**Essays and Reviews** Victor Shea, William Whitla, 2000 *Essays and Reviews* is a collection of seven articles that appeared in 1860 sparking a Victorian culture war that lasted for at least a decade. With pieces written by such prominent Oxford and Cambridge intellectuals as Benjamin Jowett, Mark Pattison, Baden Powell, and Frederick Temple, later archbishop of Canterbury, the volume engaged the relations between religious faith and current topics of the day in education, the classics, theology, science, history, literature, biblical studies, hermeneutics, philology, politics, and philosophy. Upon publication, the church, the university, the press, the government, and the courts, both ecclesiastical and secular, joined in an intense dispute. The book signaled an intellectual and religious crisis, raised influential issues of free speech, and questioned the authority and control of the Anglican Church in Victorian society. The collection became a best seller and led to three sensational heresy trials. Although many historians and literary critics have identified *Essays and Reviews* as a pivotal text of high Victorianism, until now it has been almost inaccessible to modern readers. This first critical edition, edited by Victor Shea and William Whitla, provides extensive annotation to map the various positions on the controversies that the book provoked. The editors place the volume in its complex social context and supply commentary, background materials, composition and publishing history, textual notes, and a broad range of new supporting documents, including material from the trials, manifestos, satires, and contemporary illustrations. Not only does such an annotated critical edition of *Essays and Reviews* indicate the impact that the volume had on Victorian society, it also sheds light on our own contemporary cultural institutions and controversies.

D'Antonio, PhD, RN, FAAN,2014-09-28 Nursing History Review an annual peer reviewed publication of the American Association for the History of Nursing is a showcase for the most significant current research on nursing history Regular sections include scholarly articles over a dozen book reviews of the best publications on nursing and health care history that

have appeared in the past year and a section abstracting new doctoral dissertations on nursing history. Historians, researchers, and individuals fascinated with the rich field of nursing will find this an important resource. Included in Volume 23: English as a Barrier, Disasters Nursing and Community Responded, A Historical Perspective, The Most Admired Woman in the World, Forgetting and Remembering in the History of Nursing, Ellen N. La Motte, The Making of a Nurse Writer and Activist, Negotiating Relationships of Power in a Maternal and Child Health Centre, The Experience of WHO Nurse Margaret Campbell Jackson in Iran, 1954-1956.

**The Collected Works of John Dewey, Index** Jo Ann Boydston, 2008-04-28. This cumulative index to the thirty-seven volumes of *The Collected Works of John Dewey, 1882-1953* is an invaluable guide to *The Collected Works*. *The Collected Works Contents* incorporates all the tables of contents of Dewey's individual volumes, providing a chronological volume-by-volume overview of every item in *The Early Works*, *The Middle Works*, and *The Later Works*. *The Title Index* lists alphabetically by shortened titles and by key words all items in *The Collected Works*. Articles republished in the collections listed above are also grouped under the titles of those books. *The Subject Index*, which includes all information in the original volume indexes, expands that information by adding the authors of introductions to each volume, authors and titles of books Dewey reviewed or introduced, authors of appendix items, and relevant details from the source notes.

**The Later Works, 1925-1953: 1925** John Dewey, 2008. The meticulously edited text published here as the first volume in the series *The Later Works of John Dewey, 1925-1953* spans that entire period in Dewey's thought by including two important and previously unpublished documents from the book's history: Dewey's unfinished new introduction written between 1947 and 1949, edited by the late Joseph Ratner, and Dewey's unedited final draft of that introduction written the year before his death.

**THE NORTH AMERICAN REVIEW VOL CVIII**, 1869. Victorian Values J. A. Banks, 2023-03-31. First published in 1981, *Victorian Values* is an investigation into the social causes behind the decline of the birth rate and the size of families in Britain in the second half of the nineteenth century. The author looks at the interplay of the rising standard of living, the emancipation of women, the attitude to children and education, and the effects of the meritocratic ideal and their interaction with religious ideas of sexual morality. He considers the pioneers of birth control, but other factors are considered which might contribute to the retreat from the very large families of an earlier period. The book is a brilliant example of how the sociologist can illuminate the problems of the social and economic historian and at the same time contribute to developing ideas about future social policy.

**The Later Works, 1925-1953** John Dewey, 1981. John Dewey's *Experience and Nature* has been considered the fullest expression of his mature philosophy since its eagerly awaited publication in 1925. Irwin Edman wrote at that time that with monumental care, detail, and completeness, Professor Dewey has in this volume revealed the metaphysical heart that beats its unvarying alert tempo through all his writings, whatever their explicit themes. In his introduction to this volume, Sidney Hook points out that Dewey's *Experience and Nature* is both the most suggestive and most difficult of his writings. The meticulously edited text published here as the first volume in the series *The Later*

Works of John Dewey 1925 1953 spans that entire period in Dewey's thought by including two important and previously unpublished documents from the book's history Dewey's unfinished new introduction written between 1947 and 1949 edited by the late Joseph Ratner and Dewey's unedited final draft of that introduction written the year before his death In the intervening years Dewey realized the impossibility of making his use of the word experience understood He wrote in his 1951 draft for a new introduction Were I to write or rewrite Experience and Nature today I would entitle the book Culture and Nature and the treatment of specific subject matters would be correspondingly modified I would abandon the term experience because of my growing realization that the historical obstacles which prevented understanding of my use of experience are for all practical purposes insurmountable I would substitute the term culture because with its meanings as now firmly established it can fully and freely carry my philosophy of experience
