Johnson, 1991 Bristlecone books Includes bibliographical references and index **The New Political Capitalism** Joe Zammit-Lucia, 2022-02-03 A fascinating insight into the influence that politics has upon business practices and consumer behaviour and the development opportunities that this can provide The New Political Capitalism bridges the gap between the reality of the relationship between business and politics and the lack of familiarity of the business community even at the most senior levels with political thinking The book demonstrates how businesses that develop effective political antennae can enhance their performance in the emerging age of Political Capitalism it challenges the notion that business is or can ever be apolitical and argues that politics the visible reflection of social values and cultural trends shapes the environment in which business operates More and more people are becoming politicised in the sense that they have strong views about how our societies should function and the role that business must play Socio political issues increasingly affect purchasing decisions with the marketplace becoming one way in which citizens express their political identity the rise of what some have called political consumerism Markets themselves are politically constructed and investors increasingly focus on corporations political positions Drawing upon extensive research and case studies this book weaves together socio political trends with business purpose strategy and operations From why businesses exist at all to the importance of diversity and what a company stands for both culturally and politically The New Political Capitalism dissects the new opportunities available for those businesses that can develop effective political antennae The Political Economy of South Africa's Post-apartheid Transition Benjamin Fine, 2025-05-26 South Africa's post apartheid transition has proven disastrous It is marked by the emergence of a black elite of enriched capitalists out of the globalisation neoliberalisation and financialisation of the economy in general and of its Minerals Energy and Financial Complex in particular By contrast

inequalities poverty and failing social provision have persisted Recent attention has shifted to how this disastrous trajectory was initiated some suggesting a lack of available alternative policy options at the time of transition This is shown to be false with a full range of progressive alternatives being rejected with corresponding consequences from state capture to electoral defeat
