Essays Thought And Style:

Essays in Liberal Thought William Thomas, Stewart S. Morgan, 1928 **Perspectives on Thinking, Learning, and Cognitive Styles** Robert J. Sternberg, Li-fang Zhang, 2014-04-08 This volume presents the most comprehensive balanced and up to date coverage of theory and research on cognitive thinking and learning styles in a way that represents diverse theoretical perspectives includes solid empirical evidence testing the validity of these perspectives and shows the application of these perspectives to school situations as well as situations involving other kinds of organizations International representation is emphasized with chapters from almost every major leader in the field of styles Each chapter author has contributed serious theory and or published empirical data work that is primarily commercial or that implements the theories of others The book s central premise is that cognitive learning and thinking styles are not abilities but rather preferences in the use of abilities Traditionally many psychologists and educators have believed that people s successes and failures are attributable mainly to individual differences in abilities However for the past few decades research on the roles of thinking learning and cognitive styles in performance within both academic and nonacademic settings has indicated that they account for individual differences in performance that go well beyond abilities New theories better differentiate styles from abilities and make more contact with other psychological literatures recent research in many cases is more careful and conclusive than are some of the older studies Cognitive learning and thinking styles are of interest to educators because they predict academic performance in ways that go beyond abilities and because taking styles into account can help teachers to improve both instruction and assessment and to show sensitivity to cultural and individual diversity among learners They are also of interest in business where instruments to assess styles are valuable in selecting and placing personnel The state of the art research and theory in this volume will be of particular interest to scholars and graduate students in cognitive and educational psychology managers and others concerned with intellectual styles as applied in educational industrial and corporate settings **Catalogue ... with Announcements** Fordham College, 1927 **Discourses and Essays ...** William Greenough Thayer Shedd, 1859 Essays as Easy as T 1, 2, 3! Library of Inspiration and Achievement: Reading and home study Edward Everett Hale, 1900 *Modern Achievement*, 1902 *Writing Cogito* Hassan Melehy, 1997-01-01 Combines literary theory and history with detailed textual analysis in order to consider a question that involves both literature and philosophy namely the foundation of the human subject *Graham's Illustrated Magazine of Literature, Romance, Art, and Fashion*, 1851 *The English Essay and Essayists* Hugh Walker, 1915 **Modern Essays and Stories** Frederick Houk Law, 1922 **Fashion Aesthetics and Ethics** Louise Wallenberg, Andrea Kollnitz, 2023-05-04 How are aesthetics and ethics related to the practical realities of the global fashion industry Both have played an important role in academic fashion studies to this point but they are most often discussed in the context of abstract phenomena such as modernity and capitalism or identity issues such as sexuality class and gender The essays in this volume strive instead to show how the realities of the global fashion industry have important and pertinent aesthetic and ethical consequences This collection provides critical and philosophical analysis of the interplay of aesthetics and ethics within the global fashion industry Characterized by an increasingly fast spinning production the industry is highly exploitative in terms of environment and labor force underpaid textile workers retailers working under brutal competition from the mass merchandise discounters young designers seamstresses and curators often working for free and a vast body of aspiring models In addition fashion related aesthetic ideals are becoming more influential than ever in directing consumers in their social and personal identification processes and bodily practices with sometimes fatal consequences Covering a wide range of subjects such as fashion's highly problematic production and consumption practices the possibility of producing and consuming fashion ethically fashion's intimate connection with nature and technology *Fashion Aesthetics and Ethics* highlights the powerful aesthetical presence of fashion in relation to its ethical premises and often problematic outcomes *God, Sexuality, and the Self* Sarah Coakley, 2013-08-29 *God Sexuality and the Self* is a new venture in systematic theology Sarah Coakley invites the reader to re-conceive the relation of sexual desire and the desire for God and through the lens of prayer practice to chart the intrinsic connection of this relation to a theology of the Trinity The

goal is to integrate the demanding ascetical undertaking of prayer with the recovery of lost and neglected materials from the tradition and thus to reanimate doctrinal reflection both imaginatively and spiritually What emerges is a vision of human longing for the triune God which is both edgy and compelling Coakley's theological questions standard shibboleths on sexuality and gender and thereby suggests a way beyond current destructive impasses in the churches The book is clearly and accessibly written and will be of great interest to all scholars and students of theology
