Essay On Theological Method:

An Essay on Theological Method Gordon D. Kaufman, 1975 This book first published in 1979 contains Gordon Kaufman's initial attempt to articulate his conviction that theology is and always has been an activity of what he calls the imaginative construction of a comprehensive and coherent picture of humanity in the world under God While Kaufman's 1993 work *In Face of Mystery* qualifies and deepens the programmatic proposals offered in *An Essay on Theological Method* the earlier book nevertheless remains a sound and accessible statement on theological method by one of America's most distinguished theologians The Third Edition includes an extensive new Preface by the author and an appendix on The Three Moments of Theological Construction **Truth is Our Mask** William Lloyd Newell, 1990 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com

An Evangelical Response to Gordon Kaufman's "An Essay on Theological Method" Louis Igou Hodges, 1988 *The Making of American Liberal Theology* Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom The Spirit of American Liberal Theology Gary Dorrien, 2023-09-05 The Spirit of American Liberal Theology is an interpretation of the entire U S American tradition of liberal theology A highly condensed and far more accessible summary of Gary Dorrien's three volume trilogy *The Making of American Liberal Theology* Westminster John Knox Press 2001 2003 and 2006 Dorrien here presses the argument that the most abundant diverse and persistent tradition of liberal theology is the one that blossomed in the United States and is still refashioning itself While discussions of English and German liberalism persist new material includes expanded treatment of the Black social gospel the Universalists developments into early 2020s and a robust expression of the author's post Hegelian liberal liberationist perspective

Worldviews and Christian Education W. Shipton, E. Coetzee & R. Takeuchi, 2014-04 In *Worldviews and Christian Education* editors W A Shipton E Coetzee and R Takeuchi have brought together works by experts in cross cultural religious education The authors and editors have a wealth of personal experience in presenting the gospel to individuals with various worldviews that differ greatly from those held by Christians who take the Bible as authoritative They focus on the beliefs and issues associated with witnessing to seekers for truth coming from backgrounds as diverse and animism Buddhism

Confucianism Hinduism Islam Marxism Taoism and postmodernism Back Cover **New Essays in Religious Naturalism**

Creighton Peden, Larry E. Axel, 1993 The essays in this volume were selected from those presented at a Conference on American Religious Thought sponsored by the Highlands Institute for American Religious Thought at Highlands North Carolina The Highlands Institute is a community of productive scholars with diverse theological and philosophical perspectives The Institute contributes to the academic study of religion through interpretive critical and constructive reflections whose principal focus is on distinctively American religious thought It fosters broad discussion of relevant options through its sponsorship of conferences seminars workshops and publications The work of the Institute emphasizes 1 the interface between theology and philosophy especially where theological efforts have utilized the American philosophical tradition 2 the history and development of liberal religious thought in America 3 themes pertinent to the Chicago School of theology and 4 naturalism in American theology and philosophy BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Inter-Religious Models and Criteria** J. Kellenberger, 2016-07-27 This book is a collection of papers presented and discussed at the 1992 Claremont Conference Its contributing authors come from various disciplines that share a concern with models and criteria for inter religious understanding including religious studies philosophy of religion theology comparative studies and feminist philosophy Systematic Theology Francis Schussler Fiorenza, John P. Galvin, 2011-05-01 Unique among contemporary resources the landmark Systematic Theology and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments especially the seachange since Vatican II thought the best new historical studies of traditional doctrines and Scripture and the diverse creative impulses that come from recent philosophy and hermeneutics culture and praxis and ecumenical contacts This new volume combines and updates both previous volumes incorporates into the framework nearly twenty years of fresh thought and bibliography in each area and adds revisions to key articles to take account of a diverse fluid and postmodern situation **Ethics from a Theocentric Perspective: Theology and ethics** James M. Gustafson, 1983 Constructing Moral Concepts of God in a Global Age Myriam Renaud, 2022-07-29 Constructing Moral Concepts of God in a Global Age focuses on what people say and think about God rather than on arguments about God s existence It advances a theological method or step by step approach to explore and reframe personal convictions about God and the worldviews shaped by those convictions Since a moral God is more likely to foster a moral life this method integrates an ethical check to ensure that understandings of God and their associated worldviews are validly moral The proposed method builds on the work of twentieth century theologian Gordon Kaufman during the Kantian phase of his work It anticipates a person like God who hears prayers loves without end and comforts in times of hardship To accommodate today s pluralistic and globalized world the ethical check integrated in the method is a widely collaborative and vetted global ethic the Parliament of the World s Religions Declaration Towards a Global Ethic This volume of constructive philosophical

theology is written for seminary students educators clergy study groups and anyone interested in delving more deeply and systematically into understandings of God whether their own or those of others Homiletical Theology David Schnasa Jacobsen,2015-02-13 Karl Barth famously argued that all theology is sermon preparation But what if all sermon preparation is actually theology This book pursues a thoroughgoing theological vision for the practice of preaching as a way of doing theology The idea is not just that homiletics is the realm of theological application That would leave preaching in the position of simply implementing a theology already arrived at Instead the vision in these pages is of a form of theology that begins with preaching itself its practice its theories and its contexts Homiletical theology is thus a unique way of doing theology even a constructive theological task in its own right Homiletician David Schnasa Jacobsen has assembled several of the leading lights of contemporary homiletics to help to see its task ever more deeply as theological yet in profoundly diverse ways Along the way readers will not only discover how homileticians do theology homiletically but will deepen the way in which they understand their own preaching as a theological task Contributors include Ronald J Allen Professor of Preaching and Gospels and Letters at Christian Theological Seminary John S McClure Charles G Finney Professor of Preaching and Worship at Vanderbilt Divinity School Alyce M McKenzie George W and Nell Ayers Le Van Professor of Preaching and Worship at Perkins School of Theology Southern Methodist University Michael Pasquarello III Granger E and Anna A Fisher Professor of Preaching at Asbury Theological Seminary Luke A Powery Dean of the Chapel and Associate Professor of the Practice of Homiletics at Duke University Teresa Stricklen Eisenlohr Ph D Associate for Worship Office of Theology and Worship at the Presbyterian Church U S A *The Logic of the Heart* James R. Peters,2009-03-01 Philosopher James R Peters defends the reasonableness of the Christian faith in *The Logic of the Heart* He paves a middle road between the Enlightenment's worship of reason and postmodernism's emphasis on freedom and self rule He delves into the thought of theologian St Augustine and philosopher mathematician Blaise Pascal and engages the skeptic David Hume who argued against the possibility of miracles Throughout this process Peters provides an alternative to postmodern thought as well as the widespread New Atheism This work is appropriate for undergraduate and graduate students pursuing studies in philosophy of religion and historical theology Since Peters writes in nontechnical language readers interested in the relationship between faith and reason will also benefit from *The Logic of the Heart* *The Order of Things* Alister E. McGrath,2008-04-15 Provocative and immensely well informed *The Order of Things* represents a substantial and original contribution to the fields of systematic theology historical theology and the science and religion dialogue Leading theologian Alister E McGrath explores how the working methods and assumptions of the natural sciences can be used to inform and stimulate systematic theology Written by one of today's best known Christian writers Explores how the working methods and assumptions of the natural sciences can be used to inform and stimulate systematic theology Continues McGrath's acclaimed exploration of scientific theology begun with his groundbreaking three volume work *A Scientific Theology* Includes a

landmark extended analysis of whether doctrinal development can be explained using Darwinian evolutionary models and exploration of how the transition from a scientific theology to a future scientific dogmatics might be made Supported by a published review of McGrath s scientific theology project which is currently the best brief introduction to his thought

Karl Rahner Karl Rahner (S.I.),1992 Karl Rahner s 1904 84 creative proposals in theological areas made him one of the giants of 20th century theology The depth of his contributions has made study of Rahner s writings difficult but Kelly s anthology of Rahner s writings overcomes the obstacles beautifully A select bibliography neatly organizes the vast work by and on Rahner Part of The Making of Modern Theology Series **Constructing Constructive Theology** Jason A. Wyman Jr. ,2017-07-15 To date constructive theology hasn t been viewed or conceptualized as a movement or trend in theology on its own as a whole Questions arise as to what constructive theology is where it came from why it considers itself constructive and why constructive is something different from the ways in which theology has been done in the past This book traces the overall historical arc of constructive theology from proto movement through the present Inklings of constructive theology emerged well before it began to take any formalized shape At the same time an important shift occurred when a group of theologians decided to create the Workgroup on Constructive Theology Further even as the workgroup continues to work collectively producing textbooks statements and methodologies concerning theology many theologians who are not part of the workgroup or may not even know it exists have adopted the moniker of constructive theologian The book also considers the term constructive itself offering possible reasons and historical contexts that led to this distinction being made in contrast to systematic theology and its subcategories Constructive theology speaks to a very specific historically situated emergence in the academy generally and in theology s attempts to engage those shifts specifically Exploring Theology Elaine A. Robinson,2014 This book is a guide for your journey into the ministry In Exploring Theology Elaine A Robinson introduces readers to the study of theology as a central task of all Christians and one that deserves careful and consistent attention Following a lively examination of what theology is and how we do it Robinson provides a basic map of the major doctrines of the faith and asks readers to consider their own beliefs She invites readers to think of theology as a stream into which we enter and which carries us deeper into the vast ocean that is the fullness of God Back cover **The Study of Theology** Richard A. Muller,1991 The Study of Theology address two major concerns the place of biblical hermeneutics and practical theology The author discusses the hermeneutical implications of biblical historical systematic and practical theology and presents a case for the relationship between exegesis and the other theological disciplines However the relationship between hermeneutics and practical theology is also essential According to the author the traditional forms of theology and preaching frequently fail the tests of exegesis and contemporary theologizing while at the same time most contemporary theology and exegesis fails to address directly the needs of the church Muller presents a case for the structure of hermeneutics and argues that it is essential to the church because theological training as a whole ought to reflect the life of

the church and be of value to the life of the church *J. I. Packer* Leland Ryken, 2015-10-14 For the last 60 years J I Packer has exerted a steady and remarkable influence on evangelical theology and practice His many books articles and lectures have shaped entire generations of Christians helping elevate their view of God and enliven their love for God In this new biography well known scholar Leland Ryken provides readers with a compelling overview of Packer s interesting life and influential legacy Exploring his childhood college days theological education and professional life in both England and America this volume combines detailed facts with personal anecdotes so as to paint a holistic portrait of the man himself Finally Ryken identifies lifelong themes evident in Packer s life ministry and writings that shed light on his enduring significance for Christians today **The British and Foreign Evangelical Review** ,1872
