India's White Revolution Bruce A. Scholten, 2010-07-30 As millions continue to face a future of food poverty lessons can be learned by considering how farmer cooperatives succeeded in improving India s food security Operation Flood which revitalised the Indian dairy industry between 1970 and 1996 was the world s largest development programme however critics accused it of luring India to neocolonial dependence on European surpluses Eventually the perils of reliance on food aid were managed by proper pricing policies that both benefited rural farming families and wiped out urban milk famines In 2008 the World Bank hailed the programme s success and now promotes similar schemes in Africa A detailed understanding of India s White Revolution is therefore imperative in the context of its future use in the developing world *Children in the International Political Economy* G. Kent, 1995-09-13 The first line of responsibility for children lies with their parents but what if the parents fail to look after their children Who else is involved and what should they do *Children in the International Political Economy* examines the moral responsibilities of different individuals and agencies towards children and argues that some responsibilities should be codified as concrete legal duties If all else fails children must look to the international community for help Thus international agencies should recognize specific obligations to look after the well being of children around the world The Hunger Report 1995 E. Messer, P. Uvin, 2005-11-04 The Hunger Report 1995 highlights progress during the past five years on the problems of food shortage poverty related hunger maternal child nutrition and health and micronutrient malnutrition It is constructed from papers and discussions presented at the five year follow up to the Bellagio Declaration Overcoming Hunger in the 1990s 1989 Individual essays by hunger researchers monitors and policy makers assess advances in achieving the Bellagio goals which are 1 to end famine deaths especially by moving food into zones of armed conflict 2 to end hunger in half the world s poorest households 3 to eliminate at least half the hunger of women and children by expanding maternal child health coverage and 4 to eliminate vitamin A and iodine deficiencies as public health problems Ibss: Political Science: 1991 British Library of Political and Economic Science, 1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Aid and Political Conditionality** Olav Stokke, 2013-04-03 Foreign aid has increasingly become subject to political conditionality In the 1980s some institutions made aid dependent upon the recipient countries economic policy reforms Market liberalisation was the primary instrument

and objective In the 1990s such conditionality was brought one step further aid was now linked to political reforms affecting recipient countries governing systems requiring democracy human rights and good governance This volume looks at these developments and considers the conditionality policies of several European aid donors Such policies are also considered from recipient perspectives both from the Third World and Russia and the issue is also considered from a historical perspective

Latin American and East European Economies in Transition Claude Auroi,1998 Within the global framework of the major transformation of development models the various contributors to this collection seek to compare the Latin American experiences of macroeconomic changes or adjustments with those of East European countries

Market Forces and World Development Renee Prendergast,Frances Stewart,1994-02-12 The increasing liberalization and globalisation of the world economy has not been accompanied by convergence in the various indicators of economic and social development The papers in this volume go some way towards explaining why the increasing reliance on market forces may lead to greater divergences in economic performance They also point to the importance for the development process of social solidarity and institutions which encourage co operative approaches to problem solving
