 invasion This pioneering volume also offers the only history of the US tobacco monopoly in local agriculture and manufacture from its beginning in 1899 to the bankruptcy of its last successor company forty years later Baldrich s extensive research documents the organization of the cigar and cigarette manufacturing sectors and the resulting development of trade unions and socialist ideals This multidisciplinary investigation gives due attention to the modifications that farmers made to tobacco planting and harvesting techniques in fine tuning plants to the expected aromas and tastes of the manufactured commodities In addition Baldrich pays considerable attention to gender relations in the labor process not only in the manufacturing sector but also in tobacco agriculture The book also provides the only narrative of the rise and maturity of the Hermanos Cheos a powerful apocalyptic movement that began and spread in the tobacco growing regions Ultimately this encompassing volume fills a major gap in the histories of tobacco producing islands in the Caribbean
