Information Technology and Educational Management in the Knowledge Society Arthur Tatnall, Javier Osorio, Adrie Visscher, 2006-03-02 Information Technology and Educational Management in the Knowledge Society is an essential reference for both academic and professional researchers in the field of information technology and educational management. Since the mid 1980s, computer-assisted educational information systems have been developing in various parts of the world and the knowledge surrounding the development and implementation of these systems has been growing. The papers presented in this volume are the result of an international call for papers addressing the challenges faced by the information technology and education management (ITEM) field in a society where knowledge management is becoming a major issue both in educational and business systems. This state-of-the-art volume presents the proceedings of the 6th International Working Conference on Information Technology in Educational Management held July 2004 in Spain. The collection will be important not only for information technology and education management experts and researchers but also for all teachers and administrators interested in this growing field.

Knowledge Society and Education in the Asia-Pacific José Ernesto Rangel Delgado, Antonina Ivanova Boncheva, 2021-07-21 This book explores recent trends in the knowledge-based society and education field in Asia Pacific and discusses future challenges in the region. It presents studies on the development of scientific thought in the field on the knowledge-based society in the Pacific Circle. This book explores the theoretical framework of the knowledge-based society framed by the borders imposed by the Pacific Ocean, particularly from the perspective of the Pacific Circle Consortium (PCC) in the face of a paradigm shift to satisfy the human needs that must be preserved to guarantee economic and human conditions that future development requires. It analyzes how education relates to the knowledge society in the Asia Pacific region and considers global issues such as environmental degradation, climate change, pollution, soil erosion, growth of the population. It discusses how these issues concern parents, educators, civil societies and governments of the countries around the Pacific Circle. This book explores the necessity of changing the current transformative paradigm to one that ensures environmental sustainability with the support of scientific education and research as an issue that must be integrated into the curricula in schools at all educational levels.
