For Love Of The Automobile Looking Back Into The History Of Our Desires:

For Love of the Automobile Wolfgang Sachs, 2023-12-22 In his cultural analysis of the motor car in Germany Wolfgang Sachs starts from the assumption that the automobile is more than a means of transportation and that its history cannot be understood merely as a triumphant march of technological innovation Instead Sachs examines the history of the automobile from the late 1880s until today for evidence on the nature of dreams and desires embedded in modern culture Written in a lively style and illustrated by a wealth of cartoons advertisements newspaper stories and propaganda this book explores the nature of Germany's love affair with the automobile A history of our desires for speed wealth violence glamour progress and power as refracted through images of the automobile it is at once fascinating and provocative Sachs recounts the development of the automobile industry and the impact on German society of the marketing and promotion of the motor car As cars became more affordable and more common after World War II advertisers fanned the competition for status refining their techniques as ownership became ever more widespread Sachs concludes by demonstrating that the triumphal procession of private motorization has in fact become an intrusion The grand dreams once attached to the automobile have aged Sachs appeals for the cultivation of new dreams born of the futility of the old ones dreams of a society liberated from progress in which location distance and speed are reconceived in more appropriately humane dimensions In his cultural analysis of the motor car in Germany Wolfgang Sachs starts from the assumption that the automobile is more than a means of transportation and that its history cannot be understood merely as a triumphant march of technological innovation *The experience of suburban modernity* Michael John Law, 2014-12-01 The experience of suburban modernity looks at the history of the London suburbs in the interwar years It shows that contrary to those accounts that portray suburbia as static and boring these suburbs were in fact at the heart of the adoption of private transport and new mobilities Wealthier middle class suburbanites enjoyed driving at speed on new arterial roads visiting roadhouses for a transgressive night out taking five shilling flights from the local airport and joining cycling and motorcycle clubs All this fun came at a price for some in the form of thousands of deaths in road accidents plane crashes on suburban housing and in the despoiling of the countryside through road development This book will be welcomed by academics and students working in suburban studies historical geography and interwar British history and can also be enjoyed by anyone interested in the history of London

Community-Owned Transport Leigh Glover, 2016-11-03 City and state governments around the world are struggling to achieve environmentally sustainable transport Economic technological city and transport planning and human behaviour solutions are often hampered by ineffective implementation So attention is now turning to institutional governmental and political barriers Approaches to these implementation problems assume that transport ownership can only be public owned by state entities or private corporate or personal Another option largely unexplored to date is communal ownership of transport Community Owned Transport proposes and develops the notion that communal ownership has a historical basis

and provides unique opportunities for providing personal mobility It looks at the historical roots of modern urban transport s failings as those of technological change and the associated governing of transport systems particularly the role of public sector institutions Community ownership is explored through the new sharing economy developments car sharing ridesharing and bicycle share schemes and older social innovations in ecovillages and communal living Models and practices of community ownership of transport are provided and this study also discusses how community ownership might contribute to sustainable transport Drawing widely on different disciplines and fields of scholarship this book explores the conceptual and practical aspects of communal ownership of transport It will be a valuable resource for those seeking innovative approaches to addressing the pressing problems of transport including graduate and postgraduate students as well as policymakers practitioners and community groups

International Handbook on Transport and Development R.

Hickman,D. Bonilla,M. Givoni,D. Banister,2015-08-28 In the last forty years or so the research field exploring the relationship and interaction between transport and development has developed rapidly While sophistication in analysis has increased understanding the effective integration of transport and development often remains poor in theory and in practice with sometimes devastating effects This Handbookprovides a comprehensive analysis of both the current and emerging thinking in this field drawing on multidisciplinary thinking in transport planning transport urban and spatial economics and the wider social sciences With 45 chapters from leading international authors the book is organised around three main themes urban structure and travel transport and spatial impacts wider dimensions in transport and development The chapters each present commentary on key issues within these themes presenting the debate on the impacts of urban structure on travel the impacts of transport investment on development and social and cultural change on travel A multitude of competing inter disciplinary perspectives are considered leaving the reader with an invaluable comprehensive and critical understanding of the field This major Handbookwill serve as a guide for undergraduates and graduate students researchers consultants and also practitioners and policy makers wishing to find a comprehensive and original reference to research on transport and development Contributors J A Annema F Avelino D Banister D Bonilla F Bruinsma C C Cantarelli X Jason Cao C L Chen G Cohen Blankshtain C Curtis G Dane J Dodson A Donald R Dowling M Echenique A El Geneidy R Ewing E Feitelson B Flyvbjerg N Garrick H Geerlings K Geurs M Givoni A R Goetz P Gordon A Grigolon D Halden P Hall I Hamiduddin S Handy P Headicar D A Hensher D Hidalgo R Hickman R Hjorthol M Hillman E Holden T Holvad H Holzapfel M Iacono O B Jensen P Jones J Kenworthy S Kenyon C A Kl ckner K J Krizek B Lee S Leleur D Levinson T Li Z Li K Linnerud S Marshall W Marshall E Matthies L Meija Dorantes R Meyfahrt P Mokhtarian J C Mu oz P Naess P Newman S Nordbakke S Petheram S Rasouli P Rietveld O Rotem Mindali T Schwanen N Sipe D Stead P Stoker G Stokes H Timmermans B Van Wee R Wilson D Yang

Drivetime Pearce Lynne Pearce,2016-07-07 Engages literary texts in order to theorise the distinctive cognitive and affective experiences of drivingWhat sorts of things do we think about when we re driving or being driven in a car *Drivetime*

seeks to answer this question by drawing upon a rich archive of British and American texts from the motoring century 1900 2000 paying particular attention to the way in which the practice of driving shapes and structures our thinking While recent sociological and psychological research has helped explain how drivers are able to think about other things while performing such a complex task little attention has as yet been paid to the form these cognitive and affective journeys take Pearce uses her close readings of literary texts ranging from early twentieth century motoring periodicals Modernist and inter war fiction American road trip classics and autobiography in order to model different types of driving event and by extension the car s use as a means of phenomenological encounter escape from memory meditation problem solving and daydreaming Key FeaturesBrings Humanities based perspectives to bear upon topical debates in automobilities research Introduces a new concept for understanding our journeys made my car by focusing on the driver s automotive consciousness rather than utility function Makes use of auto ethnography to explore and theorise automotive consciousnessDraws upon a rich archive of literary texts from across the twentieth century including original research into unknown writers featured in the early twentieth century texts motoring periodicals

Discourse Analysis in Transport and Urban Development Robin Hickman,Christine Hannigan,2023-01-20 Drawing on discourse analysis as an emerging field in transport and urban development this innovative book takes a novel approach to examining the different interpretations diversity of views and controversy in society

Mobility, Migration and Transport Colin G. Pooley,2017-05-19 This book provides an innovative perspective on migration mobility and transport Using concepts drawn from migration history mobilities studies and transport history it makes the case for greater integration of these disciplines The approach is historical demonstrating how past processes of travel and population movement have evolved examining the continuities and changes that have occurred and arguing that many of the concepts used in mobilities studies today are equally relevant to the past The three central chapters view past population movements through respectively the lenses of migration history mobilities studies and transport Two further chapters demonstrate the diversity of mobility experiences and the opportunities and difficulties of applying this approach in teaching and research Extensive case study material from around the world is used including personal diaries which vividly recreate the everyday experiences of past mobilities Population movement has never been of more importance globally this book demonstrates how knowledge of past mobility experiences can inform our understanding of the present

MediaSpace Nick Couldry,Anna McCarthy,2004-11-23 Media Space explores the importance of ideas of space and place to understanding the ways in which we experience the media in our everyday lives Essays from leading international scholars address the kinds of space created by media and the effects that spacial arrangements have on media forms Case studies focus on a wide variety of subjects and locales from in flight entertainment to mobile media such as personal stereos and mobile phones and from the electronic spaces of the Internet to the shopping mall

People and Places of Nature and Culture Rod Giblett,2014-05-27 Using the rich and vital Australian Aboriginal understanding of

country as a model People and Places of Nature and Culture affirms the importance of a sustainable relationship between nature and culture While current thought includes the mistaken notion perpetuated by natural history ecology and political economy that humans have a mastery over the Earth this book demonstrates the problems inherent in this view In the current age of climate change this is an important appraisal of the relationship between nature and culture and a projection of what needs to change if we want to achieve environmental stability

Driving Terror Karen Robert,2025-03-04 *Driving Terror* tells the story of twenty four Ford autoworkers in Argentina who were tortured and disappeared for their union activism in 1976 miraculously survived and pursued a decades long quest for truth and justice In December 2018 more than four decades after their ordeal the men won a historic human rights case against a military commander and two retired Ford Argentina executives who were convicted of crimes against humanity The book uses this David and Goliath story to explore issues of labor repression and corporate complicity with Argentina s last military dictatorship as well as to shed light on the enormous obstacles facing victims of such crimes Its emphasis on working class activism in the arenas of labor and human rights introduces North American readers to a new narrative of contemporary Argentine history The Ford survivors story intertwines with the symbolic evolution of the car the men helped build at Ford the Falcon sedan The political polarization and violence of the Cold War era transformed the Falcon from a popular family car to a tool of state terror after the coup of 1976 when it became associated with the widespread practice of disappearance Its meaning continued to evolve after the return to democracy when artists and activists used it as a symbol of military impunity during Argentina s long term struggles over justice and memory

The Changing Consumer Alison Anderson,Kevin Meethan,R Steven Miles,Steven Miles,2005-07-08 In a world undergoing rapid change this essential collection discusses why consumption has become so important and what role if any it plays in underpinning social economic and political transformation

Automobilities Mike Featherstone,Nigel Thrift,John Urry,2005-05-19 Mobility flows movement and migration in social life has emerged as a central area of sociological debate yet one of its most dominant forms automobility has remained largely ignored Edited by three leading social analysts *Automobilities* presents one of the first and most wide ranging examinations of the car and its promise of autonomy and mobility Drawing on rich empirical detail from ethnographies of office work on the motorway to the important of the car in French cultural theory the contributions demonstrate just how significant have been the economic technological social and political consequences of a pervasive and accelerating culture of the car A broad array of theories are put to work to illuminate this vast and yet neglected topic strategy and tactics complexity theory performativity actor network theory film theory material culture theories of non places embodiment sensuous geography sociology ethnomethodology and non representational theory This book will firmly establish automobilities as a key topic for theory and research *Automobilities* represents a landmark text that will contribute to and provide a significant impetus for the emerging analysis of mobilities in contemporary societies

Atlantic Automobility Gijs Mom,2014-12-01 Our continued use of the

combustion engine car in the 21st century despite many rational arguments against it makes it more and more difficult to imagine that transport has a sustainable future Offering a sweeping transatlantic perspective this book explains the current obsession with automobiles by delving deep into the motives of early car users It provides a synthesis of our knowledge about the emergence and persistence of the car using a broad range of material including novels poems films and songs to unearth the desires that shaped our present car society Combining social psychological and structural explanations the author concludes that the ability of cars to convey transcendental experience especially for men explains our attachment to the vehicle

The World Beyond the Windshield Christof Mauch, Thomas Zeller, 2008 For better or worse the view through a car's windshield has redefined how we see the world around us In some cases such as the American parkway the view from the road was the be all and end all of the highway in others such as the Italian autostrada the view of a fast efficient transportation machine celebrating either Fascism or its absence was the goal These varied environments are neither necessary nor accidental but the outcomes of historical negotiations and whether we abhor them or take delight in them they have become part of the fabric of human existence The World beyond the Windshield Roads and Landscapes in the United States and Europe is the first systematic comparative look at these landscapes By looking at examples from the United States and Europe the chapters in this volume explore the relationship between the road and the landscape that it traverses cuts through defines despoils and enhances The authors analyze the Washington Beltway and the Blue Ridge Parkway as well as iconic roads in Italy Nazi Germany East Germany and Great Britain This is a story of the transatlantic exchange of ideas about environment and technology and of the national and nationalistic appropriations of such landscaping

Modernizing Tradition Adam C. Stanley, 2008-12-15 In the turbulent decades after World War I both France and Germany sought to return to an idealized prewar past Many people believed they could recapture a sense of order and stability by reinstituting traditional gender roles which the war had thrown off balance While French and German women necessarily filled men's roles in factories and other jobs during the war those who continued to lead active working lives after World War I risked being called modern women Far from a compliment this derogatory label encompassed everything society found threatening about women's new place in public life smoking working women who preferred independence and sexual freedom to a traditional role in the home Society felt threatened by the image of the modern woman yet also realized that conceptions of femininity needed to accommodate the cultural changes brought about by the Great War In *Modernizing Tradition* Adam C Stanley explores how interwar French and German popular culture used commercial images to redefine femininity in a way that granted women some access to modern life without encouraging the assertion of female independence Examining advertisements articles and cartoons as well as department store publicity materials from the popular press of each nation Stanley reveals how the media attempted to convince women that with the help of newly available consumer goods such as washing machines refrigerators and vacuum cleaners being a mother or a housewife could be empowering even liberating A

life devoted to the home these images promised need not be an unmitigated return to old fashioned tradition but could offer a rewarding lifestyle based on the wonders and benefits of modern technology Stanley shows that the media carefully limited women's association with modernity to those activities that reinforced women's traditional roles or highlighted their continued dependence on masculine guidance expertise and authority In this cross national study Stanley brings into sharp relief issues of gender and consumerism and reveals that despite the larger political differences between France and Germany gender ideals in the two countries remained virtually identical between the world wars That these concepts of gender stayed static over the course of two decades years when nearly every other aspect of society and culture seemed to be in constant flux attests to their extraordinary power as a force in French and German society Transporting Atlanta

Miriam Konrad,2010-07-02 America's worsening nightmare of gridlock is given full attention in this illuminating study of the transportation crisis in Atlanta Inconveniences and hardships created by too many automobiles and too few alternatives for movement have reached untenable levels Miriam Konrad investigates three major transportation projects involving public transit and use of space issues in the Atlanta area the Metropolitan Atlanta Rapid Transit Authority MARTA the bus and rail system that has been the backbone of metropolitan Atlanta's public transportation system for the past thirty years the Georgia Regional Transportation Authority GRTA a superagency created in 1999 to address air quality issues in the region and the Belt Line a popular proposal to build a twenty two mile loop of greenspace transit and other amenities around an inner loop of the city on existing rail beds She reveals how gridlock over regional transportation policy and procedures has emerged out of the competition between growth promoters environmentalists and social justice actors **The**

Consuming mobility Jorrit O. Nijhuis,2023-09-04 The current fossil fuel based system of mobility is associated with a wide range of environmental and social problems There is a growing body of literature on system innovations and transitions which has as a common understanding that long term transformative change is necessary to deal with these complex problems However knowledge on the crucial role of citizen consumers in sustainable mobility transitions is still underdeveloped By incorporating the viewpoint of consumption patterns and everyday life routines this book provides new knowledge on the role of citizen consumers in sustainable mobility transitions Theoretically a practice based approach is developed as a novel framework to analyse understand and influence transition processes to sustainable mobility at the level of everyday life The focus in each of the three cases studies is on situated interactions between consumers and producers Amongst these is an analysis of the role environmental information and subsidies in new car purchasing Also various examples in which an attempt was made to orchestrate a modal shift in commuting practices are examined Each of the empirical case studies shows the important role of contextual factors in understanding and influencing mobility behaviour of citizen consumers In addition this book helps to understand how and why innovation in mobility practices takes place or not

Reproduction by Design Angus McLaren,2012-02-01 Modernity in interwar Europe frequently took the form of a preoccupation with mechanizing the natural fears and fantasies revolved around the notion that the boundaries between people and machines were collapsing Reproduction in particular became a battleground for those debating the merits of the modern world That debate continues today and to understand the history of our anxieties about modernity we can have no better guide than Angus McLaren In *Reproduction by Design* McLaren draws on novels plays science fiction and films of the 1920s and 30s as well as the work of biologists psychiatrists and sexologists to reveal surprisingly early debates on many of the same questions that shape the conversation today homosexuality recreational sex contraception abortion euthanasia sex change operations and in vitro fertilization Here McLaren brings together the experience and perception of modernity with sexuality technology and ecological concerns into a cogent discussion of science s place in reproduction in British and American cultural history
