Foot In Both Worlds:

A Foot in Two Worlds Vincent D. Homan, 2013 After the untimely death of his son a pastor learns he must find a balance between grief and Christian hope ultimately discovering that embracing one does not diminish the other He learns grief is not an illness one must recover from but a journey one must walk A Foot in Two Worlds examines the intense grief that accompanies tragic loss and demonstrates how it interacts with our perception of goodness innocence and God Each chapter explores the conflicting life experiences that tragedy or loss often forces onto people who trust in a good God Grief is a nondiscriminatory offender striking the hearts and homes of its victims This story welcomes the grief stricken to a place of middle ground where faith doubt hope and loss coexist starting the move from innocence to a hopeful reality Of the many books on grief few offer permission to the bereaved to develop a new normalcy by embracing both grief and hope A Foot in Two Worlds targets several significant needs It compassionately reaches out to the entire community of the bereaved with special grace offered to brokenhearted parents It gives a deeper look into the heart of grief and mourning Finally through stories and scripture the book offers direction and understanding to those who provide care to family members and friends who suffer tragic loss

A Foot in Both Worlds Guirdham, 1991-01-01 *The World's Best Essays, from the Earliest Period to the Present Time* David Josiah Brewer, Edward Archibald Allen, William Schuyler, 1900 [Secrets of a Father's Heart](#) Duane Swilley, 2015-05-22 In a world where so many people grow up without a father it s very important that everyone is exposed to a father s heart Whenever my father would come to see me in some athletic church or musical event I would always play my best There was something about a father s supporting caring and loving you that brings the best out in you In this story we see the real heart of a father A father s heart is always relational and it s always about restoration A father s heart cannot really be taught to you A father s heart has to be shown by example in front of you Then there can be an impartation in your life where you can take on the mantle of a true father

Modality and Explanatory Reasoning Boris Kment,2014-09-18 Since the ground breaking work of Saul Kripke David Lewis and others in the 1960s and 70s one dominant interest of analytic philosophers has been in modal truths which concerns the questions of what is possible and what is necessary However there is considerable controversy over the source and nature of necessity In Modality and Explanatory Reasoning Boris Kment takes a novel approach to the study of modality that places special emphasis on understanding the origin of modal notions in everyday thought Kment argues that the concepts of necessity and possibility originate in a common type of thought experiment counterfactual reasoning that allows us to investigate explanatory connections This procedure is closely related to the controlled experiments of empirical science Necessity is defined in terms of causation and other forms of explanation such as grounding the relation that connects metaphysically fundamental facts to non fundamental ones Therefore contrary to a widespread view explanation is more fundamental than modality The study of modal facts is important for philosophy not because these facts are of much metaphysical interest in their own right but because they provide evidence about explanatory relationships In the course of developing this position the book offers new accounts of possible worlds counterfactual conditionals essential truths and their role in grounding and a novel theory of how counterfactuals relate to causation and explanation
