ENVIRONMENTAL EDUCATION Issues and Challenges Dr. M. RAJAKUMAR, Dr. A. SELVARAJ, 2017-04-08

Environmental education EE refers to organized efforts to teach about how natural environments function and particularly how human beings can manage their behavior and ecosystems in order to live sustainably **Thinking Ecologically in**

Educational Policy and Research Sarah Winchell Lenhoff, Jeremy Singer, Michael Gottfried, 2024-02-29 This book places a focus on educational ecosystems that is understanding the complex nature of educational experiences and promoting a coordinated set of policy and practice solutions to address interrelated problems that manifest in school and student outcomes Educational policy and politics have been dominated by school improvement initiatives that locate educational problems and solutions in schools themselves rather than in the systemic and structural roots of those problems segregation poverty and histories of compounding inequality Youth outcomes that we associate with schools e.g. achievement attendance graduation are the consequences of systemic structural and environmental factors that interact with the lived experiences of students in their communities and schools This insightful volume provides examples of how to understand and analyse educational issues ecologically and evidence on the opportunities and challenges with forging cross sector partnerships to address educational issues ecologically Thinking Ecologically in Educational Policy and Research will be a key resource for practitioners and researchers of education leadership and policy educational administration educational research educational studies and sociology This book was originally published as a special issue of the Peabody Journal of Education School

Social Work Services in Federally Funded Programs Hope M. Bland, Ashraf Esmail, 2012-10-08 This book identifies the barriers between social work intervention in education and government funded programs that impact African American students The chapters approach these issues from a child centered perspective which has proven critical in developing positive and sustainable relationships with African American students As children begin to understand more about their lives and the world around them they also develop opinions that help them identify who they are as individuals and where they see themselves in the world From a qualitative research methodology approach trust has been identified as a fundamental factor and potential barrier among all variables acknowledged Interviews with ten African American high school and college students were conducted to discuss their perspectives on education family life peer interaction and social work intervention

Challenges of Existential Threats through Educational Innovation is the first book of its kind to provide an educational and systematic analysis of problems and solutions regarding the most pressing threats that humankind is facing. The book makes a case for the importance of education responding to significant threats including climate change, pandemics, decline in global biodiversity, overpopulation, egoism, ideologies, nuclear biological and chemical warfare, inequality, artificial intelligence, and ignorance and the distortion of truth. Written by leading experts in their field based on cutting edge research, the chapters explore these issues and offer suggestions for how education can address these problems in the future. This groundbreaking and highly topical book will be an essential reading for academics, researchers, and post graduate students in the fields of education, research, environmental studies, educational politics, and organizational management.

Science Education in the 21st Century Ingrid V. Eriksson, 2008. This is hardly another field in education which is more important for a country's future than science education. Yet more and more students elect to concentrate on other fields to the exclusion of science for a variety of reasons: 1 The perception of degree of difficulty 2 The actual degree of difficulty 3 The lack of perceived prestige and earnings associated with the field 4 The dearth of good and easy to use texts 5 The lack of society in comprehending the significance of science and creating attractive incentives for those who enter the field. This book presents new issues and challenges for the field.
