A New History of Ireland, Volume II Theodore William Moody, Art Cosgrove, Francis X. Martin, Francis John Byrne, 2008-11-06 A wide range of national and international scholars in every field of study have produced studies of the archaeology art culture geography geology history language law literature music and related topics to produce a comprehensive and authoritative account of Irish history

The Arma Christi in Medieval and Early Modern Material Culture Lisa H. Cooper, Andrea Denny-Brown, 2016-12-05 The Arma Christi the cluster of objects associated with Christ's Passion was one of the most familiar iconographic devices of European medieval and early modern culture From the weapons used to torment and sacrifice the body of Christ sprang a reliquary tradition that produced active and contemplative devotional practices complex literary narratives intense lyric poems striking visual images and innovative architectural ornament This collection displays the fascinating range of intellectual possibilities generated by representations of these medieval objects and through the interdisciplinary collaboration of its contributors produces a fresh view of the multiple intersections of the spiritual and the material in the Middle Ages and Renaissance It also includes a new and authoritative critical edition of the Middle English Arma Christi poem known as O Vernicle that takes account of all twenty surviving manuscripts The book opens with a substantial introduction that surveys previous scholarship and situates the Arma in their historical and aesthetic contexts The ten essays that follow explore representative examples of the instruments of the Passion across a broad swath of history from some of their earliest formulations in late antiquity to their reformulations in early modern Europe Together they offer the first large scale attempt to understand the arma Christi as a unique cultural phenomenon of its own one that resonated across centuries in multiple languages genres and media The collection directs particular attention to this array of implements as an example of the potency afforded material objects in medieval and early modern culture from the glittering nails of the Old English poem *Elene* to the coins of the Middle English poem *Sir Penny* from garments and dice on Irish tomb sculptures to lanterns and ladders in Hieronymus Bosch's panel painting of St Christopher and from the altar of the Sistine Chapel to the printed prayer books of the Reformation

[Irish and Scottish Art, c. 900-1900](#) Heather Pulliam, Rachel Moss, 2024-11-30 As evidenced by the famed Book of Kells and monumental high crosses Scotland and Ireland have long shared a distinctive artistic tradition The story of how this tradition developed and flourished for another millennium through survival adaptation and revival is less well known Some works were preserved and repaired as relics objects of devotion believed to hold magical powers Respect for the past saw the creation of new artefacts through the assemblage of older parts or the creation of fakes and facsimiles Meanings and values attached to these objects and to places with strong early Christian associations changed over time but their Celtic and or Gaelic character has remained to the forefront of Scottish and Irish national expression Exploring themes of authenticity imitation heritage conservation and nationalism these interdisciplinary essays draw attention to a variety of understudied artworks and

illustrate the enduring link that exists between Scottish and Irish cultures *Cardiff* John R. Kenyon, Diane M. Williams, 2006

This book acts as a stimulus to further debate and discussion about the archaeology and architecture of the medieval diocese of Llandaff It presents work at Cardiff and Skenfrith castles and focuses on buildings at Caldicot and Raglan *Romanesque Ireland* Tadhg O'Keeffe, 2003 The Romanesque style was a pan European tradition of art and architecture that emerged on the Continent during the 11th century It reached Ireland as the movement to reform the Irish Church gathered pace at the start of the 12th century Executed under secular patronage but for the benefit of ecclesiastics and their churches it became a metaphor for that reform The fashion for Romanesque faltered in eastern Ireland with the arrival of the Anglo Normans in 1169 but it survived into the 13th century west of the Shannon This book is the first substantial analysis of Romanesque Ireland to appear in thirty years Concentrating on architecture and sculpture it examines how Irish artists and builders of the 12th century reconfigured the language of the international Romanesque according to their own aesthetic tastes and it considers the meanings of their art to contemporary spectators In a departure from earlier literature this book also explores the concept of style itself and its value in reconstructing social identity in the past **Routledge Revivals: Medieval Ireland (2005)** Sean Duffy, 2017-07-05 First published in 2005 Medieval Ireland An Encyclopedia brings together in one authoritative resource the multiple facets of life in Ireland before and after the Anglo Norman invasion of 1169 from the sixth to sixteenth century *Gothic Art in Ireland, 1169-1550* Colum Hourihane, 2003 It will come as a surprise to many that a wealth of Gothic art and architecture can still be found in Ireland This text examines the most westerly expression of Gothic on the edge of Europe and traces its development from the beginning of the 13th century to the Reformation Colum Hourihane offers insights into Gothic Irish art and he presents a revised view of art in Ireland in the Middle Ages **The Builder** , 1879 The Century Cyclopedia of Names Benjamin Eli Smith, 1905 **The Century Cyclopedia of Names** , 1899 **The Century Dictionary and Cyclopedia: The Century cyclopedia of names ... ed. by Benjamin E.
