Pagan & Christian Creeds Edward Carpenter, 2018-09-20 Reproduction of the original Pagan Christian Creeds by Edward Carpenter *Pagan & Christian Creeds* Edward Carpenter, 1920 This collection of essays was Carpenter's attempt to make an objective comparison between the origins and practices of pagan religions and Christianity **Pagan And Christian Creeds, Their Origin And Meaning** Edward Carpenter, 2024-03-18 This book provides a systematic and logical approach to the origins of religion Many common themes are shown to exist between Christianity and earlier Pagan religions that go back in time centuries before Christianity itself Carpenter makes an effort to get to the very roots of religion in this book He's trying to uncover where our religious concepts first originated and reveals an evolutionary sequence which starts with phallic and procreative cults as having the earliest known impact Following this came a cult of magic much along the lines of Frazer's *The Golden Bough* where spirits and earth divinities were worshipped Lastly came the belief in actual God figures that came down from heaven A big part of early religion also concerns the consciousness Amazon *The Origins of Pagan and Christian Beliefs* Edward Carpenter, 1920 Pagan and Christian Creeds Edward Carpenter, 2015-11-16 The subject of Religious Origins is a fascinating one as the great multitude of books upon it published in late years tends to show Indeed the great difficulty to day in dealing with the subject lies in the very mass of the material to hand and that not only on account of the labor involved in sorting the material but because the abundance itself of facts opens up temptation to a student in this department of Anthropology as happens also in other branches of general Science to rush in too hastily with what seems a plausible theory The more facts statistics and so forth there are available in any investigation the easier it is to pick out a considerable number which will fit a given theory The other facts being neglected or ignored the views put forward enjoy for a time a great vogue Then inevitably and at a later time new or neglected facts alter the outlook and a new perspective is established There is also in these matters of Science though many scientific men would doubtless deny this a great deal of Fashion Such has been notoriously the case in Political Economy Medicine Geology and even in such definite studies as Physics and Chemistry In a comparatively recent science like that with which we are now concerned one would naturally expect variations A hundred and fifty years ago and since the time of Rousseau the Noble Savage was extremely popular and he lingers still in the story books of our children Then the reaction from this extreme view set in and of late years it has been the popular cue largely it must be said among armchair travelers and explorers to represent the religious rites and customs of primitive folk as a senseless mass of superstitions and the early man as quite devoid of decent feeling and intelligence Again when the study of religious origins first began in modern times to be seriously taken up say in the earlier part of last century there was a great boom in Sungods Every divinity in the Pantheon was an impersonation of the Sun unless indeed if feminine of the Moon Apollo was a sungod of course Hercules was a sungod Samson was a sungod Indra and Krishna and even Christ the same C F Dupuis in France *Origine de tous les Cultes* 1795 F Nork in Germany *Biblische Mythologie* 1842

Richard Taylor in England The Devil s Pulpit 1 1830 were among the first in modern times to put forward this view A little later the PHALLIC explanation of everything came into fashion The deities were all polite names for the organs and powers of procreation R P Knight Ancient Art and Mythology 1818 and Dr Thomas Inman Ancient Faiths and Ancient Names 1868 popularized this idea in England so did Nork in Germany Then again there was a period of what is sometimes called Euhemerism the theory that the gods and goddesses had actually once been men and women historical characters round whom a halo of romance and remoteness had gathered Later still a school has arisen which thinks little of sungods and pays more attention to Earth and Nature spirits to gnomes and demons and vegetation sprites and to the processes of Magic by which these so it was supposed could be enlisted in man s service if friendly or exorcised if hostile
