Astrology is the best known and the most precise oracle system With its help one can create horoscopes describing the character of people companies and events However astrology is not simply a matter of fateful and unintentional imprinting but a recognition of how one is based on the parable of the position of the planets at the time of birth The horoscope describes a person as a play the ascendant is the stage set the planets are the actors the zodiac signs are the roles of the actors the astrological houses are the areas of life in which the actors appear the ego is the director who is responsible for the level of the play and if the director should ever get stuck he can ask the scriptwriter i.e. the soul for the meaning of this play This book contains all the information necessary for the interpretation of a horoscope but everything in a rather short form because this introduction for beginners should not get 1000 pages **Studies in Islamic Mysticism** Reynold A.
