Bailey, 1953 *Authentic Knowing* Imants Baruss, 1996 What is the meaning of life Where does everything come from Why is anything In *Authentic Knowing* Imants Baruss shows us how we might transform ourselves so that we can come closer to answering these existential questions Baruss argues persuasively that our knowledge is limited by the interpretations of experiences provided by the society around us These include the materialistic explanations belonging to a traditional scientific worldview which can account for neither the nature of matter nor anomalous phenomena such as near death experiences However authenticity the effort to act on the basis of one s own understanding can form the basis for answers to existential and scientific questions **Handbook of the Theosophical Current** Olav Hammer, Mikael Rothstein, 2013-01-09 This title represents pioneering research into an

important but under researched current The three sections in the book are devoted to the Theosophical Society Theosophically influenced religious currents and the interaction between Theosophy and surrounding culture [Claiming Knowledge](#) Olav Hammer,2021-11-08 This volume deals with the transformation of unchurched religious creativity in the late modern West It analyzes the ways in which the advance of science globalization and individualism have fundamentally reshaped esoteric religious traditions from theosophy to the New Age This publication has also been published in paperback please click here for details **Dimensions in Wholistic Healing** Herbert Arthur Otto,1979 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com) *The Science of Planetary Signatures in Medicine* Jennifer T. Gehl,2017-01-27 A comprehensive guide to the cosmic influences that underlie health and how to apply them for profound health and healing Examines how ancient and modern traditions of healing interconnect through the doctrine of signatures As above so below Reveals how one s astrological chart has implications for personal health and healing Explains how each sign of the zodiac corresponds not only to parts of the body and its chakras but also to specific plants herbs colors and emotions Explores how to use sound healing to harmonize astrological imbalances When we look at the vast and intricate cosmos galaxies planets organisms organs cells molecules atoms there is a fundamental order a music or harmony of the spheres Our cells reflect the images of galaxies seen through our telescopes We are the microcosm reflecting the macrocosm of the heavens Our ancestors understood these patterns and connections between humanity and the universe and developed spiritual and healing traditions in line with these cosmic truths Yet in the 19th century knowledge of these connections was set aside as medical science sought to create the one size fits all approaches to healing that dominate modern medicine today In this comprehensive exploration of the celestial influences that underlie health and healing Jennifer Gehl with Marc Micozzi examines how ancient and modern traditions of healing interconnect through the doctrine of signatures As above so below She reveals how one s celestial nature the arrangement of the cosmos at the moment of birth has implications for personal health and how each sign of the zodiac corresponds to parts of the body the chakras and specific plants herbs colors and emotions She explains how sound re arranges forms according to the principles of harmony leveraging not only the human self regulating capacity to restore health but also that of the Earth to restore balance and harmony Also explored are the recurrence of geometric forms in nature and how to apply this knowledge in sound healing and medical astrology Weaving together the threads of ancient science and spirit that formed the original tapestry of medicine Gehl explains how to restore the cosmic foundations of healing for personal planetary and universal health and wellbeing *False Dawn* Lee Penn,2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing

the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion.org *Handbook of New Religions and Cultural Production* ,2012-03-28 The cultural products of new religions and spiritualities are frequently ignored or dismissed within academia often stemming from a hesitation to acknowledge these movements as genuine This volume explores the impact of new religions upon cultural production exemplifying the theological and spiritual principles of particular movements and demonstrating their substantial impact on wider society Contributions explore the realms of music architecture food art books films video games and more This scholarship will be of interest to those who wish to explore the gamut of modern religious expression and those who wish to broaden their

knowledge of the spiritual origins of human culture **A Republic of Mind and Spirit** Catherine L. Albanese, 2007-01-01

In the nineteenth and early twentieth centuries Mexicans and Americans joined together to transform the U S Mexico borderlands into a crossroads of modern economic development This book reveals the forgotten story of their ambitious dreams and their ultimate failure to control this fugitive terrain Focusing on a mining region that spilled across the Arizona Sonora border this book shows how entrepreneurs corporations and statesmen tried to domesticate nature and society within a transnational context Efforts to tame a wild frontier were stymied by labour struggles social conflict and revolution Fugitive Landscapes explores the making and unmaking of the U S Mexico border telling how ordinary people resisted the domination of empires nations and corporations to shape transnational history on their own terms By moving beyond traditional national narratives it offers new lessons for our own border crossing age **Chakra Healing Therapy** Glen Park, 2020-09-22 A

occult forces The creation of chiropractic and other Progressive era versions of alternative medicine happened at a time when the relationship between science and religion took on an urgent increasingly competitive tinge Many remarkable people including the Palmers undertook highly personal reinterpretations of their physical and spiritual worlds In this context Folk reframes alternative medicine and spirituality as a type of populist intellectual culture in which ideologies about the body comprise a highly appealing form of cultural resistance
