Escape Through China:

Escape From China Zhang Boli, 2008-06-30 Who can forget the images telecast worldwide of brave Chinese students facing down tanks in Tiananmen Square as they took on their Communist government After a two week standoff in 1989 military forces suppressed the revolt killing many students and issuing arrest warrants for top student leaders including Zhang Boli After two years as a fugitive Zhang the only leader to elude capture knew that he must bid his beloved country as well as his wife and baby daughter farewell Traveling across the frozen terrain of the former Soviet Union where peasants rescued him and through the deserted lands of China's precarious borders Zhang had only his extraordinary will to propel him toward freedom As told in *Escape from China* a work of great historical resonance his story will renew your faith in the human spirit

How China Escaped Shock Therapy Isabella M. Weber, 2021-05-26 China has become deeply integrated into the world economy Yet gradual marketization has facilitated the country's rise without leading to its wholesale assimilation to global neoliberalism This book uncovers the fierce contest about economic reforms that shaped China's path In the first post Mao decade China's reformers were sharply divided They agreed that China had to reform its economic system and move toward more marketization but struggled over how to go about it Should China destroy the core of the socialist system through shock therapy or should it use the institutions of the planned economy as market creators With hindsight the historical record proves the high stakes behind the question China embarked on an economic expansion commonly described as unprecedented in scope and pace whereas Russia's economy collapsed under shock therapy Based on extensive research including interviews with key Chinese and international participants and World Bank officials as well as insights gleaned from unpublished documents the book charts the debate that ultimately enabled China to follow a path to gradual reindustrialization Beyond shedding light on the crossroads of the 1980s it reveals the intellectual foundations of state market relations in reform era China through a *longue durée* lens Overall the book delivers an original perspective on China's economic model and its continuing contestations from within and from without

Just as escaped slaves from the American South educated Americans about the evils of slavery the North Korean fugitives are informing the world about the secretive country they fled Escape from North Korea describes how they also are sowing the seeds for change within North Korea itself Once they reach sanctuary the escapees channel news back to those they left behind In doing so they are helping to open their information starved homeland exposing their countrymen to liberal ideas and laying the intellectual groundwork for the transformation of the totalitarian regime that keeps their fellow citizens in chains

Escape from Violence Aristide R. Zolberg, Astri Suhrke, Sergio Aguayo, 1989-08-10 The magnitude of refugees movements in the Third World widely perceived as an unprecedented crisis has generated widespread concern in the West This concern reveals itself as an ambiguous mixture of heartfelt compassion for the plight of the unfortunates cast adrift and a diffuse fear that they will come pouring in In this comprehensive study the authors examine the refugee flows originating in Latin America Africa and Asia and suggest how a better understanding of this phenomenon can be used by the international community to assist those in greatest need Reviewing the history of refugee movements in the West they show how their formation and the fate of endangered populations have also been shaped by the partisan objectives of receiving countries They survey the kinds of social conflicts characteristic of different regions of the Third World and the ways refugees and refugee policy are made to serve broader political purposes

Silk Road to Belt Road Md. Nazrul Islam, 2018-11-30 This volume approaches China's Belt and Road Initiative as a process of culturalization one that started with the Silk Road and continued over the millennium In mainstream literature the Belt and Road Initiative BRI has been portrayed as the geo economic vision and geo political ambition of China's current leaders intended to shape the future of the world However this volume argues that although geo politics and geo economy may play their part the BRI more importantly creates a venue for the meeting of cultures by promoting people to people interaction and exchange This volume explores the journey from the Silk Road to Belt Road by analyzing topics ranging from history to religion from language to culture and from environment to health As such scholars academics researchers undergraduate and graduate students from the Humanities Social Sciences and Business will find an alternative approach to the Belt and Road Initiative

TEXT CONCLUSION To facilitate classroom use the volume has been reorganized into groups of interrelated essays The editors introduce each section and offer a list of suggested readings that complement the material in that section

China's High-Tech Repression Against Uyghurs: Novel Theoretical Insights Lacin Idil Oztig, Abdurresit Celil

Karluk,2025-02-14 This book explores the socio spatial impacts of China s high tech repression against Uyghurs both within and beyond its borders The study is built on surveys in depth interviews and focus group discussions with the members of Uyghur diaspora in T rkiye Findings indicate that high tech repression minimizes the social life in East Turkestan This type of governance aims to achieve a complete erasure of privacy and individual agency by strategically leveraging technology While Uyghurs who escaped to T rkiye appear to gain relative freedom our findings indicate that with China s transnational repression mostly applied through Information and Communication Technologies ICTs they live in a social space which functions as a quasi spatial extension of East Turkestan *Congressional Record* United States. Congress,1919

Unsettling Exiles Angelina Chin,2023-04-25 The conventional story of Hong Kong celebrates the people who fled the mainland in the wake of the establishment of the People s Republic of China in 1949 In this telling migrants thrived under British colonial rule transforming Hong Kong into a cosmopolitan city and an industrial and financial hub Unsettling Exiles recasts identity formation in Hong Kong demonstrating that the complexities of crossing borders shaped the city s uneasy place in the Sinophone world Angelina Y Chin foregrounds the experiences of the many people who passed through Hong Kong without settling down or finding a sense of belonging including refugees deportees undesirable residents and members

of sea communities She emphasizes that flows of people did not stop at Hong Kong's borders but also bled into neighboring territories such as Taiwan and Macau Chin develops the concept of the Southern Periphery the region along the southern frontier of the PRC outside its administrative control yet closely tied to its political space Both the PRC and governments in the Southern Periphery implemented strict migration and deportation policies in pursuit of border control with profound consequences for people in transit Chin argues that Hong Kong identity emerged from the collective trauma of exile and dislocation as well as a sense of being on the margins of both the Communist and Nationalist Chinese regimes during the Cold War Drawing on wide ranging research *Unsettling Exiles* sheds new light on Hong Kong's ambivalent relationship to the mainland its role in the global Cold War and the origins of today's political currents

Economic Lessons from China's Forty Years of Reform and Opening-up David Daokui Li, 2021-03-26 This book first shows that the past 40 years of China's economic reform and opening up represents the greatest magnitude of economic growth in history Based on field trips extensive and intensive interviews and literature surveys this book argues that there are five general lessons for a rapid growing economy from China's economic reform and opening up all in the area of the relationship between the government and the economy First the local governments need to be incentivized to help rapid entry and development of enterprises Second local governments need to be incentivized to help rapid land conversion from agricultural to non agricultural Third financial deepening is vital that is inducing households to hold more and more financial assets in local currency Financial deepening is essential to convert savings into investments This requires financial stability which is crucial Fourth the learning through opening up is the key to endogenous economic growth The fundamental benefit of opening up is learning rather than enjoying comparative advantage The fifth and final lesson from China is that the central government must proactively manage the macroeconomy The rationale is that enterprises compete with each other in games of industrial organization In order to resolve this problem proactive measures including market oriented means administrative orders and reform measures should be implemented Overall the main lesson from China's past 40 years of reform and opening up is that proper incentives and behavior of the government local and central are important for economic growth China has been conducting reforms in this regard and as a result the government more or less has been playing the role of a helping hand regarding economic growth although China's economic system is far from perfect and many reforms are still needed
