

For King And Country George Washington The Early Years

Washington Irving

For King And Country George Washington The Early Years:

George Washington Willard Sterne Randall, 1998-11-15 A classic biography George Washington A Life tells the human story of one of our founding fathers Randall's demythologized Washington comes vividly to life Publishers Weekly starred

The Presidency and Rhetorical Leadership Leroy G. Dorsey, 2008-03-26 Successful presidential leadership depends upon words as well as deeds In this multifaceted look at rhetorical leadership twelve leading scholars in three different disciplines provide in depth studies of how words have served or disserved American presidents At the heart of rhetorical leadership lies the classical concept of prudence practical wisdom that combines good sense with good character From their disparate treatments of a range of presidencies an underlying agreement emerges among the historians political scientists and communication scholars included in the volume To be effective they find presidents must be able to articulate the common good in a particular situation and they must be credible on the basis of their own character Who they are and what they can do are thus twin pillars of successful rhetorical leadership Leroy G Dorsey introduces these themes and David Zarefsky picks them up in looking at the historical development of rhetorical leadership within the office of the presidency Each succeeding chapter then examines the rhetorical leadership of a particular president often within the context of a specific incident or challenge that marked his term in office Chapters dealing with George Washington John Adams Thomas Jefferson Theodore Roosevelt Woodrow Wilson Franklin Roosevelt Dwight Eisenhower Ronald Reagan and Bill Clinton offer the specifics for a clearer understanding of how rhetoric serves leadership in the American presidency This book provides an indispensable addition to the literature on the presidency and in leadership studies **The First Presidential Contest**

Jeffrey L. Pasley, 2016-12-04 This is the first study in half a century to focus on the election of 1796 At first glance the first presidential contest looks unfamiliar parties were frowned upon there was no national vote and the candidates did not even participate the political mores of the day forbade it Yet for all that Jeffrey L Pasley contends the election of 1796 was absolutely seminal setting the stage for all of American politics to follow Challenging much of the conventional understanding of this election Pasley argues that Federalist and Democratic Republican were deeply meaningful categories for politicians and citizens of the 1790s even if the names could be inconsistent and the institutional presence lacking He treats the 1796 election as a rough draft of the democratic presidential campaigns that came later rather than as the personal squabble depicted by other historians It set the geographic pattern of New England competing with the South at the two extremes of American politics and it established the basic ideological dynamic of a liberal rights spreading American left arrayed against a conservative society protecting right each with its own competing model of leadership Rather than the inner thoughts and personal lives of the Founders covered in so many other volumes Pasley focuses on images of Adams and Jefferson created by supporters and detractors through the press capturing the way that ordinary citizens in 1796 would have actually experienced candidates they never heard speak Newspaper editors minor officials now forgotten congressman and individual

elector candidates all take a leading role in the story to show how politics of the day actually worked Pasley's cogent study rescues the election of 1796 from the shadow of 1800 and invites us to rethink how we view that campaign and the origins of American politics

The Loyal Son Daniel Mark Epstein, 2018-06-05 The dramatic story of a founding father his illegitimate son and the tragedy of their conflict during the American Revolution from the acclaimed author of *The Lincolns* Ben Franklin is the most lovable of America's founding fathers His wit his charm his inventiveness even his grandfatherly appearance are legendary But this image obscures the scandals that dogged him throughout his life In *The Loyal Son* award winning historian Daniel Mark Epstein throws the spotlight on one of the more enigmatic aspects of Franklin's biography his complex and confounding relationship with his illegitimate son William When he was twenty four Franklin fathered a child with a woman who was not his wife He adopted the boy raised him and educated him to be his aide Ben and William became inseparable After the famous kite in a thunderstorm experiment it was William who proved that the electrical charge in a lightning bolt travels from the ground up not from the clouds down On a diplomatic mission to London it was William who charmed London society He was invited to walk in the procession of the coronation of George III Ben was not The outbreak of the American Revolution caused a devastating split between father and son By then William was royal governor of New Jersey while Ben was one of the foremost champions of American independence In 1776 the Continental Congress imprisoned William for treason George Washington made efforts to win William's release while his father to the world's astonishment appeared to have abandoned him to his fate A fresh take on the combustible politics of the age of independence *The Loyal Son* is a gripping account of how the agony of the American Revolution devastated one of America's most distinguished families Like Nathaniel Philbrick and David McCullough Epstein is a storyteller first and foremost a historian who weaves together fascinating incidents discovered in long neglected documents to draw us into the private world of the men and women who made America The history of loyalist William Franklin and his famous father has been told before but not as fully or as well as it is by Daniel Mark Epstein in *The Loyal Son* Mr Epstein a biographer and poet has done a lot of fresh research and invests his narrative with literary grace and judicious sympathy for both father and son *The Wall Street Journal*

George Washington Peter R. Henriques, 2025-09-23 A concise compelling biography of Washington and the forces that drove him What drove George Washington to become the preeminent man of his time and to secure a lasting reputation as one of history's great leaders In this concise and engaging profile Peter Henriques a renowned Washington expert recounts how Washington possessed a desperate desire to be seen admired honored and above all to be remembered Over the course of his life Washington deliberately and self consciously shaped his public image Even his decision dictated in his last will and testament to emancipate the men and women he had held in slavery during his lifetime related directly to his desire to be perceived as honorable after his death and to safeguard his posthumous reputation The complicated and controversial question of Washington and slavery is examined in an afterword Written with a clarity that comes only from deep

understanding this biography goes right to the heart of what made Washington live and succeed as the greatest of America's founding fathers

Washington and Hamilton Tony Williams, Stephen F. Knott, 2015-09-15 The true story of the friendship between founding fathers George Washington and Alexander Hamilton From the American Revolution to the nation's first tempestuous years this history book tells the largely untold story of the men who built America from the ground up and changed US history In the wake of the American Revolution the Founding Fathers faced a daunting task overcome their competing visions to build a new nation the likes of which the world had never seen As hostile debates raged over how to protect their new hard won freedoms two men formed an improbable partnership that would launch the fledgling United States George Washington and Alexander Hamilton Washington and Hamilton chronicles the unlikely collaboration between these two conflicting characters at the heart of our national narrative Washington the indispensable general devoted to classical virtues and Hamilton an ambitious officer and lawyer eager for fame of the noblest kind Working together they laid the groundwork for the institutions that govern the United States to this day and protected each other from bitter attacks from Jefferson and Madison who considered their policies a betrayal of the republican ideals they had fought for Yet while Washington and Hamilton's different personalities often led to fruitful collaboration their conflicting ideals also tested the boundaries of their relationship and threatened the future of the new republic From the rumblings of the American Revolution through the fractious Constitutional Convention and America's turbulent first years this captivating history reveals the stunning impact of this unlikely duo that set the United States on the path to becoming a superpower Ideal for fans of nonfiction best sellers Alexander Hamilton by Ron Chernow and The First Conspiracy by Brad Meltzer Washington and Hamilton is a story of American history political intrigue and a friendship for the people

The Founders' Fortunes Willard Sterne Randall, 2025-01-14 An illuminating financial history of the Founding Fathers revealing how their personal finances shaped the Constitution and the new nation In 1776 upon the signing of the Declaration of Independence the Founding Fathers concluded America's most consequential document with a curious note pledging our lives our fortunes and our sacred honor Lives and honor did indeed hang in the balance yet just what were their fortunes How much did the Founders stand to gain or lose through independence And what lingering consequences did their respective financial stakes have on liberty justice and the fate of the fledgling United States of America In this landmark account historian Willard Sterne Randall investigates the private financial affairs of the Founders illuminating like never before how and why the Revolution came about The Founders Fortunes uncovers how these leaders waged war crafted a constitution and forged a new nation influenced in part by their own financial interests In an era where these very issues have become daily national questions the result is a remarkable and insightful new understanding of our nation's bedrock values

Washington & Napoleon Matthew J. Flynn, Stephen E. Griffin, 2012 Two political and military giants compared

For King and Country Thomas A. Lewis, 1995-02-06 A daring book a terrific story and Lewis tells it with rare narrative skill a superb writer with a

startling command of the historian's art and a powerful interest in the moral aspects that history has always claimed. He also has in the young George Washington a subject of unfailing centrality and importance. His flaws like those of any human figure worth his salt and worth our time constitute the ground of his enduring human achievements. Los Angeles Times Book Review. The story is compelling and Lewis tells it well. Library Journal. Gracefully and attractively written. Chicago Tribune. For King and Country is a portrait of an ordinary young man enmeshed in extraordinary events: the young George Washington caught up and striving to excel amid the bitter rivalry between the French and British for control of the American colonial frontier in the mid-eighteenth century. Drawing heavily on Washington's own diaries, letters, and dispatches, Thomas A. Lewis follows the future president's remarkable rise from a callow young man with no inheritance, no trade, and few prospects to the respected commander in chief of the military forces of British America's foremost colony.

Childhoods of the American Presidents

William O. Foss, 2005-11-15. From George Washington to George W. Bush, this work contains a brief synopsis of the formative years for each of the 42 men who eventually became president of the United States. Following each from childhood to young adulthood, it examines the events and influences which led them to the presidency and consequently influenced their actions while in office. Provided by publisher.

THE EARLY YEARS OF THE 20th CENTURY

Ruben Ygua, 2025-04-08. THE FAILURE OF THE BALANCE POWER THEORY. The French Revolution and the Napoleonic Wars had spread the concept of democracy throughout most of the European continent, thus spreading the idea that populations sharing an ethnic origin, a language, and the same political ideals had the right to form independent states. However, the principle of national self-determination was totally ignored by the dynastic and reactionary forces that decided the fate of European affairs at the Congress of Vienna in 1815. Many of the peoples who wanted their autonomy were subjected to local dynasties or other nations. For example, the German states integrated into the German Confederation were divided into numerous ducats, principalities, and kingdoms according to the terms of the Vienna Congress. Italy was also divided into several political units, some of which were under foreign control. The Flemish and French Belgians of the Austrian Netherlands were subordinated to Dutch rule by decision of Congress. The revolutions and strong nationalist movements of the 19th century succeeded in annulling much of the reactionary impositions agreed in Vienna. Belgium gained independence from the Netherlands in 1830, the unification of Italy was completed in 1861, and that of Germany in 1871. However, nationalist conflicts remained unresolved in other areas of Europe at the beginning of the 20th century, causing tensions within the regions involved and between various European nations. One of the most important nationalist currents, Pan-Slavism, played a fundamental role in the events that preceded the war. The nationalist spirit was also evident in the economic field. The Industrial Revolution, which began in Great Britain at the end of the 18th century, in France at the beginning of the 19th century, and in Germany from 1870 onwards, led to a large increase in manufactured goods, forcing these countries to seek new markets abroad. The area in which the European policy of economic expansion was mainly developed was Africa, where the respective colonial interests

frequently came into conflict The economic rivalry over the dominance of African territory between France Germany and Great Britain was on the verge from 1898 to 1914 of provoking a war in Europe on several occasions As a result of international tensions European nations took both domestic and foreign policy measures between 1871 and 1914 that in turn increased the danger of conflict maintained numerous permanent armies which they constantly expanded through peacetime recruitments and built larger ships Great Britain influenced by the development of the German Navy which began in 1900 and by the course of the Russo Japanese War modernized its fleet under the direction of Admiral Sir John Fisher The war between Russia and Japan had demonstrated the effectiveness of long range naval armament Advances in other areas of military technology and organization stimulated the formation of staffs capable of drawing up very precise mobilization and attack plans often integrated into programs that could not be cancelled once initiated Leaders in all countries became aware that rising expenditures on armaments would eventually lead to national bankruptcies or war for this reason attempts were made to promote global disarmament on several occasions notably at the Hague Conferences of 1899 and 1907 However international rivalry had reached such a point that no effective agreement could be reached to decide on international disarmament *Science-fiction, the Early Years* Everett Franklin Bleiler,1990 In this volume the author describes more than 3000 short stories novels and plays with science fiction elements from earliest times to 1930 He includes imaginary voyages utopias Victorian boys books dime novels pulp magazine stories British scientific romances and mainstream work with science fiction elements Many of these publications are extremely rare surviving in only a handful of copies and most of them have never been described before **Life of George Washington** Washington Irving,1879 Louisiana History ,2000

A Revolutionary Friendship Francis D. Cogliano,2024-02-20 Francis Cogliano revisits the relationship between Washington and Jefferson arguing that their vaunted differences mask mutual investments in the Revolution itself Their later divergence demonstrates how wartime unity gave way to competing visions for the new nation making clear that there was no single founding ideal only compromise **Teaching History for the Common Good** Keith C. Barton,Linda S. Levstik,2004-07-13 In Teaching History for the Common Good Barton and Levstik present a clear overview of competing ideas among educators historians politicians and the public about the nature and purpose of teaching history and they evaluate these debates in light of current research on students historical thinking In many cases disagreements about what should be taught to the nation s children and how it should be presented reflect fundamental differences that will not easily be resolved A central premise of this book though is that systematic theory and research can play an important role in such debates by providing evidence of how students think how their ideas interact with the information they encounter both in school and out and how these ideas differ across contexts Such evidence is needed as an alternative to the untested assumptions that plague so many discussions of history education The authors review research on students historical thinking and set it in the theoretical context of mediated action an approach that calls attention to the concrete actions that

people undertake the human agents responsible for such actions the cultural tools that aid and constrain them their purposes and their social contexts They explain how this theory allows educators to address the breadth of practices settings purposes and tools that influence students developing understanding of the past as well as how it provides an alternative to the academic discipline of history as a way of making decisions about teaching and learning the subject in schools Beyond simply describing the factors that influence students thinking Barton and Levstik evaluate their implications for historical understanding and civic engagement They base these evaluations not on the disciplinary study of history but on the purpose of social education preparing students for participation in a pluralist democracy Their ultimate concern is how history can help citizens engage in collaboration toward the common good In *Teaching History for the Common Good* Barton and Levstik discuss the contribution of theory and research explain the theory of mediated action and how it guides their analysis and describe research on children s and adults knowledge of and interest in history lay out a vision of pluralist participatory democracy and its relationship to the humanistic study of history as a basis for evaluating the perspectives on the past that influence students learning explore four principal stances toward history identification analysis moral response and exhibition review research on the extent to which children and adolescents understand and accept each of these and examine how the stances might contribute to or detract from participation in a pluralist democracy address six of the principal tools of history narrative structure stories of individual achievement and motivation national narratives inquiry empathy as perspective taking and empathy as caring and review research and conventional wisdom on teachers knowledge and practice and argue that for teachers to embrace investigative multi perspectival approaches to history they need more than knowledge of content and pedagogy they need a guiding purpose that can be fulfilled only by these approaches and preparation for participatory democracy provides such purpose *Teaching History for the Common Good* is essential reading for history and social studies professionals researchers teacher educators and students as well as for policymakers parents and members of the general public who are interested in history education or in students thinking and learning about the subject

Youth's Companion ,1919 *The Historical Magazine and Notes and Queries Concerning the Antiquities, History and Biography of America* John Ward Dean,George Folsom,John Gilmary Shea,Henry Reed Stiles,Henry Barton Dawson,1860 *Annual Report* United States.
