Liberalism, Education and Schooling T.H. McLaughlin, 2017-03-27 A tribute collection of essays edited by author's colleagues and friends

Epistemologies and Ethics in Adult Education and Lifelong Learning Richard G.

Bagnall, Steven Hodge, 2022-02-17 This book presents and advocates for a framework of competing epistemologies and conceptions of ethics as a way of understanding modernist lifelong learning These epistemologies are grounded in a recognition of the normative nature of knowledge that informs lifelong learning each being framed by a different account of the sort of knowledge that is most valued and therefore foregrounded in lifelong learning policy provision and engagement informed by the epistemology Each epistemology is also characterised by its constituent conception of ethics Four such epistemologies and conceptions of ethics are here recognised as having been important in the lifelong learning movement to date disciplinary developmental emancipatory and design The authors argue that assumptions about knowledge and moral positions constitute a powerful but not well understood feature of such arguments awareness of these assumptions and positions could serve to powerfully advance the overall understanding of what is at stake in lifelong learning and adult education at all levels

Teaching for Commitment Elmer John Thiessen, 1993 Elmer Thiessen provides a comprehensive critical survey of the debate concerning indoctrination especially in the context of confessional religious education His central aim is to establish that indoctrination as a result of religious instruction is neither inevitable nor as probable as is often assumed by advocates of liberal education Thiessen recognizes that indoctrination can occur in Christian homes and schools He believes however that before the charge of indoctrination can be correctly evaluated we need to develop a more coherent concept of the term He provides a critical examination of the four criteria traditionally associated with indoctrination content method intention and consequences and of the institutional context of indoctrination

The Minoritisation of Higher Education Students Ruth Mieschbuehler, 2017-07-28 Research into ethnic attainment differences in British higher education and elsewhere tends to depict students from minority ethnic backgrounds as disadvantaged marginalised discriminated against and excluded In *The Minoritisation of Higher Education* Mieschbuehler demonstrates that this idea is shaping theoretical perspectives and informing higher education policies and practice across the country yet current university policies and practices perpetuate rather than ameliorate the educational status of so called minority ethnic students Including an examination of current theories as well as a wealth of empirical data from students this book explains how group based social differentiation and student centred education foster the idea that ethnic and social attributes matter losing any sense of our common humanity Considering the consequences of this for students and university education as a whole and challenging all pre existing ideas of how to approach reported ethnic attainment gaps *The Minoritisation of Higher Education* is a thought provoking read The book will be of great interest to scholars postgraduate students and professionals in the areas of higher education learning and teaching equality and diversity ethnicity and attainment It is also an important work for policymakers concerned with higher education

Values in Education and Education in Values Mark Halstead, Monica J. Taylor, 2005-10-26 An investigation into how schools can influence the developing values of young people is given in this book The authors first look from the perspective of educationalists and policy makers at values within

contemporary education in particular moral spiritual democratic and environmental values together with arts and health education Secondly they focus on the values of pupils and schools examining school aims and mission statements the formal curriculum school ethos and assessment of children s development Insights are provided with guidance on how values may be most effectively incorporated into the activities of the schools This book is intended to be of use as a practical and informative guide to all those involved in primary and secondary education and those interested in values education generally

Education with Character James Arthur,2003 Education with character is the latest buzzphrase but until now there s been no real concensus on some of the key issues This book addresses the gap adopting a cross disciplinary approach to the

matters in hand **Understanding Physical Education** Ken Green, 2008-01-24 This book will prove an invaluable resource for students wanting to engage with any or all of the issues covered and who need to get an authoritative quick fix on particular fields of research. It is thorough, contemporary in its choice of issues and comprehensive in its coverage of them. The author is to be congratulated on making a very thoughtful and important contribution to the literature in PE. Professor John Evans, Loughborough University, UK. This easy-to-use introduction explores all of the contemporary issues and enduring themes in physical education, focusing on the United Kingdom but incorporating a global dimension. The wide range of topics covered includes: o the requirements of National Curriculum Physical Education o the current state of physical education o the relationship between physical education and sport o extra-curricular physical education o lifelong participation in sport and physical activity o assessment and examinations in physical education o social class, gender, ethnicity and inclusion in relation to physical education o teacher training and continuing professional development. This book is an essential read for anyone embarking upon an undergraduate or postgraduate course in physical education.

The Dangerous Rise of Therapeutic Education Kathryn Ecclestone, Dennis Hayes, 2009-05-07 The silent ascendancy of a therapeutic ethos across the education system and into the workplace demands a book that serves as a wake-up call to everyone. Kathryn Ecclestone and Dennis Hayes' controversial and compelling book uses a wealth of examples across the education system, from primary schools to university and the workplace, to show how therapeutic education is turning children, young people and adults into anxious and self-preoccupied individuals rather than aspiring, optimistic and resilient learners who want to know everything about the world. The chapters address a variety of thought-provoking themes, including how therapeutic ideas from popular culture dominate social thought and social policies and offer a diminished view of human potential; how schools undermine parental confidence and authority by fostering dependence and compulsory participation in therapeutic activities based on disclosing emotions to others; how higher education has adopted therapeutic forms of teacher training because many academics have lost faith in the pursuit of knowledge; how such developments are propelled by a deluge of political initiatives in areas such as emotional literacy, emotional well-being and the soft outcomes of learning. *The Dangerous Rise of Therapeutic Education* is eye-opening reading for every teacher, student, teacher and parent who retains any belief in the power of knowledge to transform people's lives. Its insistent call for a serious public debate about the emotional state of education should also be at the forefront of the minds of every agent of change in society, from parent to policy maker.
