## ESSAYS ON ACCOUNTING THEORY AND CURRENT ISSUE

### Assignment 1

**Essay Topic:** "If constituency support is necessary before particular accounting approaches become embodied in accounting standards, does this have implications for the "neutrality" and "representational faithfulness" (qualitative characteristics that exist in various conceptual framework projects around the world) of reports generated in accordance with accounting standards?"

Word Count: 1,004

The slender discovery of an issue cannot be considered sufficient for assuring that the Board of Financial Accounting Standards is successful in undertaking the solution. There has to be a significantly high chance that the Board will deal with the resolution of issues in a way that has acceptability with respect to the constituency (Locke 2011). This is the scenario when there is lack of some previous understanding about the chances that the members of the board will have the ability of reaching a mutual consensus. This does not involve a general advice for undertaking a project formally.

In reference with this quotation, this essay will discuss the scenario if constituency support can be considered significant prior to the embodiment of accounting approaches in specific accounting standards. For serving the purpose of this essay, discussion will be created on key implications for representational faithfulness and neutrality of generated reports with respect to the accounting standards (Lee et al. 2009).

The decision of IASB has devoted significant resource for the improvement and completion of conceptual framework as an important event for the establishment of a combination of international accounting standards with good quality. It has placed an opportunity for having a lasting positive effect for the ones affected by and involved in financial and accounting reporting (Jubb et al. 2010). There is a rise of this opportunity on rare basis, and hence it is significant that the constituents will be provided with significant time for using opportunity with maximum scope. With respect to this, there is an encouragement of interested parties for participating in the process of IASB.

Previous studies lobbying the private and public sector have faced criticisms for the treatment of episodes as per the standards set as discrete events can be devoid from any factors being considered in accordance with the rise of specific issue. In the analysis of accounting
