## **Education And Citizenship In Liberal Democratic Societies Teaching For Cosmopolitan Values And Collective Identities:**

Citizenship and Education in Liberal-Democratic Societies Kevin McDonough, Walter Feinberg, 2003-08-28 The essays in the volume address educational issues that arise when national sub national and supra national identities compete How can we determine the limits to parental educational rights when liberalism s concern to protect and promote children s autonomy conflicts with the desire to maintain communal integrity Given the advances made by the forces of globalization can the liberal democratic state morally justify its traditional purpose of forging a cohesive national identity Or has increasing globalization rendered this educational aim obsolete and morally corrupt Should liberal education instead seek to foster a sense of global citizenship even if doing so would suppress patriotic identification In addressing these and many other questions the volume examines the theoretical and practical issues at stake between nationalists multiculturalists and cosmopolitans in the field of education The fifteen essays plus an introductory essay by the editors provide a genuine productive dialogue between political and legal philosophers and educational theorists

**Changing Notions of Citizenship Education in Contemporary Nation-states**, 2007-01-01 This book offers an examination into the meanings of citizenship in the contemporary world and trends that are forcing a rethinking of the concept in today s nation states These changing meanings in turn give rise to new understandings of and approaches to citizenship education The underlying values of participation deliberation and loyalty or patriotism that define different notions of citizenship are under strain in a world increasingly defined by global processes by the rise of transnational or supranational institutions and by interconnections that bring different cultures and value systems into closer contact with each other What does this new citizen look like What does this new citizen need to know or need to be able to do

To whom and to what is this new citizen loyal One way to think about this new citizen is as a cosmopolitan a citizen of the world more than of any particular nation state another way to think about it is in terms of different kinds or levels of affiliation existing simultaneously to nation and to regional alliance such as the European Union for example These conditions of citizenship and of citizenship education are rapidly changing and diverse and in some instances they come into conflict This collection of essays an outstanding international group of scholars examines the tensions between national transnational and postnational conceptions of citizenship brought back always to the grounded question of citizenship education and how to go about it The authors illuminate the complexity and subtlety of these issues and offer helpful guidance for rethinking the meanings and values that inform our educational endeavours **What's the Good of**

**Education?** Joseph Dunne, 2025-01-23 In this book Joseph Dunne exposes the damage done by obsession with measurable outcomes in schools and universities He argues for an education that respects the interpersonal fabric of learning and teaching and that takes account of difficulties in late modern societies regarding childhood citizenship the relative prestige accorded to different kinds of knowledge and the forging by individuals of a coherent identity across a whole life course To ask about good education he claims is necessarily to pose the larger question of the human good Central to the book is a concern to elucidate the kind of practices that can best help persons to pursue this good a concern that deepens through reflection in the final chapters on the challenges and fulfilments opened by the spiritual dimension of human life Making his case in a series of inter related essays Dunne draws on his decades long experience in teacher education informed by a reading of classical Greek philosophy and of several recent thinkers including Raimond Gaita Alasdair MacIntyre Iris Murdoch and Charles Taylor who are key conversation partners throughout *Leaders in Philosophy of Education*

favorites      **The Constitutional Parent** Jeffrey Shulman, 2014-07-01 In this bold and timely work law professor Jeffrey Shulman argues that the United States Constitution does not protect a fundamental right to parent Based on a rigorous reconsideration of the historical record Shulman challenges the notion held by academics and the general public alike that parental rights have a long standing legal pedigree What is deeply rooted in our legal tradition and social conscience Shulman demonstrates is the idea that the state entrusts parents with custody of the child and it does so only as long as parents meet their fiduciary duty to serve the developmental needs of the child Shulman's illuminating account of American legal history is of more than academic interest If once again we treat parenting as a delegated responsibility as a sacred trust not a sacred right we will not all reach the same legal prescriptions but we might be more willing to consider how time honored principles of family law can effectively accommodate the evolving interests of parent child and state      **Focus on**

**The Skillful Self** John Stopford, 2009-03-16 **The Skillful Self** Liberalism Culture and the Politics of Skill presents a political liberal theory of cultural participation and the goals of cultural policy in contemporary pluralistic democracies The ideal of cultural participation which many regard as central to the self conception of modern constitutional democracies is often

subject to the distorting influences of state perfectionism paternalism consumerism and ideology These distortions and the problems they raise are intensified by the forces of social cultural and economic globalization Using the tools of contemporary liberal theory The Skillful Self develops an approach to the politics of culture that focuses on the concept of skill and its place in a liberal conception of the self Support for this approach is derived from the work of Nussbaum and Sen who make a conception of human capability basic to their views of public policy and the design of political institutions But the politics of skill modifies the capability approach by characterizing the central human functional capabilities as functions of the skillful self The final chapters of the book describe the competences of the skillful self elaborating a new typology of skills and explaining why basic institutions are obliged to promote them To make the role of skill in the central capabilities explicit in this way is not to invoke the perfectionist ideal of a culture of skill but rather to focus on the structural role of skill in a nonperfectionist conception of truly human functioning and on the social conditions of individual capability viewed as a function of skill

*Silent Partners in Multicultural Education* Tuija Itkonen, Fred Dervin, 2017-02-01 This volume aims to stimulate interest in the under researched role of silent partners SPs in multicultural education Silent partners include formal and informal places spaces in schools e g architecture classroom facilities libraries corridors playgrounds canteens objects e g teaching aids furniture wall decorations and overall interior design interactive technologies use of devices and applications but also often taken for granted and not immediately visible patterns of thought ideologies and assumptions People involved in education all engage and work with a number of SPs that contribute to the delivery of curricula but also to

social life and well being in and out of schools The way places spaces objects and technologies influence the school community s experiences of learning well being and social justice is rarely observed and problematised in education hence the adjective silent in the term silent partners This book not only fills a significant empirical gap but it can also inject public debate over future working environments in schools for multicultural education It will be relevant to both researchers interested in developing their knowledge on these issues from a different perspective but also educators in search of inspiration for multicultural education Praise for Silent Partners in Multicultural Education How to organize your classroom s configuration in such a manner that all pupils feel welcome and comfortable While most of those invested in multicultural education focus on the optimization of various linguistic aspects Itkonen Dervin and their colleagues give voice to the non verbal aspects of education In this book they elaborate how formal and informal places spaces in schools can unintentionally reflect ideologies and cultural assumptions They illustrate this perspective with telling examples that come from what is widely perceived as one of the best educational systems in the world This book is an important innovative contribution to the question of inclusion of all pupils in our school systems It provides an eye opening perspective to researchers in the field teachers principals and stakeholders willing to work for social justice in their schools Emmanuelle Le Pichon Vorstman Researcher and Assistant Professor Languages Literature and Communication Department Utrecht Institute of Linguistics Congratulations are in order for this ground breaking and significant book As the editors and authors convey convincingly and often poignantly multicultural education is an increasingly politicised phenomenon that needs all the friends and allies that it can garner The book s coverage of silent partners in education objects and technologies operating in specific places and spaces is therefore timely Yet as the book also highlights these silent partners can exert negative power as well as positive influence on educational outcomes The book presents a compelling account of the fundamental ambivalence framing these partners and formal educational provision more broadly Rendering these silent educational partners visible and open to scrutiny is a significant scholarly achievement by the Education for Diversities Research Group in the Department of Teacher Education at the University of Helsinki Finland building on their well deserved reputation for exploring the implicit and tacit and yet impactful dimensions of intercultural education and understanding The book is appropriately diverse and inclusive in its concerns with attention being directed at education in Finland France and the United States Likewise the coverage traverses international and national schools higher education teacher education and productive methodologies for researching silent partners This innovative and thought provoking volume is highly recommended for its originality in helping us to see education for diversities in a new and powerful light Patrick Alan Danaher Professor in Educational Research in the School of Linguistics Adult and Specialist Education Associate Dean Research and Research Training in the Faculty of Business Education Law and Arts Toowoomba campus of the University of Southern Queensland Australia Adjunct Professor in the School of Education and the Arts Central Queensland University Australia Silent partners do not only reflect the ways

we conceive of education but they also influence our practices as educators Being silent they are often taken for granted The strength of this book lies in its critical questioning of the notion of silent partners The chapters enlighten about the untold and the effects they have in an educational environment The readers especially in the fields of education and social justice will definitely acquire a more sensitive perception of how silent partners affect our approaches to multicultural education Dr Regis Machart Senior Lecturer Universiti Putra Malaysia Adjunct Professor University of Helsinki Finland *Socializing Justice* Clara Sabbagh,2023 This book offers a comprehensive view of the numerous roles of justice in three education spheres public and globalized schools nonformal education and the family It relies on the quantitative and ethnographic methodological traditions in these fields to identify controversies and illustrate how the forms of justice underlying educational spheres are universal yet sensitive to sociocultural variation Kant's Embedded Cosmopolitanism Georg Cavallar,2015-05-19 Kant s omnipresence in contemporary cosmopolitan discourses contrasts with the fact that little is known about the historical origins and the systematic status of his cosmopolitan theory This study argues that Kant s cosmopolitanism should be understood as embedded and dynamic Inspired by Rousseau Kant developed a form of cosmopolitanism rooted in a modified form of republican patriotism In contrast to static forms of cosmopolitanism Kant conceived the tensions between embedded local attachments and cosmopolitan obligations in dynamic terms He posited duties to develop a cosmopolitan disposition *Gesinnung* to establish common laws or cosmopolitan institutions and to found and promote legal moral and religious communities which reform themselves in a way that they can pass the test of cosmopolitan universality This is the cornerstone of Kant s cosmopolitanism and the key concept is the vocation *Bestimmung* of the individual as well as of the human species Since realizing or at least approaching this vocation is a long term arduous and slow process Kant turns to the pedagogical implications of this cosmopolitan project and spells them out in his later writings This book uncovers Kant s hidden theory of cosmopolitan education within the framework of his overall practical philosophy Virtue and the Moral Life William Werpehowski,Kathryn Getek Soltis,2014-07-22 The scope of interest and reflection on virtue and the virtues is as wide and deep as the questions we can ask about what makes a moral agent s life decent or noble or holy rather than cruel or base or sinful or about the conditions of human character and circumstance that make for good relations between family members friends workers fellow citizens and strangers and the sorts of conditions that do not Clearly these questions will inevitably be directed to more finely grained features of everyday life in particular contexts *Virtue and the Moral Life Theological and Philosophical Perspectives* takes up these questions In its ten timely and original chapters it considers the specific importance of virtue ethics its public significance for shaping a society s common good the value of civic integrity warfare and returning soldiers sense of enlarged moral responsibility the care for and agency of children in contemporary secular consumer society and other questions involving moral failure humility and forgiveness
