Frisch, The Architecture of Medieval Churches John A.H. Lewis, 2017-11-20 The Architecture of Medieval Churches investigates the impact of affective theology on architecture and artefacts focusing on the Middle Ages as a period of high achievement of this synthesis It explores aspects of medieval church and cathedral architecture in relation to the contemporary metaphysics and theology which articulated an integrated theocentric culture architecture and art Three modes of attention comprehension instruction and contemplation informed the builders intuition and intention The book s central premise reasons that love for God was the critical force in the creation of vernacular church architecture using a selection of medieval writings to provide a unique critique of the genius of architecture and art during this period An interdisciplinary study between architecture theology and philosophy it will appeal to academics and researchers in these fields

Medieval Architecture Nicola Coldstream, 2002 Medieval architecture comprises much more than the traditional image of Gothic cathedrals and the castles of chivalry A great variety of buildings synagogues halls and barns testify to the diverse communities and interests in western Europe in the centuries between 1150 and 1550 This book looks at their architecture from an entirely fresh perspective shifting the emphasis away from such areas as France towards the creativity of other regions including central Europe and Spain Treating the subject thematically Coldstream seeks out what all buildings both religious and secular have in common and how they reflect the material and spiritual concerns of the people who built and used them Furthermore the author considers how and why after four centuries of shaping the landscapes and urban patterns of Europe medieval styles were superseded by classicism

Nothingness: Tadao Ando's Christian Sacred Space Jin Baek, 2009-06-12 Based around an interview with Tadao Ando this book explores the influence of the Buddhist concept of nothingness on Ando s Christian architecture and sheds new light on the cultural significance of the buildings of one of the world s leading contemporary architects Specifically this book situates Ando s churches particularly his world renowned Church of the Light 1989 within the legacy of nothingness expounded by Kitaro Nishida 1870 1945 the father of the Kyoto Philosophical School Linking Ando s Christian architecture with a philosophy originating in Mahayana Buddhism illuminates the relationship between the two religious systems as well as tying Ando s architecture to the influence of Nishida on post war Japanese art and culture

The History of Western Architecture Natasha Dhillon, 2015-07-15 Architecture is far more than the construction of buildings Architects marry form and function to create structures that are particularly suited to a purpose while adding visual drama to landscapes and skylines For millennia

architects have fashioned homes religious shrines governmental spaces public facilities and more The evolution of architecture in many ways reflects the history of how we live think worship govern and form societies The progression of Western architectural thought and trends is chronicled in this comprehensive tome Profiles of some of the most remarkable structures in the West are also included exemplifying essential methods and practices

**Professionalism for the Built Environment** Simon Foxell,2018-09-03 In the aftermath of the Grenfell Tower tragedy this new book provides thought provoking commentary on the nature of the relationship between society the prevailing economic system and professionalism in the built environment It addresses the changing responsibilities of professionals and in particular their obligation to act in the wider public interest It is both an introduction to and an examination of professionalism and professional bodies in the sector including a view of the future of professionalism and the organisations serving it Simon Foxell outlines the history of professionalism in the sector comparing and contrasting the development of the three major historic professions working in the construction industry civil engineering architecture and surveying He examines how their systems have developed over time up to the current period dominated by large professional services firms and looks at some options for the future whilst asking difficult questions about ethics training education public trust and expectation from within and outside the industry The book concludes with a six point plan to help if not ensure that the professions remain an effective and essential part of both society and the economy a part that allows the system to operate smoothly and easily but also fairly and to the benefit of all Essential reading for built environment professionals and students doing the professional studies elements of their training or in the process of applying for chartership or registration The issues and lessons are applicable across all building professions     *The Murthly Hours* John Higgitt,British

Library,2000-01-01 Accompanying CD ROM contains digital facsimile of the Murthly Hours with commentary     *The Crisis of Church and State, 1050-1300* Brian Tierney,Medieval Academy of America,1988-01-01 From the Introduction We need not be surprised then that in the Middle Ages also there were rulers who aspired to supreme political and temporal power The truly exceptional thing is that in medieval times there were always at least two claimants to the role each commanding a formidable apparatus of government and that for century after century neither was able to dominate the other completely so that the duality persisted was eventually rationalized in works of political theory and ultimately built into the structure of European society This situation profoundly influenced the development of Western constitutionalism     *The Architect : Chapters in the History of the Profession* Berkeley Spiro Kostof Professor of Architectural History University of California,1977-01-06 How did architects get to be architects in any given period in history How were they trained How did they find their clients and communicate with them What did society think of them Spiro Kostof s *The Architect* a collection of essays by historians and architects explores these and other intriguing questions about the profession of architecture The first book in more than fifty years to survey the profession from its beginnings in ancient Egypt to the modern day it is the

most complete synthesis to date of our knowledge of how the architect's profession developed. Included are a major study of the Beaux Arts, a vivid memoir by the distinguished architect Joseph Esherick, and an excellent chapter on women which demonstrates how the ethic of professionalism has contributed to the exploitation of women in this as in many other professions. The Architect places the current dilemma about the architect's role in society in historical perspective and offers a good overview of the development of one of the world's oldest professions. *The Middle Ages Unlocked* Gillian Polack, Katrin Kania, 2015-06-15. A unique guide to all aspects of life in the Middle Ages.
