Silencing the Sounded Self Christopher Shultis, 2013-11-05 Christopher Shultis observes an intriguing contrast between John Cage s affinity for Thoreau and fellow composer Charles Ives connection with Emerson Although both Thoreau and Emerson have been called transcendentalists they held different views about the relationship between nature and humanity and the artist s role in creativity Shultis explores the artist s sounded or silenced selves the self that takes control of the creative experience versus the one that seeks to coexist with it and shows how understanding this distinction allows a better understanding of Cage Having placed Cage in this experimental tradition of music poetry and literature Shultis offers provocative interpretations of Cage s aesthetic views especially as they concern the issue of non intention and addresses some of his most path breaking music as well as several experimentally innovative written works
