Theology, Comedy, Politics Marcus Pound,2019-09-03 What relevance has comedy for the global crises of late modernity and the theological critique thereof Coming out of the experience of war a generation of modern theologians such as Donald MacKinnon Hans Urs von Balthasar and more recently Rowan Williams in their accommodation to literature choose tragedy as the paradigm for theological understanding and ethics By contrast this book develops recent philosophical anthropological and psychoanalytical studies of humor to develop a theology of comedy By deconstructing secular accounts of comedy it advances the argument that comedy is not only participatory of the divine but that it should inform our thinking about liturgical sacramental and ecclesial life if we are to respond to the postmodern age in which having fun is an ideological imperative of market forces

High Challenge, Low Threat: How the Best Leaders Find the Balance Mary Myatt,2016-04-11 This is a book about the things that wise leaders do It is informed through thousands of conversations with leaders and argues that these leaders do not shy away from the tough stuff It points to the conditions which these leaders create to allow colleagues to engage with difficult issues enthusiastically and wholeheartedly It is taken from observations of leaders at work in a variety of settings While these are mostly schools these observations are checked against what is happening in wider leadership and management thinking This book makes the case that any leadership role is concerned primarily with the relationships between individuals It is the quality of these whatever the size of the organisation which make the difference between organisations which thrive and those which stagnate This is not to argue for soft easy and comfortable options Instead it considers how top leaders manage to walk the line between the impossible and the possible between the undoable and the doable and to create conditions for productive work which transcend the difficulties which come towards us every day Instead of dodging them they embrace them And by navigating high challenge low threat they show how others how to do the same
