Introduction To Chinese Aesthetics Chunshi Yang,2025-05-29 The purpose of this book is to systematize traditional Chinese aesthetic thought reveal its internal logic and carry out a dialogue with modern Western aesthetics so as to rebuild the Chinese aesthetic system Chinese aesthetics embodies the concept of inter subjectivity which has modern significance It is based on the idea of unity between heaven and humanity viewing aesthetic as the communication between the self subject and the world subject in contrast to the Western aesthetic epistemology that regards aesthetic as the sensory perception of the subject toward the object Additionally the methodology of intuitive perception is another characteristic of Chinese aesthetics that holds modern significance Chinese aesthetics emphasizes the emotionality of aesthetics from the perspective of value theory distinguishing itself from the epistemological tradition of Western aesthetics It differs from Western consciousness aesthetics as it embodies corporeality representing aesthetics of experience that integrates body and mind It posits that aesthetic is not purely a spiritual activity nor is it a form of contemplation but rather an experience that integrates body and mind and an idealized way of life Therefore aesthetic can nurture temperament and poeticize life Furthermore in Chinese aesthetics it is emphasized that aesthetics serves as a mode of experiencing the Way The Way is discovered through aesthetic intuition and emotional experiences and it is actualized through imagery thereby laying the groundwork for an aesthetic phenomenology The reinterpretation and reconstruction of Chinese aesthetics is a product of the dialogue between Chinese and Western aesthetics Since its publication this book has garnered widespread attention and acclaim from the academic community in China It embodies professor Yang s Transcendental Aesthetic view with Inter subjectivity bridging ancient and modern perspectives and fostering communication between Chinese and Western Aesthetics

The Revival of Beauty Catherine

Wesselinoff, 2023-08-18 This book provides original descriptive accounts of two schools of thought in the philosophy of beauty the 20th century Anti Aesthetic movement and the 21st century Beauty Revival movement It also includes a positive defence of beauty as a lived experience extrapolated from Beauty Revival position Beauty was traditionally understood in the broadest sense as a notion that engages our sense perception and embraces everything evoked by that perception including mental products and affective states This book constructs and places in parallel with one another the Anti Aesthetic and Beauty Revival movements In the author s view Anti Aestheticism is devoted to a decisive negation of beauty denying its importance as a philosophical notion and its significance as a lived experience It suggests that beauty is a merely sensual experience which can be used at best as a distraction from justice and at worst as an instrument of evil Alternatively the Beauty Revival movement advances arguments for beauty as an experience that extends primarily to sensual experience but which also calls

forth mental products and cognitive and affective states evoked by that experience After reconstructing these two positions the author elaborates on the notion of beauty as a lived experience through three key moments which occur in the process of our experiencing beautiful objects These moments are a the conditions that constitute an experience of beauty b the attitudinal features most likely to lead to the experience of beauty and c the results of the experience of beauty The Revival of Beauty will be of interest to scholars and advanced students working in aesthetics history of philosophy and art history

The Metaphysics of Beauty Nick Zangwill,2018-05-31 In chapters ranging from The Beautiful the Dainty and the Dumpy to Skin deep or In the Eye of the Beholder Nick Zangwill investigates the nature of beauty as we conceive it and as it is in itself The notion of beauty is currently attracting increased interest particularly in philosophical aesthetics and in discussions of our experiences and judgments about art In The Metaphysics of Beauty Zangwill argues that it is essential to beauty that it depends on the ordinary features of things He uses this principle to defend the notion of the aesthetic to call for a version of aesthetic formalism and to reconsider the reality of beauty The Metaphysics of Beauty brings beauty to the center of intellectual consciousness in a manner informed by contemporary metaphysics and engages with beauty as an enduring object of human thought and experience
