

4 EFFECTIVE COMMUNICATION SKILLS FOR NURSES

VERBAL COMMUNICATION

Good communication skills are essential. Speak clearly and honestly while considering your audience's age, culture, and health literacy.

PRESENTATION SKILLS

Good presentation skills are important in healthcare for handing over patient care and showcasing expertise in various situations like conferences and job interviews.

MAKING PERSONAL CONNECTIONS

Getting to know the person behind the patient is crucial. Patient-centred relationships are critical in making patients feel at ease and secure.

TRUST

Healthcare professionals must inspire patient trust by listening actively and taking every complaint and concern seriously.

Essential Communication Skills For Nursing Practice

Philippa Sully, Joan Dallas

have in this textbook is a user friendly but rigorous presentation of the main competencies for professional nursing practice. Its easy style and readability is one of its most pleasing features and the case studies information boxes and key learning points give structure to the book as well as helping to engage readers. I recommend with enthusiasm this book to would be readers. It is a solid and significant contribution to the on going development of best nursing practice. It should be on the recommended reading list of any nurse who plans, delivers and evaluates patient care. Professor Hugh P McKenna CBE Pro Vice Chancellor Research and Innovation University of Ulster. To date I would consider this the must have book on achieving competence for any nursing student in all four countries of the United Kingdom. Melanie Jasper Professor of Nursing and Head of the College of Human and Health Sciences Swansea University UK

The Doctor of Nursing Practice Project: A Framework for Success Katherine J. Moran, Rosanne Burson, Dianne Conrad, 2023-02-15 The Doctor of Nursing Practice Project A Framework for Success Fourth Edition provides a road map and toolkit for students to use on their DNP scholarly project journey starting from conception through completion and dissemination. With a focus on key information for planning, implementing and evaluating a project, the text also emphasizes the impact that DNP prepared nurses and well developed DNP projects have in shaping the future of nursing and healthcare. The Fourth Edition has been thoroughly revised and updated to incorporate the new AACN Essentials and provides greater clarity on the current state of DNP project work. This practical resource features new content on sustainability, knowledge networks, sequential projects, the need for business acumen, financial analysis and implications, the need to work with stakeholders as well as the need to use data to validate the problem.

Foundations of Adult Nursing Dianne Burns, 2015-04-30 Covering the issues, themes and principles that explain what it means to be a nurse today, this book provides the theory students need to know and applies it to the diverse patient groups and settings that students will encounter on their placements. Key features of the book are: Introduces the core aspects of adult nursing; An evidence based approach with discussion of literature, policy and research and suggested further reading for every chapter; Over 30 case studies to help students understand the realities of practice across a range of settings including primary care and the community; Stop and think boxes which challenge assumptions and encourage reflection; A companion website with sample questions for lecturers to use in seminars, multiple choice questions for student revision and free SAGE journal articles. The book has been closely developed in line with the NMC Standards and Essential Skills Clusters and supports students across their entire degree programme as they develop into nurses of the future, ready to deliver and lead care.
