Sanctuary Nicole A. Waligora-Davis, 2011-03-01 In 2005 hurricane Katrina and its aftermath starkly revealed the continued racial polarization of America Disproportionately impacted by the ravages of the storm displaced black victims were often characterized by the media as refugees The characterization was wrong headed and yet deeply revealing Sanctuary African Americans and Empire traces the long history of this and related terms like alien and foreign a rhetorical shorthand that has shortchanged black America for over 250 years In tracing the language and politics that have informed debates about African American citizenship Sanctuary in effect illustrates the historical paradox of African American subjecthood while frequently the target of legislation slave law the Black Codes and Jim Crow blacks seldom benefited from the actions of the state Blackness helped to define social cultural and legal aspects of American citizenship in a manner that excluded black people themselves They have been treated rather as foreigners in their home country African American civil rights efforts worked to change this Activists and intellectuals demanded equality but they were often fighting for something even more fundamental the recognition that blacks were in fact human beings As citizenship forced acknowledgement of the humanity of African Americans it thus became a gateway to both civil and human rights Waligora Davis shows how artists

Poetics and Justice in America, Japan, and Taiwan Dean Anthony Brink, 2021-06-28 Poetics and Justice in America Japan and Taiwan shows how entitlements are implicated in all areas of life human and nonhuman that poetry reaches Through a creative adaptation of Badiou s philosophical framing this book argues that poetry matters as a form of media particularly suited to integrating diverse fields of knowledge and attention in newspapers Tweets and performance as well as volumes of poetry Recasting intertextuality as more relational than referential the author argues for the importance of poetry in realizing how social change and ecological justice are bound up in our orientations of affiliation Each chapter focuses on particular sets of problems engaged by poets in different contexts to various ends in Japan the US and Taiwan Some chapters explore the subtle implications of openly provocative styles while others question the muted poetic intimations of injustices that are left standing unchanged in the name of aesthetics Poets and performance artists featured include Amiri Baraka John Ashbery Tawara Machi Rodrigo Toscano Hung Hung and John Cage The author argues for examining poetic expressions in terms of what discursive fusions and affiliations they embody beyond the intimation of good intentions or ironic passing over

Luminaries of the Harlem Renaissance Langston Hughes Jean Toomer Wallace Thurman and Arna Bontemps among others are associated with well Harlem But the story of these New York writers unexpectedly extends to the American West Hughes for instance grew up in Kansas Thurman in Utah and Bontemps in Los Angeles Toomer traveled often to New Mexico Indeed as *West of Harlem* reveals the West played a significant role in the lives and work of many of the artists who created the signal urban African American cultural movement of the twentieth century Uncovering the forgotten histories of these major American literary figures the book gives us a deeper appreciation of that movement and of the cultures it reflected and inspired These recovered experiences and literatures paint a new picture of the American West one that better accounts for the disparate African American populations that dotted its landscape and shaped the multiethnic literatures and cultures of the borderlands Tapping literary biographical historical and visual sources Emily Lutenski tells the New Negro movement's western story Hughes's move to Mexico opens a window on African American transnational experiences Thurman's engagement with Salt Lake City offers an unexpected perspective on African American sexual politics Arna Bontemps's Los Angeles constructed in conjunction with Louisiana provides a new vision of the Spanish borderlands Lesser known writer Anita Scott Coleman imagines black Western autonomy through domesticity The experience of others like Toomer invited to socialite Mabel Dodge Luhan's circle of artists in Taos present a more pluralistic view of the West It was this place with its transnational and multiracial mix of Native Americans Latinas Anglos and African Americans which buttressed Toomer's idea of a new American race Turning the lens elsewhere Lutenski also explores how Latina o Asian American and Native American western writers understood and represented African Americans in the early twentieth century borderlands The result is a new unusually nuanced and unexpectedly complex view of key figures of the Harlem Renaissance and the borderlands cultures that influenced their art in surprising and important ways

Improvisation and the Making of American Literary Modernism Rob Wallace, 2010-10-14 Improvisation despite its almost ubiquitous presence in many art forms is notoriously misunderstood and mysterious Although earlier strands of American philosophy and art emphasized what might be called improvisational practices it was during the modernist period that improvisational practice and theory

began to make a significant impact on art and culture specifically via the African American musical forms of jazz and blues. This musical development held important consequences for the larger artistic, cultural, and political life of America as a whole and eventually the world. The historical convergence of jazz and philosophical currents like pragmatism in American culture provides the framework for Wallace's discussion of improvisation in literary modernism. Focusing on poets ranging from Gertrude Stein to Langston Hughes, Wallace's work provides a fresh perspective on the complex circuits of modernist culture. *Improvisation and The Making of American Literary Modernism* will be of interest to scholars of poetry, music, American and modernist studies, and race and ethnic studies.

Let America Be America Again Langston Hughes, 2022-07-28. A collection of interviews, speeches, and essays by Langston Hughes. *Let America Be America Again: Conversations with Langston Hughes* is a record of a remarkable man talking. In texts ranging from early interviews in the 1920s when he was a busboy and scribbling out poems on hotel napkins to major speeches such as his keynote address at the First World Festival of Negro Arts in Dakar, Senegal in 1966, Hughes's words further amplify the international reputation he established over the course of five decades through more widely published and well-known poems, stories, novels, and plays. In these interviews, speeches, and conversational essays, the writer referred to by admirers as the Poet Laureate of the Negro Race and the Dean of Black Letters articulated some of his most powerful critiques of fascism, economic and racial oppression, and compromised democracy. It was also through these genres that Hughes spoke of the responsibilities of the Black artist, documented the essential contributions of Black people to literature, music, and theatre, and chronicled the substantial challenges that Black artists face in gaining recognition, fair pay, and professional advancement. And it was through these pieces too that Hughes built on his celebrated work in other literary genres to craft an original tragicomic persona: a Blues poet in exile, forever yearning for and coming back to a home, a nation that nevertheless continues to disappoint and harm him. A global traveler, Hughes's words *Let America be America Again* were throughout his career always followed by a caveat: *America never was America to me*.
