Elizabethan Let us imagine to ourselves a boy born some ten years before the middle of the last century of a family originally Dutch a family with the home loving reserved temper of the Dutch and that slow moving mind of Holland which attaches itself so closely so intimately to things real and concrete not tempted away from its beloved interiors and limited prospects by any glories of mountain heights or wide spreading and radiant horizons a family settled for long in the low lying slow moving Olney of Buckinghamshire Cowper s Olney which we see in the delicate vignettes of The Task and in the delightful letters skilled in making so much out of so little of the half playful half pathetic correspondent of John Newton and Lady Hesketh Dutch but of mingled strains in matters of religion the sons we are told always until the tradition was broken in the case of Walter Pater brought up as Roman Catholics the daughters as members of the Anglican communion Walter Pater s father had moved to the neighbourhood of London and it was at Enfield where Lamb about whom the critic has written with penetrating sympathy Lamb and his sister Mary had lately dwelt that Pater spent his boyhood Not precocious writes his friend of later years Mr Gosse he was always meditative and serious About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Elizabethan Essays** Patrick

Collinson, 1994-04-01 The age of Elizabeth I exercises a fascination unmatched by other periods of English history Yet while the leading figures may seem familiar many Elizabethan personalities including the queen herself remain enigmatic their attitudes to life politics and religion often difficult to comprehend Patrick Collinson redraws the main features of the political and religious struggle of the reign In engaging with the virgin queen herself he tackles the old conundrum was she a religious woman He also investigate the no less inscrutable religious position adopted by the by the notorious turncoat Andrew Perne the reliability as a historian of the martyrologist John Foxe whose religion is in no doubt and the religious environment which shaped William Shakespeare **The Monarchical Republic of Early Modern England** John F.

McDiarmid, 2016-03-03 With its challenging paradoxical thesis that Elizabethan England was a republic which happened also to be a monarchy Patrick Collinson s 1987 essay The Monarchical Republic of Queen Elizabeth I instigated a proliferation of research and lively debate about quasi republican aspects of Tudor and Stuart England In this volume a distinguished international group of scholars examines the idea of the monarchical republic from the 1530s to the 1640s and tests the

concept from a variety of points of view New suggestions are advanced about the pattern of development of quasi republican tendencies and of opposition to them and about their relation to the politics of earlier and later periods A number of essays focus on the political activity of leading figures at court several analyse political life in towns or rural areas others discuss education rhetoric linguistic thought and reading practices poetic and dramatic texts the relations of politics to religious conflict gendered conceptions of the monarchy and monarchical republicanism in the new American colonies Differing positions in the scholarly debate about early modern English republicanism are represented and fresh archival research advances the study of quasi republican elements in early modern English politics Essays Modern and Elizabethan Edward Dowden,2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Essay and General Literature Index** Minnie Earl Sears,Marian Shaw,1931 **The English Essay and Essayists** Hugh Walker,1915 *The Booklist* ,1911 *Booklist* ,1911 *A.L.A. the author conducts a close reading of Virginia Woolf's first experimental novel *Jacob's Room* 1922. Her reading is based on the fundamental premise that the novel is an exploration of fictional form rather than an exposition of any preconceived idea. *Jacob's Room* is an essentially modernist text and is characterised by extensive genre mixing typical of the art of fiction in the early 20th century. Throughout her study the author analyses the extent to which the novel transgresses the boundaries of the novelistic genre. She explores the generic interface between the novel and those genres which are deemed to be innate to Virginia Woolf's sensibility i.e. the journalistic essay, biography and impressionist painting. The premise of this study leads the author to read the novel on two levels of significance. On the narrative surface level of the novel Woolf constructs the tragic life of a promising young Englishman Jacob Flanders who dies in the First World War. Simultaneously on the metafictional level of significance Woolf through her garrulous narrator mocks and evaluates the actions of her characters experimenting with various points of view in an attempt to define the character of her protagonist. *Jacob's Room* is thus conceived as a mental space in which a modern writer's mind is mapped. The central aesthetic question which is debated in this room or forum relates to the essential art of modern fiction in general and the efficiency of characterisation in fiction in particular. It is argued that Virginia Woolf probes into the epistemic question of the essence of modern man and in an attempt to capture the essence of her protagonist speculates on the corresponding literary question how and to what extent the soul of man can be represented in fiction. The author uses this generic approach to the novel as a broad structuring principle for her study of *Jacob's Room*. After discussing the socio-political context of modernism in the early 20th century including the impact of the First World War on modernist writing she focuses her study on those aspects of Woolf's fiction which are deemed fundamental to the narrative strategy in *Jacob's Room* i.e. the role and nature of Woolf's humour within the context of modernism, the nodes or clusters of metaphors and symbols recurring in the text, the role of the narrator as toastmaster of the debate on character and fiction in *Jacob's Room*, the extent to which the novel parodies the new biography of the early twentieth century and the extent to which Woolf transvaluates the tools of impressionist painting into modernist fiction.
