Letters from the Hive Stephen Buchmann, Banning Repplier, 2006-05-30 They work hard are devoted to family love sex and know the importance of a good piece of real estate Honey bees and the daily workings of their close knit colonies are one of nature's great miracles And they produce one of nature's greatest edible bounties honey More than just a palate pleaser honey was once an offering to the gods a preservative and a medicine whose sought after curative powers were detailed in ancient texts and are being rediscovered by modern medical science In Letters from the Hive Prof Stephen Buchmann takes us into the hive nursery honey factory queen's inner sanctum and out to the world of backyard gardens open fields and deserts in full bloom where the age old sexual dance between flowers and bees makes life on earth as we know it possible Hailed for their hard work harmonious society and mistakenly for their celibacy bees have a link to our species that goes beyond biology In Letters from the Hive Buchmann explores the fascinating role of bees in human culture and mythology following the honey hunters of native cultures in Malaysia the Himalayas and the

Australian Outback as they risk life and limb to locate a treasure as valuable as any gold To contemplate a world without bees is to imagine a desolate place culturally and biologically and Buchmann shows how with each acre of land sacrificed to plow parking lot or shopping mall we inch closer to what could become a chilling reality He also offers honey based recipes cooking tips and home remedies further evidence of the gifts these creatures have bestowed on us Told with wit wisdom and affection and rich with anecdote and science Letters from the Hive is nature writing at its best This is natural history to be treasured a sweet tribute that buzzes with life The Georgic Mode in Twentieth-Century American Literature Ethan

Mannon,2024-02-02 The Georgic Mode in Twentieth Century American Literature The Satisfactions of Soil and Sweat explores environmental writing that foregrounds labor Ethan Mannon argues that Virgil s Georgics as well as the georgic mode in general exerted considerable influence upon some of America s best known writers including Robert Frost Willa Cather and Wendell Berry and that these and others worked to revise the mode to better fit their own contexts This book also outlines the contemporary value of the georgic literary tradition two thousand years of writing that begins with the premise that humans must use the world in order to survive and search for a balance between human needs and nature s productive capacity In the georgic mode authors found an adaptable discourse that enabled them to advocate for the protection and responsible use of productive lands present rural places and people in all of their complexity explore human relationships with laboring animals and advertise the sensory pleasures of rooted work *Walking Seasonal Roads* Mary A.

Hood,2012-05-18 Seasonal roads are defined as one lane dirt roads not maintained during the winter They function as connectors linking farmers to their fields neighbors to neighbors or two more well traveled roads to each other Some access hunting lands and recreational areas Some pass by cemeteries allowing people to visit and honor their dead They can be abandoned as people move and towns fade In every incarnation the seasonal road touches the land in a gentler way than do other roads Having traveled nearly every seasonal road in Steuben County New York Hood finds they provide the ideal vantage to contemplate the meaning of place offering intimate contact with plant and wildlife and the beauty of a rural landscape Each road reveals how our land is used how our land is protected and how environmental factors have impacted the land As a literary naturalist Hood reflects on endangered species and invasive species as well as on issues of conservation and sustainability From state forests to potato fields from development along Keuka Lake to vineyards from old family cemeteries to logging sites *Walking Seasonal Roads* is a celebration and an honoring of the rural and the regionalism of place illustrating the ways we connect to our home and to each other Giant Bluefin Douglas Whynott,1996-06-30 This elegantly
