Essays on Economics and Society John Stuart Mill, 2006 Volumes 4 and 5 bring together a rich collection of Mill's writing on politics and the economy over the course of his intellectual career Volume 4 includes most significantly *Essays on Some Unsettled Questions of Political Economy* Here Mill grapples with issues related to foreign trade and the balancing of government's goal of promoting free trade with its interest in raising revenues from import duties and tariffs Also included in these volumes are such early essays as *The Silk Trade* and *The Nature Origin and Progress of Rent* and such later works as Mill's petition on free trade and *Chapters on Socialism* posthumously published *On Economics and Society* Harry G. Johnson, 1982-10 These essays which make the science of economics intelligible to a general audience are grouped into six areas the relevance of economics the Keynesian revolution economics and the university economics and contemporary problems world inflation money trade growth and investment and economics and the environment *The Economic Mind in America* Malcolm Rutherford, 1998-03-05 This volume demonstrates the variety and creativity of American economics and the links between American economic thought and its non European context It contains selected papers from the 1996 History of Economics Society Conference **Performance and Progress** Subramanian Rangan, 2015-08-21 The prevailing aspiration of business is performance while that of society is progress Capitalism both the paradigm and practice sits at the intersection of these dual aspirations and the essays in this volume explore its fraught status there Contributions to this volume address questions such as i what's the problem with capitalism ii is the problem just with the practice or with the very paradigm iii what is progress and who is responsible for it iv what evolution is required at the individual system and paradigm level so that enterprises and the executives who lead them may better integrate performance with progress and v whether consumers employees and investors in this evolution The book offers perspectives from two distinct intellectual domains social science and philosophy Scholars in social science including economics management and sociology tend to study performance Ideas of progress on the other hand tend to fall more under the purview of philosophers in particular social and political philosophers Further to obtain an insider's view on practice and possibilities the volume includes essays from a handful of thoughtful business leaders Research should consider not just how to make sustainability profitable but also how to make profitability and the modern economic system sustainable If we are to better comprehend why the world is in protest to reflect on progress or dilemmas of trust we must appreciate the tenuous assumptions of modern microeconomics and markets and hear from modern philosophers about the basis and limits of rationality **Beyond Economics** Kenneth Ewart Boulding, 1968
