 another 5 000 times William a 37 year old from El Gorri n Colombia Why and how do some people move out of poverty and
 stay out while others remain trapped Most books on growth and poverty reduction are dominated by the perspectives of
 policy makers and academic experts In contrast Moving Out of Poverty Success from the Bottom Up presents the experiences
 of poor people who have made it out of poverty The book s findings draw from the Moving Out of Poverty research conducted
 in communities in 15 countries in Africa East Asia Latin America and South Asia The authors synthesize the results of
 qualitative and quantitative research based on discussions with over 60 000 people in rural areas They offer bottom up
 perspectives on the processes and local institutions that play key roles in escapes from poverty The study finds that there are
 no differences in the initiatives taken by the poor the rich and the upwardly mobile What then explains the difference in
 outcomes The authors demonstrate how in the face of deep social inequalities that block access to economic opportunities
 and local democracies individual initiative and empowerment by themselves are often not enough to escape poverty This
 book will be of interest to all concerned with equity in an increasingly unequal world *Friends to the Rescue* Nancy
