Fisher**

Essays In Honour Of Gilbert Murray:

Essays in Honour of Gilbert Murray, 1936 **Essays in Honour of Gilbert Murray** Gilbert Murray, Herbert Albert Laurens Fisher, 1972 Essays in Honour of Gilbert Murray, Etc James Alexander Kerr Thomson, 1936 **Essays in Honour of Gilbert Murray (John Masefield, Lord Cecil, J. Toynbee, Etc.)** Gilbert Murray, 1973-01-01 Essays in Honor of Gilbert Murray ,1936 **Essays on Honor of Gilbert Murray** Arden Library, 1981-02-01 *Gilbert Murray Reassessed* Christopher Stray, 2007-07-12 This is the first comprehensive account of the life and work of the distinguished scholar and public figure Gilbert Murray 1866 1957 Sixteen contributors survey the many spheres in which he was active and the book opens with memoirs by two of his grandchildren **The Hammonds** Stewart Angus Weaver, 1997 Here for the first time is the story of one of history's great scholarly and marital collaborations J L and Barbara Hammond were among the most innovative and influential historians of the twentieth century Between 1911 and 1934 they wrote eight books together that amount in effect to the first sustained social history of modern England Three of their books in particular *The Village Labourer* 1911 *The Town Labourer* 1917 and *The Skilled Labourer* 1919 not only anticipated what came to be known as history from below but also permanently changed the way most people think about the Industrial Revolution which they defined in the apocalyptic terms to which we have become accustomed The Hammonds were also public figures prominently involved along with L T Hobhouse J A Hobson C P Scott and others in the definition and dissemination of the new liberalism From the point of involvement in the politics of one century they helped give enduring historical shape to another and thus exercise like their friends Sidney and Beatrice Webb a dual fascination Of the two Hammonds J L was the more prolific writing six books on his own and serving as a political journalist for virtually his entire professional life which saw him intervene editorially in every public crisis from the Boer War to the Second World War Ireland was after the Industrial Revolution arguably his greatest passion one to which he devoted much of his editorial life and his supreme literary effort *Gladstone and the Irish Nation* 1938 Barbara Hammond was an accomplished classicist the first woman to earn a First Class degree in Greats at Oxford She is shown here to have done much more work on the labourer books than has been previously recognized and to sustain through her letters an artful running commentary on the foibles of her age Through her especially the author evokes a radical but also doggedly Victorian sensibility that survived uneasily into the age of Bloomsbury and beyond The Hammonds were unique in the extent of their fused identity in the extent to which they became as G M Trevelyan once put it one flesh and one author The Hammonds is part dual biography part evocation of an age but it is also a study of marriage a marriage at a particular moment in history a marriage in the art and craft of history Appeasement and All Souls Sidney Aster, 2004 The origins of World War II and alternatives to appeasement have been the subject of vigorous debate for many decades However the least understood and explored aspect of these debates has been the subject of public opinion This volume addresses the vital phenomenon of elite and intellectual opinion This unique All Souls think tank

deliberated for almost two years to frame an alternative foreign policy for a country facing the menace of a worldwide threat stretching from Germany to Italy to Japan. The group represented a wide ranging selection of the finest individuals of the time with an unmatched wealth and breadth of public and private service. The volume analyses the deliberations of this think tank as it struggled to frame a consensus for a foreign policy document intended to guide public and government debate and avoid another world war.

Semi-detached Idealists Martin Ceadel, 2000. Britain's semi-detached geographical position has helped to give it the world's strongest peace movement. Secure enough from invasions to be influenced by an idealistic approach to international relations, unlike most of Europe yet too close to the continent for isolationism to be an option as it was in the United States, the country has provided favourable conditions for those aspiring not merely to prevent war but to abolish it. The period from the Crimean War to the Second World War marked the British peace movement's age of maturity. In 1854 it was obliged for the first time to contest a decision and moreover a highly popular one to enter war. It survived the resulting adversity and gradually rebuilt its position as an accepted voice in public life though by the end of the nineteenth century its leading associations such as the Peace Society were losing vitality as they gained respectability. Stimulated by the First World War into radicalizing and reconstructing itself through the formation of such associations as the Union of Democratic Control, the No Conscription Fellowship and the Fellowship of Reconciliation, the movement endured another period of unpopularity before enjoying unprecedented influence during the inter-war years, the era of the League of Nations. Union, the Oxford Union's King and Country debate, the Peace Ballot and the Peace Pledge Union. Finally, however, Hitler discredited much of the agenda it had been promoting the previous century or more. This book is the first comprehensive and authoritative study of this subject. It covers all significant peace associations and campaigns and is based on an extensive use of archival as well as printed sources. Its subject matter is of relevance both to historians of nineteenth and twentieth century British politics and to specialists in international relations interested in the anti-realist tradition.

Voyage into Language David B. Paxman, 2017-03-02. In this new study, author David Paxman demonstrates that ordinary spatial concepts together with the changing sense of the earth's space brought about by exploration, navigation and mapping exerted a strong influence on linguistic thought. Paxman illuminates how our thinking about language as a whole, as well as our exploration of languages, developed in ways parallel to our thinking about and exploration of the space we live in on our planet. To the factors to which scholars have generally attributed language thought in the early modern period, the refinement of tools in phonetics, grammar and linguistic history, and the increasing exposure to diverse languages as the world was explored and colonized, Paxman here adds another: spatial exploration and the novel application of spatial concepts. He suggests that language was an unfamiliar space that Europe entered and navigated, facing challenges similar to those posed by terrestrial navigation. He argues that spatial experience influenced linguistic thought in two ways. First, ordinary spatial experience—terrain and boundaries, near and far, journeys and paths etc.—provided conceptual structures, often novel or inventive, that guided those

who investigated the properties of language Second expanding horizons the sense of terrestrial space and recognition of the difficulties of representing and navigating a spherical earth contributed directly to language thought by offering conceptual structures applicable to this different and equally challenging domain While Voyage into Language does contribute to the history of linguistics more broadly it is a treatment of intellectual and cultural history and an application of cognitive science to language study of the past As such it holds appeal for historians and literary scholars as well as linguists *History and Society* R.H. Tawney, 2013-04-15 R H Tawney believed that the subject of economic history raises questions which touch the fundamental concerns of all thinking people By setting economic development firmly within the framework of cultural and political life he provided an alternative to the recent fragmentation of economic history into a number of increasingly technical specialisms First published as a collection in 1978 these ten essays spanning the length of Professor Tawney's career remain as controversial and potent as ever and the original introduction by J M Winter provides the first full evaluation and significance of R H Tawney's approach to economic history Among the essays included in this volume are the indispensable studies of The Rise of the Gentry and Harrington's Interpretation of His Age as well as The Abolition of Economic Controls 1918 1921 here published in full for the first time Other selections such as Tawney's celebrated inaugural lecture as Professor of Economic History at the London School of Economics in 1933 the Study of Economic History offer a representative sample of the range and sweep of Tawney's historical imagination Taken together these essays demonstrate the validity of Tawney's conviction that economic historians must confront not only the creation of wealth but also the moral questions surrounding its distribution *Digital Classical Philology* Monica Berti, 2019-08-05 Thanks to the digital revolution even a traditional discipline like philology has been enjoying a renaissance within academia and beyond Decades of work have been producing groundbreaking results raising new research questions and creating innovative educational resources This book describes the rapidly developing state of the art of digital philology with a focus on Ancient Greek and Latin the classical languages of Western culture Contributions cover a wide range of topics about the accessibility and analysis of Greek and Latin sources The discussion is organized in five sections concerning open data of Greek and Latin texts catalogs and citations of authors and works data entry collection and analysis for classical philology critical editions and annotations of sources and finally linguistic annotations and lexical databases As a whole the volume provides a comprehensive outline of an emergent research field for a new generation of scholars and students explaining what is reachable and analyzable that was not before in terms of technology and accessibility *Empire and Communications* Harold A. Innis, 2022-08-03 Originally published in 1950 Harold A Innis's *Empire and Communications* is considered to be one of the classic works in media studies yet its origins have received little attention Ambitious in its scope the book spans five millennia tracing a path of development around the globe from 2900 BCE to the twentieth century and revealing the cyclical interplay between communications and power structures across space and time In this new edition William J Buxton pays close attention to

handwritten glosses that Innis added to a copy of the original edition and the revisions undertaken by his widow Mary Q Innis A new introduction provides a detailed account of how the book emerged from lectures that Innis delivered at Oxford University in 1948 as well as how it related to other presentations Innis made in Britain during the same period It explores how Innis sought to enrich his analysis by incorporating material related to phenomena such as war education religion culture geography and finance An insightful foreword by Marshall McLuhan is included as well as bibliographical references and a revised index By providing a narrative based on extensive notes from Innis this edition makes *Empire and Communications* more accessible and contributes to the broad efforts to shape Innis s legacy *The Bias of Communication*

Harold A. Innis,2024-06-15T00:00:00Z Based on the original 1951 edition by Canadian professor and author of seminal works on media communication theory and Canadian economic history Harold A Innis d 1952 Innis explores the role of media in shaping the culture and development of civilizations He argued that a balance between oral and written forms of communication contributed to the flourishing of Greek civilization in the 5th century BC But in this ever relevant work he predicted much of what is going on today and warned that Western civilization is now imperiled by powerful advertising driven media obsessed by present mindedness and the continuous systematic ruthless destruction of elements of permanence essential to cultural activity *A Bookman's Catalogue Vol. 2 M-End* T. Bose,R. N. Colbeck,2011-11-01

The Colbeck collection was formed over half a century ago by the Bournemouth bookseller Norman Colbeck Focusing primarily on British essayists and poets of the nineteenth century from the Romantic Movement through the Edwardian era the collection features nearly 500 authors and lists over 13 000 works Entries are alphabetically arranged by author with copious notes on the condition and binding of each copy Nine appendices provide listings of selected periodicals series publications anthologies yearbooks and topical works **William Gladstone** Roland Quinault,2016-03-03

William Ewart Gladstone 1809 98 was the outstanding statesman of the Victorian age He was an MP for over sixty years a long serving and exceptional Chancellor of the Exchequer and four times Prime Minister As the leader of the Liberal party over three decades he personified the values and policies of later Victorian Liberalism Gladstone however was always more than just a politician He was also a considerable scholar a dedicated Churchman and had a range of interests and connections that made him in many respects the quintessential Victorian Yet important aspects of Gladstone s life have received relatively little recent attention from historians This study reappraises Gladstone by focusing on five themes his reputation his representation in visual and material culture his personal life his role as an official and the ethical and political basis of his international policies This collection of original often multidisciplinary studies provides new perspectives on Gladstone s public and private life As such it illustrates the many sided nature of his career and the complexities of his personality *Absolute or relative motion ? : a study from a Machian point of view of the discovery and the structure of dynamical theories* Julian B. Barbour,1988

Social Theory of Fear G. Skoll,2010-09-13 A PDF version of this book is available for free in open access via the OAPEN

Library platform www.oapen.org In the current crisis of the capitalist world system elites promote fear of crime and terrorism to keep and expand their privileges and control the masses This book offers an analysis of the crisis and strategies for rebellion This ebook is participating in an experiment and is available Open Access under the Creative Commons Attribution Non Commercial No Derivatives 3.0 Unported CC BY NC ND 3.0 licence Users are free to disseminate and reuse the ebook The licence does not however permit commercial exploitation or the creation of derivative works without specific permission To view a copy of this license visit <http://creativecommons.org/licenses/by-nc-nd/3.0/> Contemporary Criminology and Criminal Justice Theory G. Skoll, 2009-08-31 This book casts a critical eye on scholarship in the field of criminal justice and offers some new orientations to help develop explanations for twenty first century criminology and criminal justice studies
