Perversions of Fascism Antonios Vadolas,2018-04-17 Contemporary versions of evil demonise modern fascists totalitarian threats and Hitlers As if not obscure enough fascist evil has been equivocally linked with perversion This book reveals that both fascism and perversion implicate the non symbolisable kernel in politics which becomes the source of their mystification It argues that the fascist does not take the same discursive position as the pervert does regarding this symbolic gap The author develops a new rhetoric de pathologised and de ideologised regarding the structure of the so called pervert introducing new vocabularies and directions for psychoanalytic research that further distance the pervert or whom he calls the extra ordinary subject from fascist politics and instead exposes his diachronic fascist isolation from the social edifice This reveals the fruitful alternatives that can stem from a return to Freud cum Lacan which supports a flexible on going reformulation of psychoanalytic knowledge

Frank, MD, 2018-09-25 A great public service critical for our time Bandy X Lee M D M Div Yale psychiatrist expert on violence and editor of The Dangerous Case of Donald Trump The New York Times bestselling author of Bush on the Couch shows that Donald Trump is mentally and emotionally unfit to execute the duties of President No president in the history of the United States has inspired more alarm and confusion than Donald Trump As questions and concerns about his decisions behavior and qualifications for office have multiplied they point to one primary question Does he pose a genuine threat to our country The American Psychiatric Association's Goldwater Rule constrains psychiatrists from offering diagnoses on public figures who are not patients and who have not endorsed such statements But in Trump on the Couch Clinical Professor of Psychiatry Justin A. Frank invokes the moral responsibility that compels him to speak out and present a full portrait of a man who presents us with a clear and present danger Using observations gained from a close study of Trump's patterns of thought action and communication Dr Frank uncovers a personality riddled with mental health issues His analysis is filled with important revelations about our nation's leader including disturbing insights into his childhood his family his business dealings and his unusual relationship with alternative facts including how The absence of a strong maternal force during childhood has led to Trump's remarkable lack of empathy and disregard for women's boundaries His compulsion to polarize America has grown out of the way he perceives the world as full of deceitful and destructive persecutors His inability to tolerate the pain of frustration has triggered his belief that omnipotence will finally remove it His idiosyncratic use of language points to larger issues than even his tweets might suggest With our country itself at stake Dr Frank calls attention to the underlying narcissism misogyny deception and racism that drive the President who endangers it A penetrating examination of how we as a nation got here and more important where we are going Trump on the Couch sounds a call to action that we cannot ignore

Enchantments of the Clinic Carl P. Ellerman, 2010-06-02 Reflecting on his experience in the clinical trenches a pragmatic existential therapist offers a provocative study of power erotic influence and illusion in the clinical relationship Written in a conversational style that makes a challenging subject accessible to specialists in the clinical professions teachers and students of the psychological disciplines and scholars in the humanities and social sciences Enchantments of the Clinic introduces readers to interesting ways in which language ideas and speech as well as illusions of the clinical station enable therapists to cast an unintentional spell that captivates and charms unsuspecting patients Exposing this suggestive underworld of clinical experience where the high stakes game of persuasive dialogical therapy is often won or lost critical attention is focused on the erotization of the clinic the erotization of the clinician and the erotization of clinical confession Using dramatic examples from clinical practice Carl P Ellerman challenges prevailing dogmas of the therapeutic to demonstrate his thesis that enchantments of the clinic facilitate psychological healing if managed well but if mismanaged these volatile erotic enchantments may undermine the struggle against emotional illness in the clinical trenches This ambitious study of the clinical relationship also addresses the disturbing fact that we are dwelling in a postmodern era in which clinical nihilism is flourishing Ellerman conceives the dialogical therapist as a potentially dangerous ethically vulnerable therapeutic artiste whose strategic encounters in the postmodern clinic may be likened to aesthetic experiences in which an education to reality and a love of truth are obsolete or irrelevant notwithstanding a clinical masquerade that reinforces in spellbound patients a blind trust in the phantastic therapist s honesty truthfulness and intellectual integrity Embracing the Socratic mystique Ellerman offers a vigorous philosophic critique of clinical nihilism
