Education on Trial William J. Johnston, 1985 **Resources in Education**, 2001-10 *The Transformation of the American Democratic Republic* Stephen M. Krason, 2017-09-08 In this stimulating volume Stephen M Krason considers whether the Founding Fathers vision of the American democratic republic has been transformed and if so in what ways He looks to the basic principles of the Founding Fathers then discusses the changes that resulted from evolving contemporary expectations about government Referencing philosophical principles and the work of great Western thinkers Krason then explores a variety of proposals that could forge a foundation for restoration Acknowledging that any attempt to revive the Founders views on a democratic republic must start in the public sphere Krason focuses on concerned citizens who are aware of the extent to which our current political structures deviate from the Founders vision and want to take action Ultimately a democratic republic can exist be sustained and flourish only when there is a deep commitment to it in the minds and norms of its people Written by a foremost authority in the field of US Constitutional law this book will appeal to those interested in American history society and politics **Education for Hope** John E Hull, 2023-01-28 This book traces the little known history of an alternative school system erected in Canada by post WWII Dutch Neo Calvinist immigrants In less than four decades this community established a kindergarten to university education system that extended from Ottawa Ontario to Victoria BC This remarkable tradition of education imagines the school as a dissident and transformational social institution While this book offers the narrative of faith based tradition of education the author makes a strong case that educators from diverse ideological backgrounds can learn important lessons from it about the implementation of an alternative educational vision teacher led curriculum reform and a self formative pedagogy To supplement this narrative the author also provides a separate set of theoretical discussions on key issues in school reform as well as his memoir as an educator and curriculum designer within this tradition **Future Survey Annual 1986** Michael Marien, 1987-01-01
