## **Gorbachev The Path To Power:**

**Gorbachev** Christian Schmidt-Häuer, 1986      *Gorbachev: the Path to Power* Schmidt Hauer C, 1986      **An Algebra of Soviet Power** Michael E. Urban, 1989-11-23 Control of office has long been regarded as the key element in understanding power and policy in the Soviet system What however accounts for the control of office and how are individuals recruited into positions of power and responsibility In *An Algebra of Soviet Power* Michael Urban adopts a fresh approach and introduces into the field of political elite studies the sociological technique of vacancy chain analysis      **The Destruction of the Soviet Union** D. Lockwood, 2015-12-22 Is there a link between the collapse of the Soviet Union the radical reforms in China and Vietnam and the current crisis in East Asia David Lockwood argues that the common factor in each is the crisis of state controlled economies besieged by the developing forces of globalization This book examines the collapse of the Soviet Union not as the end of history or the beginning of a new world order but as an illustration of processes that are taking place the world over The author concludes that it was globalization that brought down the communist system Globalization continues to threaten state controlled economies from the remaining socialist state to the NICs of East Asia      *Democratization and Revolution in the USSR, 1985-91* Jerry F. Hough, 1997-05-01 Democratization and Revolution in the USSR 1985 91 presents a strikingly new view of the Gorbachev era and the reasons for the collapse of the Soviet Union Written by one of America s most distinguished specialists on the former Soviet Union this is the first comprehensive overview of the Gorbachev period and describes it as a real revolution not mere reform According to Hough despite Mikhail Gorbachev s talk of a regulated market he never understood that a market must be created on a solid institutional and legal base He was determined to use democratization to free himself from party control but he saw democracy as a way of achieving near universal consensus not a mechanism for forcing through difficult choices The many memoirs that have become available in the last few years including those of Gorbachev himself show that Premier Nikolai Ryzhkov and the bureaucrats in his government actually were the serious economic reformers in the leadership Gorbachev opposed the key transitional steps at every stage and was far closer to the assumptions of shock therapy than he or his opponents ever recognized Hough explains that Gorbachev was not alone in thinking that the destruction of old institutions was enough to unleash a market Westerners also talked of leaping a chasm in a single jump as if democratic and market institutions existed pre created on the other side But precisely because Gorbachev and later Boris Yeltsin was encouraged in all his worst mistakes by Western advice his failure has crucial implications for Western thinking about the process of democratization and marketization This unprecedented book explores those implications in depth Selected by Choice as an Outstanding Book for 1998      **Retreat from the Finland Station** Kenneth Murphy, 1992 In examining the lives of leading revolutionaries Nicolai Bukharin Milovan Djilas Imre Nagy and Alexander Dubcek and writers Andre Gide Arthur Koestler Ignazio Silone and even the young Alexander Solzhenitsyn who became prisoners rather than masters of the bloodshed their adherence to socialism seemed to unleash Murphy reveals to us

the terrible moral consequences they suffered as their faith in socialism crumbled He compellingly shows how their idealistic vision spawned a world of want anger terror and death For blind obedience to the socialist cause allowed the new state to perpetuate indeed to incarnate the violence out of which it was born In so doing the idea of revolutionary liberty was devoured Freedom surrendered to Stalinist terror political innocence to Communist corruption eloquence to the silence of the gulag

**Soviet Politics** Richard Sakwa,2012-11-12 Soviet Politics in Perspective is a new edition of Richard Sakwa's successful textbook Soviet Politics an introduction Thoroughly revised and updated it builds on the previous editions comprehensive and accessible exploration of the Soviet system from its rise in 1919 to its collapse in 1991 The book is divided into five parts which focus on key aspects of Soviet politics They are historical perspectives beginning with the Tsarist regime on the eve of Revolution the rise and development of Stalinism through to the decline of the regime under Brezhnev and his successors and Gorbachev's attempts to revive the system institutions of Government such as the Communist Party security apparatus the military the justice system local government and participation theoretical approaches to Soviet politics including class and gender politics the role of ideology and the shift from dissent to pluralism key policy areas the command economy and reform nationality politics and foreign and defence policy an evaluation of Soviet rule and reasons for its collapse Providing key texts and bibliographies this book offers the complete history and politics of the Soviet period in a single volume It will be indispensable to students of Soviet and post Soviet politics as well as the interested general reader

**The 20th Century Go-N** Frank N. Magill,2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

**Seven Years that Changed the World** Archie Brown,2007-04-19 A rigorously argued and lively interpretation of the transformation of the Soviet system written by a leading authority on Soviet politics This thoroughly researched book draws on new archival sources and puts perestroika in fresh perspective

**Inside Gorbachev's Kremlin** Yegor Ligachev,Stephen Cohen,2018-02-23 This memoir by the second most powerful Communist Party leader during the early Gorbachev years provides an important alternative view of the USSR's transformation a view that is gaining ground in Russian politics today In a substantial new piece for this edition Mr Ligachev outlines the political agenda of today's communist coalition the establishment of a new Soviet Union with strong economic and political integration of its member states Yegor Ligachev a seasoned Party boss from Siberia made a solid career for himself in the capital during the Khrushchev era but following Khrushchev's ouster chose to retreat to the provinces In 1985 his political patrons brought him back to Moscow to help them

build a dynamic new leadership team under Mikhail Gorbachev. The two reform-minded communists launched an effort to inject life and energy into the Party economy and society through a series of liberalizing measures. But when Ligachev saw the reforms moving into a revolutionary phase that could result in the Party's loss of control over the helm of state, he found himself increasingly siding with the opposition. In this gripping book, Ligachev describes the evolving confrontation between opposing forces at high-level Party meetings and sessions of the Politburo as well as in less formal conversations. Along the way, he gives revealing glimpses not only of Gorbachev but also of Yuri Andropov, Andrei Gromyko, Alexander Yakovlev, Eduard Shevardnadze, Boris Yeltsin, and other top leaders. Notorious events such as the 1989 massacre in Tbilisi and the Gdlyan Ivanov affair, in which Ligachev argues he was unjustly implicated, are also highlighted.

**Gorbachev's Gamble** Baruch A. Hazan, 2019-04-12. This book is an outcome of the Nineteenth All-Union Party conference convened on Gorbachev's initiative. The conference recommends that taking account of the new realities, legislation pertaining to union and autonomous republics and autonomous oblasts and okrugs should be developed and renewed.

*Executive Power and Soviet Politics* Eugene Huskey, 2016-06-16. Ever since the behavioral revolution reached Communist studies more than 2 decades ago, Western scholarship has tended to ignore the powerful and unwieldy institutional structure of the Soviet government. Today suddenly it is clear that the dramatic political and legislative reforms of the Gorbachev years will remain incomplete as long as the issues of state bureaucratic power and executive prerogative are unresolved. This volume brings together original studies of the Soviet executive under Gorbachev by specialists including Barbara Chotiner, Stephen Fortescue, Brnda Horrigan, Ellen Jones, Wayne Limberg, T. H. Rigby, and Louise Shelley. Among the topics covered are the major economic, national security, and law enforcement ministries; the presidency; the cabinet; and questions of presidential ministerial, presidential legislative, executive, and party-state relations.

*Soviet Military Power and the Asia-Pacific Region* Abdul Razak Abdullah Baginda, 1989.

*The Political Power of Bad Ideas* Mark Lawrence Schrad, 2010-03-24. In *The Political Power of Bad Ideas*, Mark Schrad looks on an oddity of modern history: the broad diffusion of temperance legislation in the early twentieth century. To make a broad argument about how bad policy ideas achieve international success, Schrad focuses on the dynamic interaction of ideas and political institutions, tracing the process through which concepts of dubious merit gain momentum and achieve credibility as they wend their way through institutional structures.

**The Sources of Social Power: Volume 4, Globalizations, 1945-2011** Michael Mann, 2012-12-28. Distinguishing four sources of power—ideological, economic, military, and political—this series traces their interrelations throughout human history. This fourth volume covers the period from 1945 to the present, focusing on the three major pillars of post-war global order: capitalism, the nation-state system, and the sole remaining empire of the world, the United States. In the course of this period, capitalism, nation-states, and empires interacted with one another and were transformed. Mann's key argument is that globalization is not just a single process because there are globalizations of all four sources of social power, each of which has a different rhythm of

development Topics include the rise and beginnings of decline of the American Empire the fall or transformation of communism respectively the Soviet Union and China the shift from neo Keynesianism to neoliberalism and the three great crises emerging in this period nuclear weapons the great recession and climate change *Military Intelligence* ,1990

**Gorbachev's Revolution, 1985-1991** Anthony D'Agostino,2016-07-27 This detailed and scholarly history based on contemporary and original sources explains the fall of Soviet Communism by bringing into focus the process of revolution from above It finds as its cause Gorbachev s relentless political struggle to raise himself above the collective leadership which brought him to power Gorbachev s Revolution 1985 91 examines the impact of the SDI and other US arms programmes of the early 1980s which provided a stimulus for both Gorbachev s domestic reforms and his arms control initiatives Perestroika originally intended to show the world that a new Soviet foreign policy was based on real changes in Soviet society however Gorbachev launched its most radical measures in order to get an edge on his Politburo critics Glasnost originally meant to be a strictly controlled process furnishing an argument for piecemeal economic reforms This multi faceted volume provides a wide ranging and revisionist analysis of this fascinating and influential period in Soviet and international history The Collapse of the Soviet Union, 1985-1991 David R. Marples,2016-09-17 Why did the Soviet Union collapse in 1991 The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology This book argues that the disintegration was mainly a result of two interrelated factors the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev Written in a clear and accessible manner the book provides an explanation of how the national question came to dominate Soviet politics by 1990 1 analysis of the economic crisis that occurred in the late 1980s a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December a discussion of the personalities of and political confrontation between the two key statesman Gorbachev and Yeltsin Also containing a Chronology Glossary and Who s Who of key figures The Collapse of the Soviet Union is essential reading for students of twentieth century European history

Crucible of Power Howard Jones,2008-03-20 This book is a narrative history of America s foreign affairs from 1897 to the present that focuses on the major personalities and events from the William McKinley administration through President George W Bush *The New Russians* Hedrick Smith,2012-12-05 NEW YORK TIMES BESTSELLER From the Pulitzer Prize winning author of *The Russians* a lively and provocative analysis of the Soviet Union in its twilight years The New York Times Book Review Even from afar the transformation in the Soviet Union held a special fascination for all of us and not only because it affected our destiny our survival even the changing nature of our own society What happened there riveted our interest for a deeper reason It was a modern enactment of one of the archetypal stories of human existence that of the struggle from darkness to light from poverty toward prosperity from dictatorship toward democracy It represented an

affirmation of the relentless human struggle to break free from the bonds of hierarchy and dogma to strive for a better life for stronger richer values It was an affirmation of the human capacity for change growth renewal The New Russians is about how that story of change began and what this change meant for the Russian people and for the rest of the world

## **Gorbachev The Path To Power** Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is truly remarkable.
