Essays in Modern Economic Development Robert Leslie Smyth,1980 **Economics as an Art of Thought** Peter Earl,S FROWEN,2013-04-15 This volume unites scholars from all over the world and with very different theoretical perspectives Their chapters probe into typical Shacklean themes of time and money uncertainty and expectation and into the roots of G L S Shackle s philosophical and methodological stance Unknowledge and Choice in Economics Stephen F. Frowen,1990-06-18 A collection of papers dicussing unknowledge and choice in economics The topics focus especially on G L S Shackle s theories and his place in subjectivist thought but also include time choice and dynamics in economics and interest rates and investment decisions **Joan Robinson and Modern Economic Theory** George R. Feiwel,1989-06-18 This and its companion volume The Economics of Imperfect Competition and Employment are about Joan Robinson her impact on modern economics her challenges and critiques and the advances made in the science and art of economics

The Economics of the Modern Construction Sector G. Ive,S. Gruneberg,2000-07-31 This book will be of interest to built environment professionals and to students of the economics and management of the built environment It shows the value of integrating ideas and data about the production of the built environment as an industrial process with theories and data about the demand for construction The approach taken is institutional and post Keynesian and illuminates an important and distinctive sector of the economy embracing design construction and property industries This book offers some new and important perspectives for research and teaching in construction economics and management The Economics of the Modern Construction Firm S. Gruneberg,Graham J. Ive,2000-08-08 This is a book about the whole diverse range of firms that are found in the construction sector about their decision making and the economic environments in which they operate The authors aim to provide a new and coherent perspective on these firms and the choices they have to make both for their managers and for all who have a stake in these firms and their industry This book offers some new and important perspectives for research and teaching about construction firms **Economic Dynamics, Trade and Growth** A.P.

Thirlwall,Giorgio Rampa,Luciano Stella,2015-12-31 Sir Roy Harrod was one of the foremost economists of the twentieth century who made pioneering contributions in several branches of economics including trade cycle theory growth theory trade theory monetary economics imperfect competition theory and methodology This volume arises out of a conference to celebrate the sixtieth anniversary of the publication of his book The Trade Cycle in 1936 After an introductory essay by Walter Eltis a student of Harrod this volume contains important essays on the interpretation of Harrod s work in the field of economic dynamics by Danial Besomi and Maurizio Pugno and in the field of trade and growth by Tony Thirlwall John McCombie and Luca Bendictis Finally Warren Young in the process of writing Harrod s biography uses correspondence between Harrod and Haberler to elucidate Harrod s views on trade theory international monetary reform and inflation

The Future of Economics Alexander J. Field,2020-03-10 Originally published under the title The Future of Economic

History this book attempts to chart a new course for the intellectual discipline known as economic history and determine its contributions to the study of economics The authors suggest new and potentially fruitful areas and approaches for research and at the same time analyze the weaknesses in past efforts to chart a course for the future *A New Economics for Modern Dynamic Economies* Angelo Fusari,2016-10-04 It is becoming increasingly clear that a new economics is required for investigating modern dynamic economies and the coming social world Important features of those economies such as innovation uncertainty and entrepreneurship are usually considered capitalist features This may have been true historically but this book argues that the contrary will be true for the future the full and efficient operation of those supposed capitalist features will increasingly require the overcoming of capitalist civilization In this book Angelo Fusari constructs a theoretical framework for the interpretation and management of modern dynamic economies which demonstrates that institutional transformations are essential if we are to move beyond the current consumer capitalist age and the age of the domination of financial capital *A New Economics for Modern Dynamic Economies* opens with a consideration of the basic aspects of modern dynamic economies and proceeds to develop a representation of the whole economic system centred on the interrelationships between entrepreneurship innovation and radical uncertainty in a dynamic competition process This model provides an explanation of business cycles that largely differs from current explanations as it derives from the notion of dynamic competition The book is then extended from the sectoral to the micro level and then to the level of the firm The second half of the book is concerned with operational problems and in particular with the integration of this analysis of cycles with the notion of historical phases of development The final chapter explores the route of the transition from capitalism to a new economic and social order a transition of vital importance both for the contemporary world and for the coming world This volume is of great interest to those who study political economy macroeconomics and economic theory and philosophy The book shows the possibility of a scientific explanation of important ethical principles as indispensable to the organizational efficiency of the social system for instance the necessity and the way to conciliate productive efficiency social justice and individual freedom *Essays in the History of Economics* William Henderson,Kirk D. Johnson,Marianne F. Johnson,Warren J. Samuels,2004-05-20 Under the impressive editorship of Warren Samuels et al this book addresses the state of the history of economic thought today A relevant and important contribution to economics that will develop an unsurprising number of fans *Economists and the Economy* William J. Barber,2017-09-29 *Economists and the Economy* seeks to explain how economic theories are formed in response to specific incidents affecting economic events The work covers both major historical events such as the English Civil War the Industrial Revolution and the Great Depression and intellectual developments in economic thought Among the theories examined are neoclassical growth theory and the Harrod Domar model *The Chicago School of Political Economy* Nadia Mizner,Warren Samuels,2021-12-16 The Chicago School of Economics is arguably the most successful and influential since World War II This volume provides an interpretation of the Chicago school through

constructive critique of its doctrines It is an inquiry into the nature role and significance of the school and its doctrines within both the economics profession and the larger world of ideas and action This volume offers a deeper understanding of the school of its strengths and weaknesses and of the tasks of any body of thought that hopes to comprise an alternative
