Essays in Eighteenth-century Literature Louis A. Landa, 1980 **Essays in Eighteenth-Century English Literature** Louis A. Landa, 2017-03-14 This volume contains a selection of the major essays written over a period of three decades by a distinguished scholar of eighteenth century English literature In each essay Professor Landa attempts to show how cultural and intellectual assumptions and presuppositions of the age have been assimilated into the literary works Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Eighteenth-century Critical Essays** Scott Elledge, 1961 A selection of representative writings in literary criticism and aesthetics by 40 critics **Eighteenth Century Literature: an Oxford Miscellany. [Eight Essays by Various Authors.]** EIGHTEENTH CENTURY LITERATURE., 1909 **His and Hers** Ann Messenger, 2014-07-15 Exploring territory seldom visited by feminist scholars Ann Messenger in this new book presents eight studies of literary relationships between men and women writers ranging from the Restoration to the end of the eighteenth century The essays show men and women working together praising and criticizing each other s work borrowing and changing each other s plots and characters recording their different perceptions of their common world From Dryden s praise of Anne Killigrew through Gay s and Lady Mary Wortley Montagu s collaboration on a town eclogue Thomas Southerne s dramatizations of novels by Aphra Behn and Eliza Haywood s version of the Spectator to Cornelia Knight s sequel to Rasselas these relationships demonstrate that men and women writers inhabited the same literary world shared the traditions of the mainstream of English literature Most of the women have since faded from view But Messenger suggests the time has come to rediscover them to reassess their work and to revise the commonly accepted canon of literature accordingly Although most of the studies deal with the way women s writing responds to writing by men the Afterword combats the charge that the women s work is derivative Free of critical jargon and ideological strait jacketing His and Hers makes some little known writers available and interesting to specialists and nonspecialists feminists and traditionalists alike while it sheds new light on some of the most familiar figures of the period The Appendix reprints some of the shorter works which have been analyzed in detail and summaries in the text help to compensate for the unavailability of some of the women s books The comparative approach suggests a wide and rich field for further research **Eighteenth-century English Literature** James L. The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century H. B. Nisbet, Claude Rawson, 2005-12-08 This is a comprehensive 1997 account of the history of literary criticism in Britain and Europe between 1660 and 1800 Unlike previous histories it is not just a chronological survey of critical writing but a multidisciplinary investigation of how the understanding of literature and its various genres was transformed at the start of the modern era by developments in philosophy psychology the natural sciences linguistics and other disciplines as well as in society at large In the process modern literary theory at first often implicit in literary texts themselves emancipated itself from classical poetics and rhetoric and literary criticism emerged as a full time professional activity catering for an expanding literate public The volume is international both in coverage and in authorship Extensive bibliographies provide guidance for further specialised study

Eighteenth-Century Writers in their World Andrew Varney, 1999-09-27 This comprehensive new study reads both major and lesser known texts of the period 1700 1750 in their social cultural historical and intellectual contexts Each chapter introduces and discusses a topic such as travel science money and love and reads a selection of texts in its light Covering works by Congreve Defoe Mrs Manley Addison women poets Swift Pope Fielding and Richardson this is an invaluable and illuminating guide for students of the period **Sex and Death in Eighteenth-Century Literature** Jolene Zigarovich, 2013-05-02 This book discusses sex and death in the eighteenth century an era that among other forms produced the Gothic novel commencing the prolific examination of the century's shifting attitudes toward death and uncovering literary moments in which sexuality and death often conjoined By bringing together various viewpoints and historical relations the volume contributes to an emerging field of study and provides new perspectives on the ways in which the

century approached an increasingly modern sense of sexuality and mortality. It not only provides part of the needed discussion of the relationship between sex, death, history, and eighteenth-century culture but is a forum in which the ideas of several well-respected critics converge, producing a breadth of knowledge and a diversity of perspectives and methodologies previously unseen. As the contributors demonstrate, eighteenth-century anxieties over mortality, the body, the soul, and the corpse inspired many writers of the time to both implicitly and explicitly embed mortality and sexuality within their works. By depicting the necrophilic tendencies of libertines and rapacious villains, the fetishizing of death and mourning by virtuous heroines, or the fantasy of preserving the body, these authors demonstrate not only the tragic results of sexual play but the persistent fantasy of necro-erotica. This book shows that within the eighteenth-century culture of profound modern change, underworkings of death and mourning are often eroticized; that sex is often equated with death as punishment or loss of the self; and that the sex-death dialectic lies at the discursive center of normative conceptions of gender, desire, and social power.
