Fromm's debut book a timeless classic In this examination of the roots of Nazism and fascism in Europe Fromm also explains how economic and social constraints can also lead to authoritarianism By the author of *The Sane Society* and *The Anatomy of Human Destructiveness* this is a fascinating examination of the anxiety that underlies our darkest impulses an enlightening volume perfect for readers of Eric Hoffer or Hannah Arendt This ebook features an illustrated biography of Erich Fromm

J. Billington, Alex Copping, Anthony Ferguson, 2008-04-15 The provision of

an adequate means of escape from fire is fundamental to the design of new buildings and to the alteration change of use or extension of existing buildings It is essential that means of escape are considered at the earliest stage of a project as mistakes are very expensive to correct later in the design There is a great deal of legislation on means of escape design and control but this is scattered throughout a large number of statutes regulations and guidance documents Many buildings need
